FIRE ON OFFICERS

Lisbon Conspirators Keep Police Squad at Bay.

TWENTY ARRESTED LATER

City Is Outwardly Calm but Tense Excitement Follows Frequent Rumors of Plots and Raids by the Police Force.

LISBON, Jan. 30.—For the purpose of escaping the censorship the following dispatch is sent to the frontier for transmission: Lisbon is outwardly calm, but there is a steady increase of nervousness and excitement among all classes of the population owing to the constant rumors of plot and counter-plot and the persistent activity of the police, who daily and nightly examine the houses of suspects and make arrests.

On the night of January 29 there was a bloody fight in a small restaurant on the outskirts of Lisbon. Suspecting the presence of a crowd of conspirators, the police surrounded and raided the restaurant. The authorities were right in the surmise and they found the plotters armed with revolvers. The policemen were met by a volley of bullets, and one of them was killed and four were wounded.

The conspirators managed to keep the guardians of the law and order at bay until they made their escape. Later the same night a score of suspected agitators were arrested and imprisoned in one of the fortresses.

There is almost a reign of terror among the Republicans and disident Progressives, and several of the leaders of these parties, including Deputy Almeida, Deputy Costa and Viscount Reberia have been thrown in prison. The house of Senator Alpoim, another of the disident leaders, is under constant police surveillance.

Acting on information received from the secret service, the police have raided several houses and discovered large stores of revolvers and ammunition. A lieutenant of customs and many individuals were arrested and charged with conspiracy.

A government organ declares that the recurrent agitation and demonstrations spring from the same source as the recent plot to proclaim a republic, but that the government is determined to adopt all measures necessary to ensure order and the preservation of the monarchy.

CHARITY IS MISAPPLIED

John Burns Scoffs at Methods and Gives Germany Rap.

LONDON, Jan. 30.—Participating in the debate in the House of Commons tonight on the question of the unemployed, John Burns, president of the Local Government Board and labor leader in the House, denounced the unscientific distribution of religious, philanthropic and private charity, which, he declared, was unusually misapplied and directed to the wrong persons. He told one of his own experiences recently when, after an official function, he joined 300 of the unemployed at the Victoria Embankment.

"I was in my court dress," he said, "but pulled my hat over my eyes and looked miserable, and I got my bowl of soup and a hunch of bread."

Mr. Burns admitted that pauperism in London is on the increase and said it would continue to grow as long as indiscriminate charity prevailed.

Turning to the tariff reformers, who, he said, were accustomed to compare the prosperity of Germany under protection with the condition of free trade in England to the detriment of the latter, the labor leader declared that there was a less percentage of pauperism in London than in Berlin, that the health of the people here is better, and that Berlin beat London in nothing but the messes.

Mr. Burns' statement that the scheme of Herbert H. Asquith, chancellor of the exchequer, for old age pensions would provide for 1,000,000 people, attracted much attention in the lobbies afterward. Nothing hitherto had leaked out with reference to the intentions of the government, but it was generally assumed that the scheme would provide for 1,000,000 people, attracted much attention in the lobbies afterward.
