FLOUR TO ORIENT

Long-Expected Movement Has Opened Up.

FOLLOWS CUT IN PRICES

Steamer Numantia Will Carry 35,000 Barrels Direct to Vladivostok and Newchwang — Wheat Is Quiet, but Steady.

An indication that the long-expected opening up of the Oriental flour demand is at hand was given yesterday when the Portland & Asiatic Steamship Company announced that the steamer Numantia, sailing from Portland March 15 on her next trip out, would take 35,000 barrels of flour to Vladivostok and 10,000 barrels to Newchwang. These are not the company's regular ports of call, but the change in route is made possible by the large size of the North China flour orders, together with the lightness of business with the usual Japan and South China ports. This announcement follows the cut of 20 cents per barrel made by local exporters last week in export flour quotations. There are inquiries from other Asiatic points which are expected to develop into actual business soon. All domestic grades of flour were lowered yesterday from 5 to 15 cents per barrel.

The wheat market was quiet and steady and no resumption of activity is probable until the foreign markets take a decisive turn for the better. The record-breaking shipments from South America continue to exert an adverse influence on European prices, but it is thought the floodtide of the movement is now passing, and with the decline in United States exports as shown in this week's statistics, and the insignificant shipments from other countries, wheat values may soon react. Should a bull campaign be launched soon, as is probable the diminished reserves in this country would prove one of the strongest factors. The great increase this week in quantities on passage, which has had a depressing effect on all markets is shown by the following statistics of the merchants' exchange, issued yesterday:

	Week ending Feb. 15	Week ending Feb. 8	Week ending Feb. 16, '07.
For—	Bushels	Bushels	Bushels

HOPS ARE QUIET AND WEAKER.

London Market Is Dull With Downward Tendency.

Very little business was reported in the hop market yesterday and as growers were offering freely the market was considered very weak. Cables reported the London market dull with a downward tendency.

McKinley Mitchell in the last few days has bought 800 bales on Eastern account at 5 to 5½ cents. Among the purchases last week by Henry L. Bents, of Aurora, for London, were the following lots: H. J. Johnson, 87 bales; Carothers, lot of 48 bales; A. A. Crissel, 350 bales; the Carlton lot, Mount Angel, 61 bales; the Woodcox lot, Woodburn, 40 bales; Silvester lot, Woodburn, 17 bales.

Complete figures are available on the unsold supply of Yakima hops which show 2530 bales of 1907 and 2400 bales of old in growers' hands. About 4000 bales of all kinds are in Western Washington.

EASTERN SUPPLY BUTTER AND EGGS

Heavy Withdrawals From Storage in Month of January.

Statistics compiled by a leading Eastern produce firm shows the stocks of butter in the principal cold-storage warehouses of Chicago, New York, Boston and Philadelphia as follows:

Pounds.	1908.	1907.
January 1	27,414,258	26,046,857
February 1	16,834,229	17,849,300
Reduction in Jan.	10,580,029	8,197,557

Supplies of storage eggs in the same cities follow:

Cases.	1908.	1907.
January 1	462,669	288,864
February 1	147,342	66,921
Reduction in January	315,327	221,943

On December 1, 1907, the stocks of butter in the above houses were 3,500,000 pounds more than on the same date in 1906. The production of butter the past two months has been exceedingly light, and stocks now are 1,000,000 pounds less than on the same date last year. Butter will not be flush until June, and evidently a big shortage will exist in March, April and May. The high price of feed and the laws curtailing oleomargarine are held by this firm to be responsible.

PRODUCE RECEIPTS ARE LARGER.

Good Market on Front Street for Southern Arrivals.

Produce receipts yesterday included three cars of oranges and a car each of grapefruit, Los Angeles cauliflower, San Francisco vegetables, sweet potatoes and celery. Another car of cauliflower is due today and two cars of bananas are promised for tomorrow in good green condition. The car of celery arrived in bad order and was rejected. The other vegetables were in good shape and cleaned up well. The grapefruit was distributed along the street. Oranges are quoted firmer here and in the South.

The onion market had an easy tone, both locally and at other points on the Coast. Arrivals of Eastern onions in the California cities and at Seattle was given as the reason. Potatoes were dull and weak.

Eggs Half a Cent Lower.

The egg market is gradually falling to a lower level as a result of lighter buying by Puget Sound merchants. Front-street quotations yesterday were 22½@23½ cents.

