BITTER WITH CALIFORNIA

MRS. COLTON SAID SHE WOULD SHAKE OFF ITS DUST.

Question of Millionaire's Domicile Brings Out Her Anger Against Golden State.

WASHINGTON, Jan. 22.—The case involving the question of the legal domicile of Mrs. E. M. Colton, who died here in February, leaving an estate of more than a million dollars, was brought to trial before Judge Bernard in the District Supreme Court. In Mrs. Colton's will Helen Margaret Sacher, a great-granddaughter of Mrs. Colton, was virtually disinherited, while the bulk of the fortune was left to John R. Dahlgren, who endeavored to have the will probated in California. Miss Sacher is attacking the validity of Mrs. Colton's will, claiming one-half of the estate. The first step in the case is to establish the domicile of Mrs. Colton. The statement of Miss Sacher's attorney was that Mrs. Colton repeatedly expressed her purpose in the early '80s to "shake the dust of California from her feet," and that she left California in 1888, feeling bitter over litigation with relatives as to the distribution of some of the estate left by her husband, General D. D. Colton. It is alleged that Mrs. Colton resided in Washington almost continuously from 1888 until the time of her death, and during that period spent only five weeks in Santa Cruz, Cal. It is expected the trial will take up about two weeks and that more than a hundred witnesses will be examined, some of them coming from France.

SAMUEL W. BROWN DEAD

LONG CONNECTED WITH LIFE OF VANCOUVER.

Born in Kentucky in 1819—Came to Oregon Land Office in 1861, Appointed by Lincoln.

VANCOUVER, Wash., Jan. 22.—(Special.)—Samuel W. Brown, one of the oldest and most prominent citizens of this city, died at his home at 1955 Seventeenth street this morning. He was 88 years old, having been born in Meade County, Kentucky, in 1819. He was educated in the local schools, finishing his education at Knox County Academy, where he was graduated in 1842. Shortly after his graduation he was elected Sheriff of Knox County, Illinois. He continued closely identified with Knox County politics and after the expiration of his term as Sheriff he was elected Mayor of Galeburg, Ill. CONFESSES TO DETECTIVE

Neroni Deceived Into Telling of Murder by Wholesaler.

DENVER, Jan. 22.—The Republican today prints an alleged confession secured by an Italian detective from Antonio Neroni, alias Bavori, charged with the murder of four Italians, three men and one woman at Florence, Colo. The detective is Frank Sandesko, of Pueblo, who, according to the story, gained the confidence of Neroni, who is now confined in the County Jail at Canyon City, by pretending to be a member of the Black Hand Society from Pittsburgh, Pa. The two were permitted to converse in a cell in the jail. Sandesko explaining his presence there by telling Neroni that he was being held on the charge of murder committed in Omaha. During the conversation Neroni expressed a desire to belong to the Black Hand, and when Sandesko told him that it was necessary for him to prove that he had committed 12 murders before he could be admitted, Neroni replied that he was eligible. Sandesko states that Neroni then related to him a series of murders he had committed, beginning with the killing of a neighbor who had abused him in Italy when he was but 12 years old. The narrative gradually broadened to the detail of details connected with the disappearance of the four Italians at Florence. Sandesko says that Neroni confessed that he killed the woman because she would not marry him, and disposed of the three men in most brutal fashion because he believed they suspected him of murdering the woman. It was his intention, Sandesko says, to kill the wife and two children of one of his

THE GRIP

WHAT EMINENT PHYSICIANS SAY AS TO ITS TREATMENT.

How to Prevent It—What to Do After the Grip. Eminent physicians like the late Dr. Geo. F. Shroy and Cyrus Edison of New York, agree that in the grip the patient should be at once made warm and be given a good cathartic. The Best Cathartic in the grip is Hood's Pills, because not only are they "easy to take and easy to operate," but instead of weakening like other cathartics they have a true "tonic effect." To prevent the grip, avoid undue exposure, keep your feet always dry, and take Hood's Sarsaparilla. This last advice is very important, because if your blood is in good condition and your appetite and digestion are all right, you will escape the grip. It seizes upon those whose health-tone is low, whose blood is thin and poor. After the Grip, Hood's Sarsaparilla is the greatest tonic that can be taken. It overcomes that weak, debilitated condition, purifies, vitalizes and enriches the blood, eliminates all that "grip poison," creates an appetite, aids digestion, and soon puts one "on his feet" again.
