## WILL TAKE CENSUS

Churches to Make Religious Enumeration in Portland.

DO IT IN AN AFTERNOON

Object is to Learn Sectarian Preference of Every Person in the City-Over 1000 Enumerators Will Be Required.

The religious denominations of Portland are indorsing the proposition to take a religious census of the city, and A. H. Cross, of Cleveland, O., Sunday school field secretary, who has had charge of these house visitations in many cities, has been considered to the control of explained plans for the work to several of the pastors and church workers of

house visitation of Portland was first proposed some months ago by the Oregon State Sunday School Association, and was favored by Presbyterian, Bap-tist, Methodist and Episcopal clergy. In the union pastors' meeting yesterday a resolution indorsing the movement was passed and a committee of five is to be appointed from the pastors to co-operate with the committee of the Sunday School Association. The general idea is to make the house visitation about the first week

The novel feature of this census is that The novel leature of this census is that plans have been made to visit every home within the corporate limits in a single afternoon—not an easy task, as is at once apparent. However, it is a matter of organization and system. Each church will furnish a number of visitors and about 100 of these visitors will be needed in all. The plan is to find out the and about 1100 of these visitors will be needed in all. The plan is to find out the church membership or the church attended or preferred by every person in the city. Each enumerator will be asked to call at from 30 to 45 homes. Stores, offices and saloons will not be visited. When the work is completed the census cards will be distributed to the pastors preferred, thus enabling each church to see directly to those they can most easily o directly to those they can most easily

The movement will be inexpensive, since The movement will be inexpensive, since each visitor donates his services. The committee of the Oregon Sunday School Association will furnish the headquarters for this unique canvass and is willing to have Rev. Charles A. Phipps, the state field worker, spend several weeks in immediate charge of the work. Field Secretary Cross will assist in a general retary Cross will assist in a general

Similar visitations have been made in Similar visitations have been made in about 200 different cities, including Philadelphia, where 4200 church workers served as visitors on a single day—St. Louis, Cleveland, Buffalo, etc., with excellent results to the churches.

The movement is absolutely non-sectarian and in most cities churches of almost cover creat on ordersts.

Since coming to the Coast, Mr. Cross has conducted visitations in Bellingham, Everett, etc., in Washington. Just now the movement is being talked of in Tacoma, Scattle and Oakland.

### SPEAKS ON "LOST WORLD"

Dr. Foulkes Begins Series of Evangelistic Services.

Evangelistic services started at the First Preabyterian Church last night, with the auditorium comfortably filled to hear Dr. Foulkes discourse on "A Lost World." As the revival services are being held during the week of prayer, and because the membership of the First Church is scattered over the city rather than confined to one district, the church elders have devised the unique plan of bolding sectional prayer-meetings during

Dr. Foulkes spoke in part last night as follows:

These meetings are not being conducted solely because it is the custom, although it does lead enthusiasm to know that we are in keeping with thousands of the brethren over the Christian world during this week of prayer. It is not the desperation of failure that is impelling us because every other means has been exhausted to arouse interest and gain members for the church, nor is it solely our enthusiasm for the gospel which we believe is the supreme gift of field to earth. It is the desperation of failure have. It is not enough that we may be saved, but we must be saved.

Modern evolution teaches that sin is a necessary evil and I know I go against the trend of the day when I say the heart of man is despicably wicked. Yet so did Paul when he arraigned sin in the Roman metropolis. Dilitante Rome laughed his preaching to scorn for had she not wealth flowing from every point of the compass, power, this most brilliant moralists of the day, literature and law? Yet the inspired apostle dared to say all had sinned.

to say all had sinned.

Sin is not crime, but infinitely greater. Crime is a breaking of the laws of man. It is only the faintest outward expression of the vileness in the heart. We can only understand sin in the light of the transgression of God's laws. There never can be a real revival until the consciousness of sin sinks into our hearts. The greatest sin is that of rejection of Jesus Christ. It is not merely that we stay in the dark when there is light about or that we are heathen and see not the light; but the light has come into the world and we withdraw into darkness because we love darkness rather than light.

### PLACE TAX ON VEHICLES

New License Ordinance May Be Recommended Today.

Bitterness has been engendered among members of the Council general licensa committee over the proposed ordinance, introduced by Councilman Annand, taxing all private and public conveyances \$5 a year for those drawn by two horses and \$12.50 a year for those drawn by one horse. At a meeting of the committee yesterday afternoon, it was sought by F. F. Freeman, counsel for merchants who are opposed to the measure, to secure a post-ponement. Chairman Kellaher, a grocer and strongly against the new law, favored delay and M. J. Driscoll, a draytook exception to Mr. Keliaher's

position.

"You have never given the drayman a fair show at all," declared Mr. Driscoll, who is believed to be the real framer of the ordinance, that cuts the yearly taxation of the draymen 15 per cent. "You have sought to hold up this ordinance ever since it was introduced, and now you are again trying to put it off."

"I have given the draymen a fair show, and don't care how soon the matter is settled," replied Mr. Kelinher.

It was finally decided that the committee is to meet at 2 v clock this afternoon to make a definite recommendation
concerning the proposed ordinance, aski

as it now stands.

It was over this proposed piece of legislation that Mr. Kellaher, one week sgo, declared that the Portland Dray-Men's Association was an absolute trust, a combine in restraint of trade and that Mr. Driscoll was a member of it. At a subsequent Council meeting, Mr. Kellaher was called upon by a resolution, intro-duced by Councilman Belding, to deliver over to the City Attorney such evidence as Mr. Kellaher might possess against the alleged trust, and the City Attorney was ordered to investigate, with a view to instituting proceedings under the Belding anti-trust law.

In the litigation between the North 1: ific Terminal Company and the Portland & Seattle Rallway in the United States Circuit Court, involving the question of terminal rights in Portland, Judge Wolverton yesterday granted the petition of the Terminal Company to file an amend-ment to its bill. The purpose of the amendment was to show that the Great Northern and the Northern Pacific, own-ers of competing lines from the Missouri River westward to the Pacific Coast, are the promoters of the Portland & Seattle Road and further that it is the purpose of the latter system to construct a line from Spokane to Portland and thence to Seattle in the interest of the two compet-ing roads and for the further purpose of shutting out the construction of other lines along or near the same line, thereby thwarting and hampering competition in violation of the Federal anti-trust law. WEAKNESS

"Weakness" is not a nervous disorder demanding a tonic system of treatment, but is merely a symptom of chronic inflammation or congestion in the prostate gland. This condition exists as a result of early dissipation or some improperly treated contracted disorder, and requires carefully directed local measures only. By my own original methods, the prostate gland is quickly restored to its normal state, which results in full and complete return of strength and vigor. My cures are permanent because the condition responsible for the functional disorder is entirely removed, and I am convinced that by no treatment other than my own carefully directed local measures is a radical cure of this aliment possible.
