

SUE FOR RETURN OF LOCATION FEE

Investors in Eastern Oregon Timber Lands Say They Were Swindled.

FEW TREES ON THE CLAIMS

Number of Portlanders Bring Action in Justice Reid's Court for Money Paid W. J. Cook to Locate Them on Quarter-Sections.

W. J. Cook, local timber broker, has had a hard time of it in consequence of having located a dozen women on timber lands in Malheur County. The locations were duly made and recorded, but the trouble lies in the fact that the women investors declare they were victimized. They were shown fine areas of rich timber land and located on barren acres, they say.

The difficulty has taken the form of civil actions. The West Side Justice Court will be kept grinding for some days to come with the cases against Cook, of which there are half a dozen on hand at present and more to come.

The first to be brought up was placed on trial before Judge Reid. The complainant, Mrs. M. Robideau, asked the court to award her \$150, alleging she had been defrauded of that amount by the dealer in timber lands.

Mrs. Robideau told her story from the witness stand. It was a story not marked by new or startling details. Some of the details were rather remarkable. She said she had learned there was money to be made in timber lands. Meeting Cook he confirmed the report and she bought a quarter-section. He had a fine little claim with 2,000,000 feet of good yellow pine on it. It was a fine investment. He would locate her on the property for \$150. She agreed.

It is a long way to Malheur County, but Mrs. Robideau made the trip and returned with a small amount of timber land. The trees were tall and straight and plentiful and all were of the yellow pine variety. It was a bargain. She paid \$150 for the quarter-section, filed on the claim and congratulated herself on a piece of good luck.

Mrs. Robideau decided to have the property cruised. She hired a surveyor and he reported back that he could find only a few patches of scrub timber on the property. Accompanying the surveyor to the place she found it was some considerable distance from the timbered plot shown by the cruiser.

Cook admits that he promised to give the money back if the land was not as represented. Mrs. Robideau hastened to demand a return of her cash. Cook was off on a trip. He was on this trip three months and when he returned lately declined to refund the money. Similar demands were made and raised by other women who had disgruntled investors. The legal proceedings were then begun before Judge Reid.

Cook, in his own behalf, testified that he sent the people out in good faith, arranging for them to be placed by a third person. He denied having swindled Mrs. Robideau or any one else. Both sides have hired lawyers and arguments in the case will be presented this forenoon. The jury that will pass on the case is made up of F. H. Spencer, W. D. Wheeler, J. H. Michel and W. B. Wheelwright. In the event Mrs. Robideau is given judgment against Cook, seven other complaints will be placed in the hands of Constable Lou Wagner for service.

JUST FOR A PRACTICAL JOKE

Young Men Who Procured Publication of False Wedding Apologize.

To whom it may concern: We, the undersigned, hereby make this voluntary statement that on January 19, 1908, we called upon the editor of The Oregonian and induced her to publish in the Sunday Oregonian the following item:

W. F. Stewart, a prominent real estate man of Portland, was married to Miss Amy Catcheson at Astoria last Monday. Mr. and Mrs. Stewart left at once for Oregon City to spend their honeymoon with the groom's parents. After a week's stay they intend to locate on Mr. Stewart's large ranch near Seaside, Or.

We also handed in a photograph of Mr. Stewart and a photograph of the young lady, who resides in England, whom we represented to be Miss Catcheson. On our assurances that this item was genuine and that we were authorized by Mr. Stewart to secure its publication it was printed in The Oregonian.

We now beg to say that this item was false in every instance; that no such person as Miss Catcheson exists and that our object in securing the publication of the photographs and the item of Mr. Stewart's alleged marriage was to perpetrate a practical joke upon Mr. Stewart. Since the publication of the same we have been brought to realize the fact that in securing this publication we have inflicted a serious injury upon Mr. Stewart inasmuch as we stated that he was Mr. Stewart's intention to leave Portland permanently, and as a matter of fact he intends to remain in business in Portland.

We hereby apologize to Mr. Stewart, and to The Oregonian for having induced it to publish a false item because of our representation that the facts were true. We make this statement in the hopes of repairing any damage that our thoughtlessness may have done to Mr. Stewart.

J. H. NICHOLSON, J. L. FOOTER, H. J. BARREY.

committee was named to take up this task and report at a meeting of the organizers of the federation to be held some time during the summer. J. F. Cooke, Boise, Idaho; J. L. Graybill, Nampa, Idaho; John Smith, Walla Walla, Wash.; H. J. Aitman, Woodburn, Or.; E. W. Everson, Spokane, Wash.; R. F. Spiker, Lewiston, Idaho, and Carl N. Stockwell, Portland, Ore.

