Warriors of 1907 Guests of Honor at Annual Dinner of the Multnomah Club.

HELD AT HOTEL PORTLAND

Captain Frank Lonergan, Who Headed Winning Team, Presented With Gold Watch-E. Plowden Stott His Successor.

E. Plowden Stott, quarterback of the past season's football squad, was unautmously chosen captain for 1908, and Captain Frank J. Lonergan, the leader of the victorious team of 1967, was presented with a handsomely engraved gold watch, at the annual banquet tendered the gridiron heroes by the directorate of the Multnomah Amateur Athletic Club at the Hotel Portland last night.

In addition to the directors of the club, the members of the football squad and the heads of the various departments of the institution, representatives of the press were present as special guests. The press were present as special guests. The only regretiable feature was the unavoidable absence of Mr. Stott, Martin Pratt and Bert Pilkington, members of the victorious eleven, who were prevented from participating by Illness. The rest of the football heroes who upheld the glories of the club on the gridiron were gathered at the table and were lavishly showered with honors.

The dinner was elaborate, as befitted a testimonial to the men who labored so faithfully in behalf of the club, and each and every one present was made to feel as though he, individually, had had considerable to do with the success of the past year's efforts.

All Sports Considered.

While football was the leading topic, it was, nevertheless, brought forcibly to bear on the gathering that the other branches of athletics fostered by the subranches of athletics fostered by the su-perb institution were not without their uses. Short falls on the various sports were made by the chairman of the com-mittees having each branch in charge, and each suggestion, brought forth through the attendance of practically the entire board of directors, was enthraias-tically received.

Aside from the stirring speech of Captain Lonergan expressing his gratitude and thanks for the handsome gift from the club, which was undoubtedly one of the finest ever made at an annual club banquet, the speech of Professor Hugh H. Herdman on the "Foundation of the Success of the Multnoman Club" was the feature of the night. Professor Herdman impressed upon the club members that it impressed upon the club members that it was unquestionably due to the confidence of the mothers and fathers in trusting their children to the care of the institution for physical development that the winged "M" owes its present standing. Professor Herdman dwelt on the influence exerted by the large classes of women and children, who are instructed in the art of physical improvement at the club. "Wherever the home influence is in accord with the teaching at an athletic club, that club is bound to be successful, for it is necessary that we have the confidence of the parents before we can hope to succeed in developing athletic talent," to succeed in developing athletic talent,"

Nominates His Successor.

In concluding his remarks Captain Lon-ergan placed the name of his successor in nomination. The election was made by acclamation. All present expressed sin-eere regret over the unavoidable absence of Mr. Stott, on whose shoulders now devolves the task of whipping into line

Manager John A. Horan, in the course of his remarks, after extending his thanks to the club for past favors and couple are on their weeking trip, having the loyal support he had received during the season, made a suggestion which met with the approval of all present. The proposal was that the club should recogproposal was that the cito should recog-nize a second eleven, as was customary in years gone by. During the past sea-son it seems that several exceedingly clever players were among those who tried for the senior eleven, but owing to lack of weight they were handicapped lack of weight they were handleapped. It is for the purpose of recognizing such willing young athletes, that the forming of a second eleven is proposed. This proposal will likely be acted upon favorably at the annual meeting of the board of directors in February.

George W. McMillan, president of the club, in his address pledged himself to event his influence with his successor to

exert his influence with his successor to dopt the suggestions for improvement f various branches of sport as pro-osed by the members present. Director E E Morgan spoke on cleaner

Landlady Accused of Larceny.

Mrs. Anna Harding, who keeps a lodging-house at 68 Seventh street, was ar-resided last night at 10:45 o'clock on a warrant charging her with larceny, sworn out by I. J. Helms, a barber, who declared that Mrs. Harding entered his som and took several articles of loo room and took several articles of loose clothing and a trunk filled with his wife's belongings, and refused to return them, on the ground that money was due her for room rent. Helms produced re-ceipts to allow that his rent had been paid, but in spite of this the woman con-tended that he still owed her S. and re-fused to give up his belongings. Helms said that his bank book had been taken,

but this was denied. Mrs. Harding was taken to the police station, but was later released on bail of \$50.

Four Matches Played.

