At the regular meeting of the Sellwood Board of Trade, Monday night, A. S. Wills, president, a resolution was introduced addressed to the City Council asking that street and other city legal notices be given publication in the daily newspapers. It was set forth in the resolution that as now printed the people most interested and who want to keep in touch with the city's business do not see these notices at all; that they never see notices of street improvements and street assessments in which they are interested; that the first they know of improvement of streets in front of their property is when work starts, or when they are called on to pay for the work, and that only contractors have an opportunity of knowing what goes on in this way. Resolutions will be sent to the Council. It was stated that complaint to general among property owners that they have no opportunity of keeping in touch with city business as now published. LAND VALUES ARE INCREASED

Southern Oregon Dairymen Tells of Industry's Growth.
D. Peruzzi, vice-president of the Oregon State Dairy Association, and manager of the Ashland Creamery, has arrived in Portland to attend the meeting of the Dairy Association, to be held tomorrow morning. Mr. Peruzzi is deeply interested in the dairy industry of this state and speaks encouragingly of its future. He advises that large delegations will arrive from all the dairying districts of Southern Oregon.

"The most remarkable thing about our country," said Mr. Peruzzi yesterday, "is the immigration within the past two years of farmers from Wisconsin and Iowa, states which are famous throughout the country for their dairying, and these men have brought with them the modern dairy methods which characterize those regions. The effect on land values has been so marked that land which used to sell for \$10 an acre as grazing land now commands \$25 an acre. The effect in Jackson County alone, as shown by the Assessor's books, was \$1,000,000 more than last year. Where three years ago five persons were eking out an ex-

Intense on a certain territory, is are now making a splendid living. "The products of the dairy industry in Southern Oregon this year show an increase of 30 per cent. over last year. Our part of the state is being transformed from a stock-raising region to a dairying region. Applegate and Williams Valleys, that formerly were given over to stock-raising exclusively, in the past two years the farmers have established co-operative creameries and nearly all of them are making from four to 10 cents and deriving a splendid revenue from them.

"The increase in land value from \$10 to \$25 is in direct ratio to increased earnings brought about by dairying over those received from stock-raising."

EXHIBIT FOR ARCHITECTS Draftsmen Throughout Pacific Coast Will Send Work Here. Arrangements are now being made for an exhibition of drawings showing the work of Pacific Coast architects, to be held in the Art Museum January 6 to 21, under the auspices of the Portland Architects' Club. A committee from the club composed of E. F. Lawrence, A. E. Doyle, C. L. Linde and J. Jacobberger, are in charge of the exhibit and are now engaged in arranging the drawings in the exhibit hall. A committee composed of W. R. Ayer, Mrs. Hugh Hume, H. P. Wentz, J. Jacobberger and I. N. Fieschner has been appointed to pass upon the drawings to be included in the catalogue to be used during the exhibition. Drawings have been received from Seattle, Tacoma, Spokane, Los Angeles, Denver, Salt Lake, Milwaukee and the larger cities of the East.

The exhibition is given for the purpose of showing what is being done by the architects of the Pacific Coast and to prepare the way for the formation of a league of architects on the Pacific Coast, modeled after the Architectural League of America and the Institute of American Architects, which provides for exhibitions for brief periods in each city of the Atlantic Coast and which have been found to be of great value to members of the profession.

NOW READY FOR CANVASS East Side Library Committees Organized for Campaign. Most of the East Side Library committees which will canvass for funds with which to erect a library building for a branch library on East Eleventh and Alder streets, were organized last night at the home of architect on the Pacific Coast, modeled after the Architectural League of America and the Institute of American Architects, which provides for exhibitions for brief periods in each city of the Atlantic Coast and which have been found to be of great value to members of the profession.
