Growers of Oregon Will Form an Organization.

OF COAST UNION

Sonoma Producers at a Meeting at Santa Rosa Form an Association-Benefits It Is Proposed to Secure.

Hopgrowers in several sections of Oregon are taking steps to organize for mutual pro-tection. The ruinous market prices that low prevail make it evident that something ust he done to save the industry. Meetings save been called to discuss the proper meaures. The California growers have com-pleted an organization and will send delegates to Oregon and Washington to get the

farmers of these states in line.

Calls have been issued for growers meetors this week at Independence, Dallas and North Yambill, and it is likely that meetings will be held in other sections. S. H. Petre, he has issued a call for the meeting at Dallas next Saturday, says it is not proposed o form an independent organization, but to discuss plans for a general organization of the entire Pacific Coast, and he would be glad to have M. H. Durst or any of the California representatives on hand.

Sonoma Growers Organize. About 70 of the leading growers of moma County, California, met last Thursday at Santa Rosa to consider the matter of a Pacific Coast Union. They represented 2500 acres of the 4000 acres of hops in the manty. Joseph T. Grace was chosen chairman and James Petray secretary. Among the speakers were M. H. Durst, of Wheat-land; Edward F. Woodward, Blitz W. Paxion, R. Cunningham and John M. Laughlin

fully gone into and many of the details were xplained. In the organization of the big Pacific Const Union the States of California Oregon and Washington are included. It is proposed that the union shall be divided into three districts, each state comprining a district. Each district will have is own board of directors and officers and they will be governed by articles of incorparation and bylaws. The parent organizaofficers of the three district organizations so that each district will have the same fair representation.

union, as was explained at the Santa Rosa meeting, is to be formed on the plan of the Cottengrowers' Union, which was or-ganized some years ago when the cotton inlustry was in about the same condition as Inion now has about 100,000 members in 12 states and its affairs are managed by a central board of directors. These directors have authorized that the cotton new or hand he held for a fixed price of 15 cents

Objects of the Union.

The objects of the Hop Growers' Union are to secure the co-operation of Pacific Coast hopgrowers in doing any and all things which will benefit the industry; to finance all the hopgrowers, so that they will be able to grow, harvest, and hold their hops a reasonable time, and be at the mercy of no dealer, bank, or combina-

Export surplus. Regulate home supplies. Secure a minimum price of 20 cents per

pound.

Enlarge our foreign markets.
Save \$300,000 per annum on cost of selling the crop.

Kill short selling.
Put a stop to forward contracting.
Collect market and crop news and disseminate it for benefit of members.

Keep track of the consumption of hops
and stocks on hand for our own information.

Buy all supplies in bulk at great saving

Regulate harvesting expenses.

Regulate labor supply so all sections would be cared for.

Secure free importation of bagging, Promote manufacture of bagging in

Adopt a uniform contract of sale.

Adopt a unitorial con-provide for arbitration, firstain legal talent to enforce our rights. Foster home labor by paying better

Discourage Asiatic contract labor. Encourage social intercourse among growers.
Send a committee of growers each year
to study conditions in forsign countries,
and report on them for the benefit of the

and report on them for the benefit of the industry at home.

Give our families the best the land affords, instead of being compelled to deny them actual necessities.

Free ourselves and families from the burden of debt and impending ruin now staring us in the face.

Regain our independence and self-respect. Improve our financial standing.

Add years to the life of every hopgrower by eliminating the risks and worries new attending hopgrowing.

SOME NORTHERN DEMAND FOR ONIONS Inquiries From Seattle Cause a Firmer Feeling Locally.

There is a firmer feeling in the onion market, owing to some inquiry from Scattle, and holders who last week asked \$1.75 are now quoting \$2. Potatoes continue to drag because of the slow California demand. There was a fairly good trade in the fruit line yesterday with most interest cen-tering in oranges. The last car of cran-berries to arrive this season has been unloaded. A car of celery was due from Los Angeles last night. The California celery market is quoted firmer. Two cars of field sweet potatoes are rolling, after which

FIRMER TONE IN THE BUTTER TRADE supply Is Becoming Smaller While Demand Holds Up Well.

A very firm tone prevails in the local but-ter market. The supply of both city and out-of-town make is becoming shorter, while the demand continues as good as ever. One creamery that maintains a city delivery has advanced its quotation to 3712 cents, but the city creameries have not yet announced a

again slowed down and prices yesterday were quoted weaker and about I cent lower all around. Some of the larger exorters are out of the market entirely for

changed. A considerable quantity of hay is coming in, but the market holds steady. The Merchants' Exchange yesterday is-sued the following statistics on the quantitles of wheat on passage;

their hops a reasonable time, and be at the mercy of no dealer, bank, or combination; to annually export the surplus; to handle the entire Pacific Coast erop as a unit, and thus secure to the hopgrower an average of at least 20 cents per pound for lits hops.

