

# HEENEY'S FEE FOR LAND TRIALS

### Gets \$50,000 for Trying Oregon Cases, Not Including Hall's.

### IS GIVEN HIS OWN PRICE

### Bonaparte Thought Sum Exorbitant, but Roosevelt Said, "Pay It."

ORIGONIAN NEWS BUREAU, Washington, Feb. 17.—Francis J. Heenev's fee for prosecuting land-claim cases in Oregon amounts to practically \$50,000, all but \$3000 of which has been paid. This balance was provided for in the deficiency appropriation bill which recently passed Congress.

It is understood that the fee for the Hall case is not included in the above amount, as that will be paid out of the appropriation for the current year.

The Department of Justice was not inclined to approve Mr. Heenev's account as submitted, believing his fee exorbitant, but when Mr. Heenev appealed to the President the Department was instructed to pay him his own price.

### SUE TO RECOVER LAND GRANT

### Fulton Proposes Congress to Authorize Action in Oregon Case.

ORIGONIAN NEWS BUREAU, Washington, Feb. 17.—Senator Fulton will tomorrow report a substitute for the Tillman resolution, which has been approved by the Attorney-General, authorizing the Department of Justice to institute a suit against the Oregon & California Railroad Company, either to recover the land granted by the Government or to compel the railroad company to dispose of the rest of its grant in accordance with the terms of the law under which the grant was made. It is left to the Attorney-General to decide the nature of the suit.

The Department has been unwilling to file a bill and institute suit until Congress should specifically authorize such action, but there is assurance that as soon as the resolution is passed B. D. Townsend will forward his bill to Tracy C. Becker and that Mr. Becker will proceed in accordance with the course outlined by the Department.

### Successor to Defunct Bank.

ORIGONIAN NEWS BUREAU, Washington, Feb. 17.—Application was today made to the Controller of the Currency to authorize the establishment of the Capital National Bank of Idaho with a capital of \$250,000. If so authorized, it will be the successor to the defunct Capital State Bank at Boise. The applicants are all Boise men heavily interested in the Capital State Bank, and are with financial strength as shown in the application: George D. Ellis, \$15,000; J. C. Penick, \$75,000; W. C. Cleveland, \$100,000; C. P. Hanson, \$100,000; W. C. Annett, \$100,000; A. J. Swain, \$50,000.

### Change in Ellensburg Bank.

### ENLIST AS RAT-CATCHERS

### Large Number of Men Get Employment in San Francisco.

SAN FRANCISCO, Feb. 17.—With the announcement yesterday that several hundred men in addition to the present force would be employed in the sanitary campaign in San Francisco, the headquarters of the United States Marine Hospital Corps, on Filmore street, this morning presented a lively scene and had the appearance of an enlistment bureau at the outbreak of war. A large crowd of men, of all ages and stations in life, from the ranks of the unemployed, besieged the place, crowded the steps and sidewalk leading to the building, and lines extended far out into the street.

At the head of the stairs Dr. W. C. Tucker, executive officer of Dr. Rupert Blue, the Federal officer in charge of the campaign, questioned, examined and swore in the applicants.

Dr. Tucker stated that \$255 rats were caught in traps last week by the sanitary forces, besides the large but unknown number killed by poison. In one district the men averaged 10 rats to the man. For the week in the absence of Dr. Blue, who is out of the city, Dr. Tucker is in charge and expressed himself as being gratified at the interest taken and energy displayed by citizens in the sanitary work and believed that a great deal would be accomplished within the next few weeks, now that the co-operation of the public had been obtained.

After being free from plague for over a month, one case has been reported and is now in the isolation hospital.

### MOTHER CALLS SON FIEND

### Isabella Martin Charges "Baby John" With Many Crimes.

OAKLAND, Cal., Feb. 17.—The Tribune this afternoon prints an interview with Mrs. Isabella Martin in her cell at Weaverville, Cal., in which she accuses her son, "Baby John" Martin, of being a fiend and directly charges him with the mutilation and execution of the dastardly act which he says he inspired.

