British Columbia Demands Knowledge of English or European Languages.

NEW LAW NOW IN EFFECT

Expected Mikado's Subjects Will at Once Seek Overthrow Regulation on Ground of Opposition to the Imperial Interests.

VICTORIA, B. C., Feb. 11.—The new immigration law enacted by the British Columbia Legislature recently, on the lines of the Natal act, which applies an educational test to immigrants arriving in British Columbia, who must be able to read and write in English or a language of Europe to be permitted to land, became a law today, when Lieutenant-Governor James Dunsmuir assented to the bill.

Immediate provisions were made for the enforcement of the new law, which is obviously aimed at the Japanese, and officials have been instructed to look out its effect on all immigrants arriving after today. There are at the quarantine station 268 Japanese, left there by the steamer Kaga Maru, in quarantine, 125 of whom are bound here, and these will come under the provisions of the new law. It is generally considered that steps will be taken by Japanese or others interested to test the validity of the new bill in the courts, and it is considered that falling in this, the federal government will disallow the bill, as opposed to the imperial interests.

PRINTERS SENT TO PRISON

PENALTY FOR VIOLATING INJUNCTION ORDER.

Members of New York "Big 6" Fined and Sentenced to Jail by Supreme Court Order.

NEW YORK, Feb. 11.—President Patrick McCormack, of the local Typographical Union No. 6, commonly known as the "Big Six," ordered early in 1906 against the Association of Employers known as the Typothetae of the City of New York for a closed shop and an eight-hour day. Soon after going out of the men, the officers of the Typothetae complained that the strikers were practicing intimidation against their employes who remained at work and those who took the places of the strikers, and were resorting to violence. On these representations, Justice Blanchard granted an injunction restraining the officers and members of the Union from continuing the practices which had been charged. The latter part of April, 1906, a representative of the employers' association appeared in court and asked that the injunction be dissolved, and that the strikers be punished for contempt. In that they continued the acts of violence. By order of Justice Blisford, a referee took testimony on the charges, and was upon his report and recommendations that the sentence of today was inflicted.