The matter of financing the crop has been pronounced by bankers to be practicable. All the crops are to be turned over absolutely to the Union, to be handled as a unit.

The Union, through its directors, will arrange to advance hopgrowers up to a certain sum per pound, for growing and harvesting their crop. As soon as the crop is harvested and turned over to the Union, it will be absolutely out of the growers hands, and they will have nothing to do with it other than to receive their protected.

The prospectus of the promoters of the Union gives the following as the objects of the organization:

Finance growers.

Export surplus.

Export surplus developed and surplus surplus to be further for surplus to be further for surplus to be further

Effective Support Is Given the Stock Market.

LEADING ISSUES BID UP

Coppers and Western Union Are Exceptions-Call Loan Rate Firmer, Due to Increased Borrowing on Securities.

NEW YORK, Dec. 9.—The stock market of protective measures for the support of prices against depression. The vigor with

prices against depression. The vigor with which the market railled from the general declines at the opening and the determination with which prices were bid up on the half dozen stocks which are of most influence in shaping speculative sentiment on the whole list, gave testimony to the benevolent control being exercised by capitalists of the largest resources.

The fact of this support is now generally recognized on the stock exchange, while opinions vary widely as to the motives guiding the movement. Cynical observers profess to see in it nothing beyond a device to secure an advantageous position while capitalists are forced to avert utter demoralization of affairs in which they are interested. The more liberal view of the favor shown toward recovery is that readjustment of prices was warranted after the utter prostration to which forced liquidation had carried quotations. The effectiveness of the support of the market was the more notable by reason of the rather acute weakness shown by a few special stocks and which would, in an unfertered market movement, be of marked sympathetic effect on the general list.

The weakness of the copper group, including American Smelling, was pronounced and was directly attributed to the unfavorable trade developments. The drastic reduction of the output of copper, disclosed in the entire shutdown of some of the Amajamated Copper Company's properties points accurately to the source of the doubts reflected in the movement of these stocks. Further dividend reductions are counted upon as an outcome of this action. There is growing appreciation or the limited consumptive demand which figured in the recent large exports of copper, and which are now alleged to be going into European stocks in stead of into consumption.

The imminence of the dividend meeting of Western Union explained the special movement in that stock. Fears were entertained that a shrinkage in general business activity, always reflected in telegraph revenues, as well as the losses incurred in the strike of the tele

Argentine Crop News Depresses Wheat Market.

EXPORT DEMAND IS POOR

Government Report Showing Reduced Winter Wheat Acreage Has Only Temporary Effect on Prices at Chicago.

CHICAGO, Dec. 9 .- The wheat market was weak the greater part of the day. Prices railied somewhat after the publication of the Government report, which estimates the newly seeded area of Winter wheat to be 1.9 per cent less than that of last year. The market, however, soon yielded to selling by pit traders and commission-houses and closed weak and at the low point of the day. A private dispatch from Argentina, claiming weather there was mission-houses and closed weak and at the low point of the day. A private dispatch from Argentina, claiming weather there was favorable for harvesting, was the principal depressing factor. Liberal receipts in the Northwest, a poor demand from exporters and a decline in corn were additional bearish factors. May opened 16 \$\frac{1}{2}\$ \$\

GALLAGHER IS NOT FOUND Calhoun Trial Postponed Because

Chief Witness Is Missing.

SAN FRANCISCO, Dec. 2.-The disappearance of former Supervisor James L. Gallagher, one of the most important witnesses for the state in the bribery graft cases, and the inability of the pros-ecution to locate him this morning, caused the postponement of the trial of Patrick Calhoun, president of the United Railways, until January 7. Mr. Calhoun Hallways, until January 7. Mr. Calhoun desired to go to New York and was given permission by the court to leave the state. Judge Lawlor, in making the order of continuance, laid stress upon the absence of an important witness of the state, coupled with "uncertainty of his reappearance in this city." This has given rise to rumors that Gallagher left with the intention of not returning to San Francisco. The prosecution regarded his testimony as the self-confessed "go-between" between Abe Ruef and the bootween" between Abe Ruef and the boo-dling Supervisors as one of the strongest links against the public service cor

porations.

Mr. Calhoun, through his attorneys, stated to the court that he was anxious for the trial to proceed, but that important the finance of the court that it is ant business connected with the financing of the United Railways demanded his presence in New York City. The post-ponement of the Calhoun case carried with it the continuance of other bribery-graft cases, all of which were today post-

Golden Denies Hired to Testify. GEORGETOWN, Ky., Dec. 9 .- The cross-examination of Wharton Golden was resumed today at Caleb Powers' trial. For three hours Golden was taken over his connection with the crime under rigin cross-examination by Judge Sims, for the defense. Once or twice during the examination Golden almost broke down, pleading bad health for

lack of memory.

The defense sought to show his testimony was purchased and that he received \$5000 to swear against Powers, Golden denied this. Asked why he came to Kentucky 11 times from Colorado to testify in these cases, Golden said it was done to ease his conscience.