About 25 delegates from different parts of the state to the Oregon Hardware & Implement Dealers' Association convention which closed Wednesday afternoon remained over to attend the meeting of the Coast Federation.

The usefulness of such an organization as is planned was discussed at some length by the dealers attending yesterday's convention. Its mission will be to take up questions affecting dealers that are not handled by state lines but can be handled successfully by the different state associations.

REGISTRATION NOW 4861

Of That Number 3815 Are Enrolled as Republicans.

Of the 22,000 or more voters in Portland, only 4861 have registered so far, the number having been increased by 359 yesterday. Of these 261 were Republicans, 73 were Democrats, and 35 Republicans, Socialists, and those who refused to state their party affiliation. Of the total number registered since the books were opened, nearly three weeks ago, 3815 are Republicans, 800 are Democrats, and 206 are classified as miscellaneous.

Notwithstanding the fact that every qualified citizen is given the right to register and vote, a deputy clerk occasionally finds persons who fail to appreciate the fact. In one case a would-be voter became angry because he was required to state his age, and left the Courthouse in bad temper.

As he had not filled out the part of the registration card naming the party preferred it will be impossible for him to truthfully assert that County Clerk Fields would not register him because he was not a Republican.

Holbrook Out for Office. Philo Holbrook has filed his declaration with the County Clerk to run for nomination as County Surveyor. He says in his petition:

"I will devote all my time, as I have done in the past, without favoritism or injustice to any one, by giving my services in assisting the County Court at public toward reaching an ideal system of road building."

R. M. Tuttle has applied to be appointed precinct committeeman for the 6th precinct, and R. C. Wright for the 6th precinct.

CHURCH WILL SETTLE ROW

Mendel Cohn and L. Leibovitz Leave Trouble to Congregation.

Arbitration by a committee from their congregation, rather than trial in the Municipal Court, to settle a row that has arisen between Mendel Cohn and L. Leibovitz, of the First-street Synagogue. These differences resulted in a fist-fight at the place of worship several days ago and caused Cohn to secure a warrant for the arrest of the other on a charge of assault and battery.

Preparation of meats for Jewish congregations caused the trouble. Cohn is the ritual slaughterer, not only for the First-street congregation but for a large and fashionable Jewish congregation. Immediately after a recent service Leibovitz sprang up and accused Cohn of killing cattle contrary to the ritual, which was prepared for the slaughter with a sharp knife applied to the throat of the cow or ox so as to sever the windpipe.

Violation of this requirement is a serious offense. Cohn, however, insisted that he had removed his hat and coat. Then he changed to look at the bed and beheld two feminine heads. The alacrity with which he prepared to "walk right out again" awakened them.

If Pierce thought apologies were of any use he was mistaken. There were no screams or hurled epithets, but he was thrown to the floor by a man of wide learning and culture. He was educated abroad, receiving his theological training at the University of Innsbruck, Germany.

Flexibility for Currency. DAYTON, Wash., Jan. 22.—(To the Editor.)—In its editorial on "Bank Currency" in Friday's Oregonian, a plea is made favoring the change of a basis for issuing the currency from the bonds to that of commercial bills, for the principal reason that the latter would give our currency the required flexibility for the business of the country. There is no doubt that the desired flexibility would thereby be obtained, but the Government would be obliged to enter fully into a complicated banking business, which might result in considerable revenue if properly handled, otherwise there would entail great risk as to safety and in any case would be open to objectionable class privileges and favoritism.

Will Speak for Sherman County. WASHINGTON, Jan. 23.—The bill re-imbursing Sherman County settlers was referred to the public lands committee, which will give Fulton a hearing in its support.

FORM AN OPEN SPRING CAMPAIGN

Republicans Will Hold Smoker in South Portland, February 15.

The South Portland Republican Club will open the Spring campaign with a rally and smoker in Jones Hall, Front and Gibbs streets, Wednesday evening, February 15, at 8 o'clock. The committee on arrangements are preparing a fine musical and literary entertainment. The principal address of the evening will be delivered by W. S. U'ren, of Oregon City, on the initiative and referendum laws to be voted on at the coming election.

At the conclusion of six pieces will furnish the music, and Summers and Belford, colored sketch artists, have also been engaged. Frank D. Hennessy will sing his own songs, "General Hardback on Parade." Others who have been invited to be present are: Gus C. Moser, Robert G. Morrow and J. W. Bailey, State Food and Dairy Commissioner.

The club is now in a prosperous condition, having over 500 members enrolled. Secretary B. E. Jones is preparing invitations to be sent out to all prominent Republicans.

To Cure a Cold in One Day TAKE LAXATIVE BROMO Quinine Tablets.