Poultry receipts were small and prices more or less nominal.

The butter trade was steady at previous prices.

Operations in Stocks in Accordance With This Sentiment—Check to Inflow of Banking Funds.

NEW YORK, Feb. 17.—Dullness and depression overhung the stock market today. The active operations which prompted price declines were largely at the hands of professionals of the room-trading class. The sentiment which prompted their attitude was, however, quite generally prevalent and was a fair reflection of the unfavorable interpretation placed on the immediate events in the financial district and the lack of hopefulness of early betterment. Much had been hoped from the successful sale of the New York City bonds as a stimulating force in the securities market. Today confirmed the impression of Saturday that the event had fallen flat. The impression was heightened by the action of the bonds themselves, which are dealt "when issued" at the stock exchange. The price reacted more than a point from the first quotations in the new securities made on Saturday, and the older issue of city bonds fell back in company.

There were some special incidents in the day's happenings which had a disturbing effect on speculative sentiment. New force was given to the fear of the Government's prosecution of the Harriman railroad group by the steps taken against the Southern Pacific for rebating offenses. The copper securities, including American Smelting, were under special pressure in connection with sharp declines in the price of copper, both here and in London. Gloomy reports were current of the copper trade outlook.

Discussion of the trade outlook in general took the form of some criticism of the tendency of the great trade combinations, especially in steel, to hold up prices, the question being raised whether revival of consumptive demand would not thereby be deferred and the depression prolonged. The report of the net earnings of the Erie for the December quarter, showing the previous year's surplus converted into a heavy deficit, explained the past weakness in the securities of that company. Railroad traffic officials, in their usual weekly statements of views for publication, were not reported in a cheerful strain over the present state of affairs or the promise for the immediate future.

The apparent check to the inflow of banking funds from the interior, evidenced by the last two bank statements, is arousing some discussion and seems to negative the assumptions held at one time as to the extent which reserves would pile up in New York after the panic had subsided. The replenishment of the deficit of reserves here, the withdrawal of Government deposits by the United States Treasury and the rapid rate of retirement of National bank notes have helped to take up the slack as the return tide flowed in, but no gold has gone out in export. The foreign trade statement for January shows, in fact, the excess value of exports of merchandise reached a total of upwards of $120,000,000, thus exceeding even the record of $115,000,000 shown in December. The sustained control of international exchange held by New York is thus explained.

Some of the day's depression came from foreign influences. The Macedonian question, an important failure of a Scotch engineering firm and professed apprehension over the relations between the United States and Japan were among these.

Bonds were irregular. Total sales, par value, $3,332,000. United States bonds were unchanged on call.

BREAKS ON SELLING

Wheat Unloaded Heavily in the Chicago Market.

CLOSES NEAR THE LOWEST

Weekly Statistics Have a Depressing Effect on Prices — Domestic News Is Not of an Unfavorable Nature.

CHICAGO, Feb. 17.—The wheat market opened firm on buying by shorts and commission houses, based on firm cables and much smaller receipts in the Northwest. Heavy world's shipments and an increase of 7,258,000 bushels in the amount of wheat on passage, however, had a tendency to restrain sellers and trade was light until late in the day. The market was further strengthened by the smallness of primary receipts. In the final 15 minutes, active selling by holders set in and caused a sharp decline. The market failed to rally from this set-back and closed weak near the lowest point. May opened ⅛ to ¼c higher, at 93⅜ to 93⅝c, advanced to 94¼c and declined to 92⅝c, and closed at 92¾@93c.

Corn was quiet for the greater part of the day and the market showed considerable firmness because of firm cables and continued small receipts. Prices became weak during the final hour on heavy selling by pit traders and commission houses. The close was weak and near the bottom. May opened ¼ to ⅜c higher at 61⅜ to 61½c, sold off to 60c and closed at 60¼c.

Oats were firm nearly all day, because of a moderate demand by commission houses. Prices declined late in the day because of the weakness of wheat and corn. May opened ⅛ to ⅜c higher at 53⅝c, sold off to 52½c and closed at 52⅝c.

Provisions were strong early in the day because of a 5 to 10c advance in the price of live hogs, but later weakened on realizing sales. At the close May pork was off 2½@5c. Lard was a shade higher; ribs were unchanged.

The leading futures ranged as follows:
