Bank stock, mining stock, or any other stock that will pay 50 to 75 per cent on the money invested, if offered for sale, would be snapped up as quick as lightning. Just because you are not acquainted with cranberry culture you are not interested. Others are getting annually absolutely sure returns of 150 to 200 per cent on the money invested in the business just the same, whether you know it or not. And yet you are not interested, although you are looking for a good safe and sure investment for your money where it will pay you even small rates of interest. No other investment is surer, safer, and will give you larger returns than will cranberries. I have the best cranberry proposition on the Coast, which I am selling at from $42.50 to $100 per acre.
