

RECEIPTS ON THE INCREASE

Local Customs-House Is \$77,000 Ahead of Corresponding Period of 1907.

OUTLOOK FOR YEAR BRIGHT

Business Increase Made in the Face of a Financial Crisis—All Eastern Cities Fall Behind in Cash Returns—News of Waterfront.

Customs receipts for the Port of Portland for the seven months ending January 31 are \$77,000 in excess of the receipts for the corresponding period of last year. The total receipts for the seven months of the fiscal year of 1907-8 amounted to \$553,000, as compared with \$610,000 for the same period in the season of 1907-8. This remarkable increase was made in the face of the recent financial stringency.

The total receipts for the fiscal year ending June 30, 1907, amounted to \$1,165,000. Within the increase already in sight and the prospects for more than keeping even during the ensuing five months, the receipts for the fiscal year of 1907-8 will be considerably in excess of \$1,000,000 for the year.

Reports from the Eastern centers show a heavy falling off in Customs receipts. This is largely due to the financial condition of the country. At Portland, however, this state of affairs was reversed, and the receipts from duties continued to increase. More cement is on route to the Columbia River at the present time than ever before in the history of the port. The duties on the building material will increase from \$150,000 to close to \$200,000. Grain-bags and fancy crockery are being ordered in much larger quantities than ever before. The immense crop of wheat in the Northwest during the past season has cut down the available supply of grain-bags to such an extent that new ones must be secured. The price of manufactured and crude fats has dropped and importers are ordering heavier on that account. The firecracker season is near, and within the next three months the duties on these explosives will run well up toward \$150,000.

LOCKS ARE NOT CLOSED

Steamers Bailey Gatzert and Dalles City Pass the Cascades.

The steamer Bailey Gatzert succeeded in making her way through the locks at the Cascades yesterday and reached Portland at 10 o'clock. The steamer Dalles City and Capitol City went up and passed the locks. No report of their reaching the Dalles has been received. The shore ice has been breaking away and the amount of running ice is less than earlier in the week.

Ice formed in the canals of the locks early yesterday morning and for a time it was doubtful whether boats could pass. The United States engineering office was appealed to in an effort to have the Government boat out the ice. Such measures were not necessary, however, as the Chinook which blew up Monday afternoon did the work for them.

Snake River has been closed for several days on account of the ice. The boats at Riggins will continue in service. As soon as the ice clears out they will go for grain cargoes.

SEALING CASE IS ON TRIAL

Schooner Carlotta G. Cox Before the Admiralty Court.

VICTORIA, B. C., Feb. 4.—The trial of the sealing schooner Carlotta G. Cox, seized by the United States revenue cutter Rush for illegal sealing, last May in the North Pacific, opened this morning in the Admiralty Court, and a counter claim for damages, amount not stated, was made by the defense, charging illegal seizure.

Captain Ainsworth and his officers gave evidence that 14 skins, alleged fresh killed, were found on the seized vessel, which was detained and taken to Sitka, where telegraphic orders were received to make the seizure. The defense combats the right to seize, and questions the authenticity of the skins. The United States consul also alleges that the schooner was improperly turned over when given to Captain Hackett, of the Canadian steamer Quadra, he not being an imperial officer. The case is being continued.

CARRIES BIG GRAIN CARGO

German Bark Reinbeck Takes Out Over 150,000 Bushels.

The German bark Reinbeck, Captain Simons, opened the grain shipments for the month of February yesterday by clearing for Queenstown or Falmouth for orders with 159,821 bushels of wheat, valued at \$154,474. The vessel will leave down early tomorrow morning.

The Reinbeck is the first of the February fleet to get away. She will be followed today by the British steamship St. Hugo, and after that the vessels will come fast. It is estimated that the grain and lumber exports for the month of February will equal those of January.

WAR ON THE JAPANESE COOKS

White Crew Throws Food on Floor and Dishes at the Chef.

ABERDEEN, Wash., Feb. 4.—(Special.)—The Japanese quarrel which broke out into Grays Harbor, White members of the crew of the dredge Pacific object to Japanese cooks. Sunday night they threw the meal on the floor and then threw the dishes at the cooks. The Japanese replied with other missiles and were more sure in their target practice. They were arrested on the charge of assault and have given bail for their appearance at the trial.

Suicide on the Passage.

ASTORIA, Or., Feb. 4.—(Special.)—Captain Dixon, master of the British ship Arctic Stream, which arrived this afternoon 42 days from Rotterdam, reports that three days after leaving port, L. Bengelink, an able seaman, ran out of the forecastle and jumped overboard. The weather was pleasant, with no sea running and although two lifebuoys were quickly thrown to him, Bengelink made no attempt to reach them, and before a boat could reach him he had gone down. The man was identified speedily from

heavy drinking and imagined some one was trying to harm him. The balance of the passage, Captain Dixon says, was without incident of note. The Arctic Stream brings cement and a general cargo for Meyer, Wilson & Co.

Stone for Grays Harbor Jetty.

ABERDEEN, Wash., Feb. 4.—(Special.)—The harbor improvements going on will require probably 1,000,000 tons of stone for the jetty. Stone for the south side jetty was brought from the Columbia River at a cost of \$1.40 a ton by C. M. Powell, a rancher living near here, while looking for gold, found rock of sufficient size and quality within three miles of tidewater and within 14 miles of the place where the jetty work is being done. The stone delivered at 20 cents a ton, and will save the Government half the expense if it is used.

ROSES FOR PLAZAS

Three Thousand Bushes Offered to Committee.

DAY SET FOR PLANTING

Festival Association Has Selected Washington's Birthday and All School Children of City Will Be Asked to Participate.

Three thousand six hundred rose bushes had been offered the special rose-planting committee of the Portland Rose Festival Association up to last night. These and about 1500 more that will be needed will be set out on the official "rose planting" day, which the Festival committee decided by unanimous vote, yesterday afternoon, should be Washington's birthday, February 22.

Dr. Emmet Drake, chairman of this committee, with several other members, has conducted a thorough canvass in the residence districts of the city, both on the West and East Sides. While he has not been able to cover anywhere near the whole ground, he is confident that his committee will have no trouble to secure the additional sets that will be required to transform the three Plaza blocks into rose gardens.

The Rose Festival people have realized the wisdom of the Park Board in separating the three blocks which are to be devoted to rose culture, because this plan will have a tendency to attract visitors to widely scattered portions of the city. At the same time a substantial showing may be made in the space allotted for setting out the roses.

Members of the City Council have notified the Festival Association that they are heartily in sympathy with the movement to erect an "arch of welcome" at the Union Depot, several of the City Fathers having expressed their approval in writing. The matter will come up for final settlement at the meeting of the Council, next Wednesday afternoon, and so far as has been learned, no opposition will be made to the appropriation of \$2000 which is desired for this improvement.

BIG PACKERS' FIRST STEP

Schwartzchild & Sulzberger Leasing Zimmerman Plant Temporarily.

Negotiations are being carried on by representatives of Schwartzchild & Sulzberger, the independent packers, and Louis Zimmerman, of Portland, looking toward the use of the latter's plant for killing prior to the completion of the Schwartzchild & Sulzberger plant in this city. It is expected that arrangements will be perfected, but final action is being delayed until tracks are completed to the Zimmerman abattoir in South Portland from the United Railways Front-street line. This connection will be completed, it is believed, within a few weeks.

Representatives of the Schwartzchild & Sulzberger interests are said to be planning the erection of a slaughtering and packing plant in Portland, but they decline to confirm this report. It is certain they are giving
