

HOPS IN DEMAND

Steady Movement on Eastern and London Account.

PRICES SHOW NO CHANGE

Large Part of the Recent Buying Has Been Done by Clem Horst.

A fair demand for hops continues, both on Eastern and export account. The surplus is being steadily reduced.

The heaviest buying recently has been done by the E. Clemens Horst Company, whose purchases during the past few days have amounted to some 800 bales at prices ranging from 5 to 6 1/2 cents.

Government statistics just received show that the beer output of the United States in November last amounted to 4,224,959 barrels, as compared with 4,174,221 barrels in November, 1906.

DRIED FRUITS WEAK IN THE EAST.

Market unsettled, both on California and Oregon figures. Commenting on the weakness of dried fruits generally in the East, the latest issue of the New York Journal of Commerce says:

The easy feeling was more pronounced in connection with California prunes than in other Coast products, but while in the effort to secure business holders seemed willing to make liberal concessions from quoted prices there was no general decline.

ELENTY OF SOUTHERN VEGETABLES.

Street Well Supplied With Two-Days' Stocks of Potatoes.

The vegetable and fruit markets were well supplied with yesterday's and Sunday's arrivals and a good general business was done.

POULTRY DULL AT PREVIOUS PRICES.

Eggs of All Descriptions Are Weak—Butter Receipts are Limited.

Receipts of butter were limited yesterday, but the few arrivals, together with the stocks carried over from Saturday, proved more than enough to satisfy the demand.

All Hike Markets Are Firm.

The firmness of the Eastern and Southern rice markets continues, according to the latest circular of Dan Tallman's Sons Company, which says:

The new year opens with a fair line of orders; prices are firm, as recent shipments from primary points show increased cost.

Bank Clearings.

Clearings of the Northwestern cities yesterday were as follows:

Table with columns for City, Clearings, and Balance.

Railway Traffic Officials Report Continued Shrinkage in the Freight Movement—Strong Rally at the Close.

NEW YORK, Jan. 13.—It is customary to await the actual occurrence of an expected event before taking action in the stock market.

The most important of the buying of stocks induced by this development proved to have been already accomplished when the market opened today.

While the heavy accession of cash to the bank reserves revealed by the bank statement was accepted as a relief, it was not without some apprehensions.

The selling of stocks was conducted with caution and skill, the selling was being pushed aggressively on the declines, but on the other hand the volume of offerings was quick to swell again.
