If Success, Surgeons Will Command All Hospital Ships-Hale Takes Up Cudgels for Brownson in Dispute.

WASHINGTON, Dec. 27 .- The orders assigning Surgeon Charles F. Stokes to the command of the hospital ship Relief are expected to be signed very soon, it having been definitely decided, according to Secretary Metcalf, to appoint him to that position. With this end in view, every effort will be made to obtain a merchant crew and master for the vessel. Failing to man the Relief with a crew from the merchant marine, the culisted from the merchant marine, the cultates force of the Navy will be drawn on and

Loses, but Can Stand It.

Admiral Brownson's relinquishment of Navigation as chief of the Bureau of Navigation will result in a considerable loss of pay to the officer. It so happens, loss of pay to the officer. It so happens, however, that Admiral Brownson is a man of independent means and able to disregard financial conditions in taking his stand as champion of the line in the present battle with the staff. The formal order detaching Rear-Admi

Senator Hale, chairman of the commitee on naval affairs, voiced frankly his attitude towards the resignation of Admiral Brownson as chief of the Bureau of Navigation.

"Evidently Admiral Brownson recog-nizes this fact and, being a man of charicter and decision, he did not hesitate to resign his position, when, as the active head of navigation, his view of the law and of the best policy in the interests of the service was overruled. He will not lose anything by his manly course, either in the Navy or with the public."

Brooklynites Offer Haven to Striking Renters in New York.

STRIKERS SEEM RESOLVED

Meetings Held on Street Corners and Many Advocate Resistance to Evictions-Crisis to Come When Collectors Make Their Calls.

NEW YORK, Dec. 27.-Real estate agents from Brooklyn went into the crowded tenement house districts on the East Side of Manhattan today and tried to do missionary work in their own interests by urging the tenants who are now engaged in a crusade for who are now engaged in a crusade for lower rents to move to Brooklyn. But activity of outsiders did not seem to disturb the local real estate owners and agents. Some of them id that the East Sider is a clannish creature and likes to associate with the friends and neighbors whom he had known since his arrival from Europe.

"A majority of them some right here from the steamers that bring them over, or from the immigrant station," he said. "They stay here too, until such time as they have earned their little piles and can move elsewhere."

Socialists Not Connected.

At the Socialist party headquarters on Grand street, it was learned today that the evictions which have been made since Philadelphia, Chicago and Providence, the evictions which have been made since Each has over a million dollars, worth of the rent-strike was decided upon have no real connection with them. Such conganize and pay in full, and save the plants and business for the stockholders. The receivers will continue to operate the point will come, if at all, when the collectors make their January calls. There were tenement house meetings on simost every block tonight. For the most part these were impromptu gatherings, without any attempt at organization but each was marked by many declarations of war against the landlords.

Some Advocate Resistance.

Many of the tenants were of the opinion that their end could be best accomplished by resisting attempts to collect present rents and affording shelter to persons evicted. There were others who favored more drastic measures, and many tenants discussed a combined stand against the marshals in the event of evictions.

Pauline Newman, who is reputed to be the woman leader of the strike move-ment, is in favor of moderation; she has told the women associated with her that they can hope to win by united action if they are careful to keep within the law, and that the landlords, if a united front is presented to them, will be bound to yield rather than fight thousands of dis-

Great Advance in Rents.

Rents in the tenement-houses, it is said, have practically doubled within the last three years and have advanced 20 per cent within the last year. To make the bad matter worse, the heads of thousands on matter worse, the heads of thousands of families are out of employment now on account of the cutting down by various employing firms and factories.

Owners of buildings are relentlessly evicting tenants who refuse to pay, as rapidly as possible, and many dispossess notices were tacked upon doors all over the district vectories and possible. the district yesterday and more will be served today. The landlords say that untances will they make any reduction in the rents and several of them announce that they will close the tenements rather than reduce the rents.

Chicago Is Sympathizing.

CHICAGO, Dec. 27.-The possibility CHICAGO, Dec. 22.—The possibility that residents in the congested districts of the West Side might emulate the lower East Side in New York City, and likewise call a "rent strike," was duly discussed in the Ghetto yesterday. About 700 people held a meeting last Saturday at which plans for the organization of a "Union of Tenants" were made, That rents are higher in the Ghetto than anywhere else in the city is admit-ted eyen by the landlords, who say this is the inevitable result of "congestion

MYSTERY STILL UNSOLVED

Identity of Young Woman Found Dead in Pond Not Revealed.

NEW YORK, Dec. 27.—The mystery surrounding the circumstances of the murder of the unknown woman whose body was found nearly submerged in a pond in the outskirts of Harrison, N.
