By order of Judge Cam-eron, at the suggestion of the police, the Judge Cam charge of drumkenness against her was allowed to pass, since she expressed a willingness, in fact an eagerness, to take the next train back to Mount Angel. As she left the station, Captain. Moore gal-lantly restored to her the slik handbag, together with the cards and the tobacco. The bottle alone was retained.

by Mrs. Montgomery.

The trial and acquittal of William Patton by a jury in Judge Gantenbein's department of the Circuit Court yester-day revealed the shallowness of Mrs. Frances Montgomery's story of the al-leged knavery of Patton. There's Quite a Row **About Unsanitary** Bakeshops

We don't know how bad or how good they are.

The papers say some startling things and the Health Boards are stirred up.

It seems an opportune time to say that the most nourishing bread in existence is not in the shape of bread at all, but is composed of granules.

That's GRAPE-NUTS.

No bread in the world is so nutritious, for Grape-Nuts food is made of entire wheat and barley and goes through various processes of baking, during which the starch part is turned into a form of sugar to be seen glistening in minute particles on each granule of Grape-Nuts. The food is the easiest to digest in the entire list of all foods and it will pay to use it in place of white bread and observe how well you feel.

The factories are the world's standard for cleanliness and sanitary conditions.

Scores of visitors are escorted thru the factories each day and see just how Grape-Nuts and Postum are made and how immaculately clean every nook and corner is.

Come, you all are welcome.

If you can't come, send a postal card with address carefully written and we'll mail free the beautifully illus-trated book, "The Door Unbolted."

It takes one all thru and the pictures show the interesting machines at work.

Grape-Nuts food and Postum are never touched by human hands in the processes of making.

There's happy health with Postum and Grape-Nuts,
