FRICION LESS ON RESERVE

CATTLEMAN AND SHEEPMEN AT PEACE IN CROOK COUNTY.

Policy of Government Understood and Approved—Resolutions Commend A. S. Ireland.

PRINEVILLE, Or., Jan. 30.—(Special.)—In Crook County at least the forest reserve policy of the Government is at last understood and approved by the stock interests, and range wars and kindred troubles are now a thing of the past. The local Cattleman's Association met on Monday at Prineville and, following the example of the Grant County Stock-growers' Association last week, spread the following upon the minutes of the meeting:

PRINEVILLE, Or., Jan. 27, 1908.—We the Crook County Cattleman's Association of Crook County, Oregon, in convention assembled, do hereby heartily approve the management of the Big Mountains National Forest in Crook County, and hereby especially approve and endorse the management thereof by A. S. Ireland, Supervisor of the western division of said forest.

R. T. SLAYTON, President.

W. J. Johnson, Acting Secretary.

It is expected that the sheepmen, whose meeting is to be held at Prineville Jan. 29, 30 and 31, will tender Mr. Ireland a similar indorsement. Supervisors of the National Forests, it is said, are the hardest-worked officials in any branch of the Government service. They must be diplomats and come as near pleasing everybody as is possible, all the while following the rules and laws of the Forestry Bureau. They must settle the natural differences that arise between the cattlemen, sheepmen and homesteaders, and this task occupies most of their time. They must be civil engineers, road builders, telephone experts, carpenters and bridgebuilders, and besides these requirements must have a smattering of

law, medicine and surgery, so that the official's time is fully taken up.

So well has Supervisor Ireland's administration succeeded, that there has been no range war, large or small, in Crook County for more than two years. Sheepmen and cattlemen now dwell together peacefully and amicably. The larger stockmen, once accustomed to have all the range they wanted, have come to realize that all must have a share of Summer range; in fact, several recommend that the Government create reserves of open lands and adopt the range-leasing policy.

Mr. Ireland is pleased that the stockmen of Central Oregon at last understand the Government's policy and willingly abide by the rules of the Forest Service.

SUNDAY LAW MUST STAND

Federal Court Will Not Enjoin Missouri From Enforcing.

KANSAS CITY, Mo., Jan. 30.—Judge Smith McPherson, in the United States District Court here today, handed down a decision declining to interfere with the county officials of this county in the enforcement of the Missouri statute making unnecessary labor on Sunday a misdemeanor.

The decision was rendered in a case brought in the name of Nancy O'Neil, the actress, and the local theater, who sought to permanently enjoin the county grand jury from indicting them.

Judge McPherson in his decision today says:

"This court expresses no view with reference to the construction to be given to the Sunday statutes of this state. That the Missouri Legislature has the power to enact Sunday statutes no man of common information questions. It is a question of policy of the states.

"Whether the criminal court of Jackson County is right or wrong, United States Courts cannot and must not interfere. The dignity of this court must be maintained, and it cannot be maintained if it undertakes to interfere with local police questions of the state that were properly

and exclusively lodged with the states when our Government was organized."

STOLEN GOLD RECOVERED

Loot of Old Robbery Found in Saloon Ashes.

OMAHA, Jan. 30.—Superintendent Patterson, of the Pacific Express Company, returned to Omaha from Sidney, Neb., today, bringing with him two large bricks of bullion, believed to represent a part of the loot of robbery of the company's office in Sidney, Neb., in March, 1880. The metal was found buried in the debris of a saloon which was burned down two weeks ago.

The robbery was the boldest of its kind ever pulled off in the West, and the bullion, which had been received that day by stage, from the Black Hills, was valued at \$125,000. One of the bricks was sold to the Denver Mint a year after the robbery.

Sheriff McCarthy, who then owned the saloon which burned recently, was believed to be the leader of the robber band, but the express company was unable to secure his indictment. His brother was later hanged by vigilantes. McCarthy has been dead several years. Superintendent Patterson is trying to establish identification of the metal. He says the bullion value is indefinite, but he will have it assayed at once.

Woman Suffrage Resolution.

WASHINGTON, Jan. 30.—Senator Warren today introduced a joint resolution calling for an amendment to the Constitution which shall provide that the vote of no person of the United States shall be withheld or abridged on account of sex.

DALLES GETS NEW HOTEL

BONN BROS. WILL ERECT \$75,000 BRICK STRUCTURE.

Important Real Estate Transaction in Wasco's Metropolis—Old Shacks Will Come Down.

THE DALLES, Or., Jan. 30.—(Special.)—A real estate transaction, which has been under consideration for some weeks past, was consummated here today, by which the entire block bounded by Second, Third, Union and Liberty streets, with the exception of the southeast corner, upon which the Courthouse stands, passed into the hands of new owners, whose purpose it is to begin expensive and long-needed improvements. Under this transfer the Wasco County Court purchased the northeast corner of the block, together with a lot on Third street adjoining the Courthouse grounds on the west, giving the county the ownership of the east half of the block, the west half being bought by Bonn Brothers, of this city, whose purpose it is to erect a modern \$75,000 hotel on the northwest corner of the block facing Second street. The plan of the county is to tear down the historic Chinese washhouse quarters on the corner of Second and Union streets, remove the European Hotel, and make a handsome approach to the county building from Second street. On a portion of the west boundary of the block the narrow street will be straightened to correspond with the east line of Liberty, its terminus being at the railroad tracks, where the officers of the O. R. & N. Company have agreement to place their new passenger depot.

This new improvement, upon what for many years has been an unsightly block, meets with general approval and rejoic-

ing here. This square is next west of the new City Hall, now in process of construction.

SUFFRAGETTES' NEW TRICK

Ring Cabinet Ministers' Doorbells and Talk From Steps.

LONDON, Jan. 30.—Having failed to reach King Edward yesterday during the ceremonies of the opening of Parliament, and as the House of Commons is effectively barred against them, the women suffragists of England this morning adopted a new method of protesting against the fact that His Majesty in his speech from the throne made no mention of their demands to be permitted to vote.

The militant members of the organization formed themselves into several committees, which, at the same hour today

visited the homes of the various members of the Cabinet for the purpose of asking them to use their influence to have the questions of women's suffrage settled at this session. As none of the members would see them, the women demonstrated by ringing doorbells and delivering addresses from doorsteps. The police

were unprepared for this course of action, and noisy scenes were witnessed on the fashionable thoroughfares of London. The women eventually were dispersed after seven arrests had been made.

Do it now. Attend Rosenthal's great house-cleaning sale.
