In some manner Kroschel learned that the complaints were to be filed, and the morning the warrants were issued he and William Olin, one of his employees, secretly left the city. Olin was later captured in Portland and Kroschel returned to Albany and gave himself up December 23.

An unusual number of criminal cases are to be heard. The deputy prosecuting attorney, Clarence Roeder, is hastening matters to bring in true bills against prisoners who are confined in the jail. There will be two cases of assault with a deadly weapon. One of the charges is at Takilma in the southern part of the county, in which J. H. Keal, a storekeeper, was attacked by one of his creditors named Rose, the latter putting several bullet holes through Keal's coat and vest.

The trial of John Hendricks for the shooting of Policeman Swearingen while rounding up hobos in this city will also come up. Hendricks was caught in Portland some time ago and sent back here. Ed Weber and Irwin Medley, the two men who are alleged to have taken money from Stephen Beers at the Layton Hotel on Christmas eve, will probably plead guilty to the charge. Ought the Wage-Earner to Invest His Own Money?

Yes. This is pertinently true, right now. There are several avenues. The one he thinks of first is a savings account. This is safe, sound and certain to a limited extent. If a savings bank will pay you 3 per cent for your savings, the earning capacity of your savings is limited to 3 per cent. If you purchase a certificate of deposit, bearing 4 per cent, your savings can earn only 4 per cent. The bank with which you deposit will reinvest your money, making it earn enough to pay you what it agrees and net the owners of the bank a profit besides. In other words, the banker is a middleman, using your money to make his. Is it possible for you to eliminate the middleman, invest your own money and save the full earning capacity of your savings for your own use? It is. You must merely place yourself in the attitude of the banker. Invest your savings directly in securities of the same kind as your banker would. Millions of dollars of Portland savings deposits are now invested by bankers in Oregon lumber-manufacturing companies. It has been found the most profitable money-accumulating medium in the Northwest. The right lumber proposition, admitting an investment by the man of small means, requiring a small amount of money, has been difficult to find. This company is an established and recognized lumber-manufacturing enterprise. For a short time, in order to enlarge the business, the small investor will have the privilege of buying its stock at a very popular price. Access to all the records of the company may be had today.

SO-CALLED PHYSICIAN ESCAPES

Man Responsible for Baby's Death Free on Technically.

OLYMPIA, Wash., Jan. 15.—(Special.)—The Supreme Court today rendered a decision in the case of the state against Charles McFadden. McFadden represented himself as a physician and was employed to treat the 9-month-old child of Ida Robison. He directed the mother to give the child no food except the juices of fruits and water and the baby starved to death. McFadden was arrested, charged with manslaughter. In his defense he claimed that the mother must have been the real murderer and at worst he could only be accused of being an accessory before the fact. The Supreme court holds that the information against him is defective in that it does not directly charge that his orders caused the starvation of the baby. Had it so charged the court says a manslaughter indictment would lie. In the case of the state on the relation of E. G. Thompson against the

State Board of Dental Examiners, decision is rendered for the Board. Thompson applied to the King County Court for a writ of mandamus to compel the Board to examine him as to his qualifications and to issue him a license. The lower court dismissed the application. The Supreme Court says the law requiring an applicant to have both a diploma and to pass the examination is not an unreasonable regulation and Thompson cannot compel a license on examination alone.
