## BROTHER COMES TO AID HUESTON

Further Proof That Capitol Architect Will Desert Confederates.

BUNCOED BY SANDERSON

Bill for Furniture Under One Contract Passed Under Another and Multiplied Three Times. Furniture on Exhibition.

HARRISBURG, Pa., Jan. 29 .- That Joseph M. Hueston, architect of the capitol, means to take care of himself at the expense of his four co-defendants in the conspiracy cases now on trial in the Dauphin County Court is apparent from the testimony today of his brother, Rev. Samuel C. Hueston, of Philadelphia, a retired Presbyterian clergyman, who was called as a witness for the comm

Stanford B. Lewis, the architect who noted as assistant while the capitol was being constructed and furnished, and who is under indictment on two charges of spiracy to cheat and defraud the state In the payment of bills aggregating \$93,705 for the capitol furnishings, was also a witness for the commonwealth.

#### Buncoed Hueston's Brother.

Rev. Mr. Hueston said that, when his Rev. Mr. Hueston said that, when his brother went to Europe in the Spring of 1806 on business for the state, he left with the witness a signed blank architect's certificate and a power of attorney. Soon after the architect's departure John H. Sanderson, the contractor and one of the defendants, appeared with a bill supported by an affidavit supposed to be in proper form, for which he asked and obtained certification of the architect by the brother's signature.

The commonwealth expects to prove

The commonwealth expects to prove that this bill was fraudulent in that Sanderson was given the contract for certain furnishings under one item in the special capitol furnishings schedule and billed these articles to the state under another item, the amount of which is in excess of the item under which he was given the contract, and also that some of these articles were invoiced to the state and paid for as containing three times as many feet as they actually con-

#### Furniture Exhibited in Court.

Following the testimony of Rev. Mr. Bueston and that of Lewis to the effect that the architect was expected to certify only to the quality and not the quantity of the furnishings, the common-wealth had brought into court and ex-nibited to the jury two of the sofas, a table and two clothes-trees supplied by Sanderson for the capitol under the "per foot system." One of the sofas was measured for the information of the jury and was shown to be six feet long. Sanderson billed this sofa to the state at 18 feet and was paid for it at the rate of \$18.40 "per foot." The other sofa also measured six feet, and was billed and paid for as containing 19½ feet. The table had been billed under item 22 in the schedule at \$18.40 "per foot." instead of under item 24 at \$19.40, as called for by Sanderson's contract. The clothes-tree was billed as containing 1½ feet at \$18.40 and should have been furnished, the commonwealth claims, for \$6.55. Sanderson for the capitol under the "per foot system." One of the sofas was

PREACHER LETS WOMEN TALK ABOUT NEIGHBORS.

One Hundred Gather and Retail Scandal With Great Gusto While Pastor Listens.

UTICA, N. Y., Jan. 29.-(Special.)ossiping women met in convention at the Rev. Henry McIlvray's tabernacle in Little Falls, this afternoon, 100 of them from the towns of the Mohawk | the stage, Valley accepting his invitation to assem ble and talk about their neighbors. It was a breezy session.

From his rudely constructed pulpit last Sunday Mr. McIlvray, who is preaching the gospel to all those who care to war der in his tabernacle and help fill up his coffers, and who has gained fame here abouts by acting as spiritual advisor to Chester Gillette, now in prison for the murder of Grace Brown, startled people in this vicinity by the announcement that each Wednesday afternoon for a month he would preside at a circle the purpose of which was to allow the people, especially the women, to assemble and month he would preside at a circle the purpose of which was to allow the peo-ple, especially the women, to assemble and talk about their neighbors. He pointed a moral that by doing this they would have the opportunity to speak their minds under circumstances where no

harm would result

For an hour today a buzzing sound
was heard in the tabernacle. Mr. McIlwas heard in the tabernacie. Mr. McIl-vray was alone with the women, re-porters were barred and the exact tales were hard to get. Nevertheless the evan-gelist met the news writers after the bes-sion and told them it had been a success. Scandal, he said, seemed to have the first piace on the long list of topics for goestpers. He refused to give out any names, but said that he was sure some of the women had greatly relieved their minds.

Married men running about with other women and wives doing the same with nen other than their own was one of the men other than their own was one of the principal topics of gossip. Troubles with choir singers, school teachers, churchworshipers and the like came in for a good share of buzzing. Those who quarrel with their neighbors over backyard fences and those who fall to pay their debts were held up to scorn by some women, while those talked about in turn ridiculed those who had previously been with the evangelist.

"Yes," the evangelist raild, "the circle was a success and they will be conwas a success and they will be tinued as scheduled."

### NEW YORK FOR HUGHES

he has not the same confidence in Mr. Hughes. Moreover, the President be-Ex-Governor Samuel Pennypacker, who was president of the Board of Grounds and Buildings while the capitol was being furnished, is expected to testify for the defense and will probably be called on Friday. Mr. Pennypacker's colleagues on the board were ex-Auditor-General William P. Snyder and ex-State Treasurer before the point of view, while he recognizes that Mr. Hughes' short public career, successful though it has been would cessful though it has been, would be s source of weakness to him should he be the party nomince

The Hughes declaration has developed this further fact: Republican politicians-that is, practical politiclans and not necessarily machine mendo not favor the nomination of New York's Governor. In his appointments he has not been bound by party lines. This is construed to mean that as President he would have the same disregard for party, if he believed the occasion demanded. That is not a pleasant prospect in the eyes of lead-Sparks signed the police bill this morning and it is now a law.

Already there is a flerce scramble for places on the police force. Applications for officers are being received from all quarters. It is believed that the new force can take the field inside of 40 days.

The afternoon session of the Legislature their numbers would indicate, and their numbers would indicate, and when arrayed against a candidate can wield a powerful influence.
