Take Planting Campaign,—A tree planting campaign is to be started in Selivood at once, under the auspices of the Board of Trade co-operating with citizens who dealer to make Sellwood one of the most attractive guburbs of Portland. Rev. D. A. Thompson, who is interested in the inovement, says it is desired to get the assistance of every citizen and home owner. In order to do this blank cards will be distributed by the school children and from the Leulwood Branch Library to every citizen and on these orders for trees are to be written. The card is then to be returned to be filled out. At least two trees are to be planted in front of each lot. The individual cost will be very small. The trees are to be planted deeply, so the roots will not interfere with the sidewalks. Maples, elms and nut-bearing trees may be selected. It is desired, if possible, so have the trees on each street different from those on the next street. In this way a greater variety will be secured. At the close of the tree planting a public gathering will be held and addresses made on the city beautiful.

BURGLAR LOOTS ' HOUSEBOAT .- M. D. Harrington, who lives on Ross Island and owns the houseboat Elisie has reported an unusual case of burglary to the police. During his absence from the houseboat, which he had not visited for a week, burglars gained entrance by shooting a circle of boles around the lock on the door. It might easily have been pried open with a jimmy or crowbar inamuch as the door and its easing are of light wood but the thief evidently was minus this part of his tools so resorted to this unusual method of gaining an entrance. All the furnish-ings of the houseboat were carried away, including even the folding bed. All the windows were smashed.

Ross, who came to Oregon from Delaware, Ohio, in 1847, with her stepfather Israel Mitchell. Raise M44 for Mes. Girrinos.—At a meeting of the pairolmen of the police force yesterday morning a committee of three was appointed to look after the interests of the family of Mrs. Gittings, the wife of Policeman J. W. Gittings who was recently killed by M. G. Bradley. Frank Patton was chosen chairman. E. Brothers, secretary, and Ernest Johnson, treasurer. Captains Moore, Slover and Balley turned over to Treasurer Johnson all the money which had been collected on their respective reliefs, a total of 184.15. During the meeting a check for 180 was received from the local lodge of the B. P. O. E. The affairs of Gittings as found by the committee show that there is still due on the Gittings house a balance of 370. After this is paid it will leave only a little over 100 and it was decided that whatever was necessary to provide Mrs. Gittings with some means of support after her departure from the Good Samaritan Hospital would be supplied by additional collections made up among the patrolmen. THE annual benefit of the local branch of the Theatrical Mechanical Association was given at the Marquam Theater that completely filled that handsome playhouse. The affair was the most success ful that has ever been held in the his-tory of the local lodge, and netted more than \$500 for the association. The fund thus raised is to be used in alleviation of thus raised is to be used in alleviation of the distress of unfortunate members of the order, and those connected with the theatrical profession, in whatever capacity, whether or not members of the association. It is one of the most useful theneficial orders of which I have any knowledge, and the fact that so many people turned out yesterday to attend the splendid benefit entertainment is an especial occasion for felicitation.

The affair was under the management of a committee consisting of A. La Brache, chairman, and D. M. Henderson, Milton W. Seaman, Ben Smith, Louis B.

Milton W. Seaman, Ben Smith, Louis B. Christ, James B. Welch, George L. Baker Fred Richter, W. T. Pangle, H. B. McCabe, H. P. Emery, Oscar Neillson, Don W. Bowen and L. L. Winters. There was no bitch in the Mctabe, H. P. Emery, Oscar Neilson, Don W. Bowen and L. L. Winters. There was no hitch in the arrangements, and in fact the whole affair was admirably conducted. The Marquam Theater was donated by the Imperial Amusement Company, of which Morton S. Cohn is president. The stage mechanics who volunteered their services were members of Portland local, No. 28, A. T. S. Et; the musicians represented Portland local, No. 99, M. M. A.; the mechanical effects were under the direction of H. B. McCabe; the orchestra was directed by John Seltenreich, and the general stage direction was in charge of D. M. Henderson. To these men and the volunteers who appeared on the programme too much credit cannot be given.

The programme consluted of specialties light, from the Seventh ward, has already announced his intention of fighting both proposals, but he seems to think that it is hopeless. At least he feels that he must have the support of the people if he is to make an effective fight. The mill company is calling for the vacation of practically all streets between Union avenue and the river and Lincoln and Division in the vacation.

credit cannot be given.

The programme consisted of specialties contributed by various professionals in the city, with the exception of two well-known legal lights, John F. Logan, who delivered an address, and Frank D. Bennessey, who sang a solo. All the turns were well received, and it would be difficult to discriminate in favor of any one of the performers, as the show was of such a high order of excellence throughout. An interesting feature of the enter-talument was the drawing of a handsome lady's gold watch, which was donated by Metzger & Co., jewelers of this city. The watch was won by William Winters, who held the lucky seat check. ORDON HAS LARGEST METEORITE.—In an article on "Famous Meteorites" in the London Graphic for December 28, considerable space is given to the Willamette meteorite, found near Oregon City, in 1992, concerning which there was much legal controversy. It is said to be the largest meteorite in the world. Photographs are meteorite in the world. Protographs are given showing its enormous size. Other meteorites mentioned in the article are the meteorite of Chulpadores, found in Mexico in 1852, weighing 15 tons; that found at San Gregario, Italy, in 1888, weighing 11½ tons, and the meteorite found near Bendigo, Brazil, weighing 5½ tons.

Enthusiasm prevailed during the performance, and one of the most representative audiences of people interested in stage affairs that could be assembled enjoyed the show.
