Such a permit system would mean the preservation and the improvement of what is left of the great ranges. It would not in any way prevent the ultimate agricultural development of any section.

AIDED HORACE MCKINLEY

W. M. REED ARRESTED AS HE LANDS IN SAN FRANCISCO. Said to Have Embezzled Money in China—Refuses to Talk of Arrest. McKinley Returning Home.

SAN FRANCISCO, Feb. 2.—W. M. Reed, who is believed to have been a partner in China of Horace McKinley, and to have assisted McKinley to escape from the authorities at Mukden last year, was arrested here today, just as he stepped from the gangplank of the transport Crook, which arrived from Nagasaki. The authority for the arrest came from Secretary of State Root, through Governor Gillett, who received advice on last Thursday that Reed was on board the Crook, and that he is wanted for the embezzlement of \$2500 in China.

The information that Reed was wanted in China, and that he was passenger on the Crook was sent by District Attorney Bassett, of the United States Court in China, to Secretary Root.

It is believed that Reed will be held here and tried under the Chinese code on the charge of bringing stolen goods or money into the country, as he cannot be extradited on the charge of embezzlement. No information has been received here as to what the alleged embezzlement consists of. Reed stated tonight that he has been a newspaper correspondent in China, and in Manila, for the past 14 years. He refused to talk about his arrest. He has been placed in detention in the City Jail.

Horace McKinley is now on his way from China to Portland, Or. He forfeited his bonds while awaiting trial there, fled to the Orient, and was captured by the Mukden authorities. Later, he escaped from the Mukden jail, and it is said that Reed assisted him in his escape. He was recently recaptured, and is returning in charge of an officer sent from Portland.

"YELLOW PERIL LEAGUE"

Colorado Labor Leaders Form Exclusion Society in Denver.

DENVER, Colo., Feb. 2.—Several hundred representatives of union labor, in mass meeting this afternoon, formed the "Yellow Peril Exclusion League," designed to prevent further influx of Asiatic coolie labor into the United States. One of the speakers said that thousands of Japanese were coming into the United States through the port of El Paso, representing themselves as prospective students. A prominent Japanese of San Francisco, he said, was at the head of the enterprise and conducted the business from a clothing agency in the City of Mexico. Another speaker said it was useless to appeal to Congress; that "blow-shed alone" would make Congress appreciate the situation.

Not only is Knight opposed to civil reform, but he doesn't believe in health reform. He says this fuss over the bubonic plague is bad politics. He doesn't believe in it. Someone has suggested that he would divulge poison and talk the rate to death. However, that may be, Knight is still in the band wagon and it doesn't matter who is driving. Roosevelt or Hamilton, Knight sits on the front seat. How he does it is one of the great unsolved mysteries of the State.

Perkins' little fight in wit is the talk of his friends in Oakland. Perkins comes from Oakland. The reformers say that's where he's going.

Then there is John E. Irish. Everybody in America has heard of John P. Irish, but to most of them he is only a name. He lacks identity. Out here he is known as "Collarless John." That's because he sheds the rim around his neck for all occasions except banquets. And banquets are the Colonel's specialty. For Irish is a Colonel, as well as a portolan. Irish is naval officer of the port of San Francisco. The job carries a salary of \$5000 and that is all. There are no duties. Irish has held the job through changing administrations (his politics generally change with the administrations) and he holds tighter than an abalone.

How Irish Holds His Job. Every time a new President takes office, a general advance is made against Irish. Then Irish goes straight to Washington, has a little talk with the President, then he returns to the city. He has the whole State lined up for him, and comes home with a fresh appointment for four years.

Three years ago a special agent was sent on to Washington to beat Irish to it. He was to be ousted before he knew he was in danger. It was to be a great coup. Some of the "lender-hearted" Republicans said, "Poor Irish. It seems a shame-like taking candy from the baby." The agent hurried secretly to Washington. Three years ago a special agent was sent on to Washington to beat Irish to it. He was to be ousted before he knew he was in danger. It was to be a great coup. Some of the "lender-hearted" Republicans said, "Poor Irish. It seems a shame-like taking candy from the baby." The agent hurried secretly to Washington. The job carries a salary of \$5000 and that is all. There are no duties. Irish has held the job through changing administrations (his politics generally change with the administrations) and he holds tighter than an abalone.

How Irish Holds His Job. Every time a new President takes office, a general advance is made against Irish. Then Irish goes straight to Washington, has a little talk with the President, then he returns to the city. He has the whole State lined up for him, and comes home with a fresh appointment for four years.