Four matches in the handicap billiard urnament now in progress at the Multnomah Club were played last night. Plummer defeated Edwards by a score of 50 to 30. Ross bested Holbrook in a well-played game in spite of the score, which was 50 to 28. The match between Brigham and Ackerman resulted in a score of 60 to 45 in favor of the former, and was one of the most exciting contests of the tourney. Walters defeated Morgan decisively by a score of 30 to 29. The vic-tor made a high run of 40 that seemed to discourage his opponent.

Discusses Violin Technique, and Doesn't Think Paganini Was Inspired by the Devil.

BY J. M. QUENTIN. HEN I stepped aboard the car Oceanic near the Terminal Depot, yesterday afternoon, to pay a friendly call on Jan Kubelik, the worldrenowned violin-virtuoso, quite a stirring display of men's wearing apparel beautified the compartment as I entered the car from the rear end, and a colored man was handling the aforesaid garments with

satisfied appreciation. "Are these Mr. Kubelik's clothes?" was I asked, but the colored man answered

weak health, and had trouble with his eyes. His parents were poor people, and trying to find an easy way by which he could earn his livelihood without hard,

dy music. Without their knowing it, my father was a natural musician, and he began his studies by taking six lessons on the violin—just six. And that was all he ever received. He became known largely as a self-taught musician, and in addition to playing the violin and plano he was a noted composer of music. He also made noted composer of music. He also made a living by growing vegetables and flowers in his garden. My brother, who was a few years older than I, asked my father for violin lessons, but my brother evidently did not have talent in that direction, and the violin lessons ceased. "When I was 5 years old I asked my father for violin lessons, but he was unwilling at first to spend the time on me, remembering his musical experiences with my brother. However, he finally agreed to see what I could do after one violin lesson. How well I remember the event! I was so eager to please, and did my best.

lesson. How well I remember the event! I was so eager to please, and did my best. My father admitted that it might be worth while to teach me the violin, and he gave me violin lessons for one year. Then he thought I would learn faster from some other teacher. After that I had several of the latter, as my father was difficult to please about a teacher, and made many changes. Ultimately I had the happiness to be placed under the instruction of the great Professor Selvck, of Prague, one of the world's greatest authorities on violin, and studied with him for six years. Most of his pupils practiced from five to six hours every day, but at first I could not do this as I lived some distance from the conservatory, and had to walk all the way. In those early had to walk all the way. In those early days I practiced from two to three hours a day, and worked harder when I be-came stronger. "I practically began my career as a

professional violin-player in Vienna, where I played for six months in small concerts. Then I began to appear on my own behalf at concerts in Prague, Vienna and Budapest—the latter premier concert being the most important of all. Then my career widened, and I began to play long tours through Europe. I have twice before visited the United States, the first time in 1901-'02, when I played 85 times, and the second in 1905-'06, when I played 15 times. During the present tour I hope to play 195 times. After this city, I am to play in Eugene, then a second time here and in Seattle, and then through Culifornia. I hope to finish this through California. I hope to finish this tour in April, when I go to Australia."

Yes, violins sometimes get tired—just like human beings, and then they require a rest. On the days I play at concerts I practice only about one and one-half hours. Other days, when I do not appear at concerts, I practice five hours daily. My favorite bit of music? That's a difficult question to answer. But I like to play Bach's "Claccone."

"You must have recognized me from my hair?" he queried, smiling. "No? So many people say they do. And you want to interview me concerning my early musical experiences? Weak Heart Action

There are certain nerves that control the action of the heart. When they become weak, the heart action is impaired. Short breath, pain around heart, choking sensation, palpitation, fluttering, feeble or rapid pulse, and other distressing symptoms follow. Dr. Miles Heart Cure is a medicine especially adapted to the needs of these nerves and the muscular structure of the heart itself. It is a strengthening tonic that brings speedy relief.

Try it. "For years I suffered with what I thought was stomach trouble, when the doctors told me I had heart trouble. I had tried many remedies, when the Dr. Miles' almanac came into my hands, and I concluded to try Dr. Miles' Heart Cure. I have taken three bottles, and now I am not suffering at all. I am cured and this medicine did it. I write this in the hope that it will attract the attention of others who suffer as I did."
