JUDGE WILLIAMS ON STATEMENT

Urges Republicans to Reject It | election and Support Their Party's Choice.

U. S. SENATOR IS POLITICAL

Cites Primary Law's Preamble in Defense of Parties and Says Statement No. 1 Is Inconsistent With It.

PORTLAND, Feb. 17 .- (To the Editor.)--I respectfully ask space in your paper to say a few words about the primary election law, which seems now to engross a large share of public attention. I will mence by quoting from the preamble of the act as follows:

of the act as follows:

Under our form of government, political parties are useful and necessary at the present time. It is necessary for the public welfare and matery that every practical guaranty shall be provided by law to accure the people generally, as well as the members of the reveral parties, that political parties shall be fairly, freely and honestly conducted, in appearance as well as in fact. The method of mamina candidates for elective public office by political parties and voluntary political organizations, is the heat plan yet found for placing before the people the names of qualified and worthy citizena from whem the electors may choose the officers of our Government. The government of our State by its electors and the government of a political party by its members are rightfully based on the same general principles. Every political party and every voluntary political organization has the same right to be protected from the interference of persons who are not identified with it as its known and publicly avowed terference of persons who are not identified with it as its known and publicly avowed members, that the government of the State has to protect itself from the interference of who are not known and registered

There is more in this preamble to the same effect and it concludes in these words: "The purpose of this law is better to secure and to preserve the rights of political parties and voluntary organizacandidates, and especially of the rights above stated."

Statements Nos. 1 and 2.

object of this act was to protect the rights of political parties, their members and their candidates and if it is so desirable to do this in the primary election it would seem to be equally desirable to do so in the general election. All the provisions of said act are consistent with this preamble unless it be that section which prosmole unless it be that section which provides for what is called Statement No. 1. Section 13 of said act provides that a candidate for the Legislature may file with his petition to become a candidate, a Statement No. 1, that he will always vote or that candidate for Senate in Congress the has received the highest number of the people's votes at the next preceding general election for United States Senator or he may sign a Statement No. 2 that he will regard such vote only as a recomnendation or he may decline to file any

it will be noticed that the act says that a candidate may file a statement The language is permissive and not obli gatory, and to proscribe a candidate for the Legislature otherwise fully qualified because he will not sign Statement No. 1, is to controvens the spirit. If not the setter, of the primary election act.

"Republican Voters" " Pledge.

There is another pledge which a candiflate for the Legislature may very prophich is entirely will accomplish all that said act was in tended to accomplish, and that is this: "I will, if elected, vote for that Republican candidate for United States Senator who receives the highest number of votes for that office at the general election in Or, if the candidate be a Democrat the same pledge may be taken as to a Democratic candidate for the Senate.

Now the object of a vote for United States Senator at the general election is to prevent, if possible, by a popular ex-pression any trading or trafficking among mbors of the Legislature or their don ination by bosses or cliques in the elec-tion of Sepator. This will all be accomplished just as much by the pledge I have suggested as by Statement No. 1. Repubican members taking the above-stated pledge will be bound to vote for that Re-publican candidate for United States Senator who receives the highest number of rotes for that office at the general election. I believe the Republican members ought to feel bound to vote that way, whether they take the pledge or not, but with the pledge the people will know ex-actly what the member, if elected, will do as to the election of Senator.

Democrats Work for Party.

I admit that this is in the interests o the Republican party. I am a party man and believe in political parties and party organization. It is idle, as to this matter to talk about eacrificing the interests of the country to the success of party. Will Bryan and our Democratic friend who are struggling everywhere for the success of the Democratic party admit that they are sacrificing the interests of the country for the success of their party? Why may not Republicans do what they can lawfully and honorably

for the success of their party?
Indifference to politics in local elections may be excusable, but the office of Inited States Senater is as much a political office as the office of President of the Inited States. Every elector in Oregon knows, or is presumed to know, that the next Legislature will elect a United States Senator, and if the people, in view of this fact, elect a majority of Repub-licans to the Legislature, why ought not that be taken as a decision by the people that they want these members to elect a

Republican to the Senate? they want a Democrat elected, the regular and reasonable way is to elect Democrats to the Legislature. Possibly on account of local or geographical coniderations or a factional fight among Republicans, a Democratic candidate fo he Senate might receive a plurality votes at the general election, but this would be no stronger or better evidence of the wishes of the people than the election of a majority of Republicans to

A vast majority of the people of the United States recognize the existence of two great political parties in the country and that they differ from each other in their principles and policies.

Importance of Party Work.

Everywhere the Republican and Demo cratic parties are holding meetings and conventions and everywhere is heard the note of busy preparation for the great collicul battle which is to come for President in the November election. In New of this fact, it seems childish for the Republicans of Oregon to take the ground that it makes no difference whather a Democrat or Republican is elected to the United States Senate. They might as well take the ground that it

makes no difference whether a Democrat ublican is elected President of the

I hold that it is the right as well as the duty of the Republicans, if they have a majority in the next Legislature, to elect a Republican to the United States Senate, and I further boid that it is right and just for Republican candidates for the Legislature publicly to promise that they will write to elect to the United they will vote to elect to the United States Senate the Republican candidate for that office who receives the highest imber of votes therefor at the gener sction GEORGE H. WILLIAMS.

Crandall is a handsome fellow about 26 years old, a faultless dresser and a good spender. This won the heart of Miss Sybil Anderson, cashler in a prominent Seattle restaurant. Crandall represented himself to be the son of an Army Paymaster in the Philippines when he came to Tacoma, January 29. He at once visited the Elks lodge and won the conffuence of the members. He confided that he was to be married that night and prominent Elks were present at the cere mony. The next day the manager of the Donnelly cashed his check for \$134. A few days-later Crandall placed in the office safe an envelope purporting to cortain \$1700. Subsequently Mrs. Cranda drew \$100 against the "money" in the envelope. A few days later Crandall left for Seattle and the checks came back dis-

honored.

It was then learned that Crandall had also relieved his wife of her watch and \$40 in money before leaving. The envelope, when opened, was found to contain letters addressed to mythical per-

Physically he was a large man, standing some 6 feet 3, and his heart was big enough to match. Never did poverty or distress appeal to him in vain. Many a man, aye and woman, too, owes to his cheery words and ready help a new start and a brighter future.

By birth he was a Scotchman, the son of a physician, and born and raised near Aberdeen. He came to Portland in 1871 and ever since has been actively en-gaged in trade. He was one of the founders of the British Benevolent Society and therein hold many posts of trust. As chairman of the relief commit-tee he served for many a year, and all his fellow-members knew no case of need would be neglected or overlooked by him. He was also one of the organ-izers of the St. Andrew's Society, a charter member of the Arlington Club and a Freemason.