She describes him as a "fiend" whose pleasure was always to torture animals by sticking pins in them and cutting off their legs. She directly charges him with the burning of the barn for which she is now locked up, with blowing up Judge Ogden's home and with setting fire to Mrs. Leach's home. Also, that he robbed the hotel at Redding, where they were stopping, and spent the money in slot machines.

### LARGER ENGLISH NAVY

### Thought Appropriations Will Be Made to Increase Strength.

LONDON, Feb. 17.—In view of the threatening attitude of that section of the Radical party which advocates reduction in armament, there has been much speculation as to whether the government will persist in the determination reached on the advice of the Lords of

the Admiralty to submit increased naval estimates to Parliament.

Those in position to know say they will, and backed by strong public opinion, will be able to carry them through without difficulty. What these estimates provide for in the way of new construction is another question that has been much discussed. It is believed that through the admission of the possession of any inside information, is nevertheless well-informed, gives the following as the probable program:

Three armored vessels of the Improved Dreadnaught type; ships that will embody many changes devised after the thorough trials which the first of this class has passed.

Two cruisers, improvements on the old Edgar class, 3500 tons, with a great radius of action, enabling them to remain at sea for long periods when engaged as parent ships for torpedo craft or as scouts or dispatch boats.

At least 12 torpedo craft, the majority of them of the tribe class, two of which, the Tartar and the Gurka, recently ran their trials with much success. There also will be provision for additional submarines, but of these the Admiralty maintains the greatest secrecy.

This is not looked upon as a complete answer to Germany's programme. That, naval men say, will come next year, even the critics of the policy of the Admiralty admitting that the start of England's new fleet will be provision for other powers are doing and then "go them one better," either by outbuilding them or designing a ship that will be a development over those now being constructed.

Germany's refusal to agree to the Hague to the proposal to prohibit the use of submarines, has caused British activity in still another direction. Heretofore this country has had but two mine-laying vessels. Since the Hague conference adjourned work has been begun on the conversion of three second-class cruisers for this purpose.

Germany's refusal to agree to the Hague to the proposal to prohibit the use of submarines, has caused British activity in still another direction. Heretofore this country has had but two mine-laying vessels. Since the Hague conference adjourned work has been begun on the conversion of three second-class cruisers for this purpose.

### TRYING TO FORCE MATTERS

### OWNERS ORDER ONE ENGINEER TO BE DISCHARGED.

### Wrangle Results, but Engineers Will Do Nothing Till After Association Meets.

### SAN FRANCISCO, Feb. 17.—The Shipowners' Association of the Pacific today attempted to force settlement of the fight with the marine engineers that has been going on for over a month, by issuing the order that all vessels under the control of the association should discharge their second assistant engineers as soon as the vessels reached this port, and further requiring that all vessels sailing from San Francisco should sail with two engineers only, instead of three.

The order resulted in the putting out of commission of the steamer Jim Butler, and a long wrangle in the offices of the United States Inspectors Bolles and Bulger over the number of men that should sail in the engine-room of the vessel.

The Jim Butler arrived several days ago, and this morning her owners served notice upon Chief Engineer James Olsen that he would be required to make his next trip with but one assistant. The Butler sails for Sound points, and the engineer immediately refused to take the vessel out under the new rules. After considerable discussion, Olsen and his first assistant, Carl Husby, left the ship. Her owners have decided not to send her out again until the present controversy is settled.

Notwithstanding this activity on the part of the shipowners to force the marine engineers to a decision, the engineers announced that nothing will be done in the matter until after the regular meeting of the Marine Engineers' Association Tuesday night.

It has been expected that at the meeting the shipowners will be met with their own proposition, and that the engineers' committee will be instructed to arbitrate the differences between the two organizations. The latter indicated horsepower of the vessels, taken in conjunction with the length of the trip the vessels are supposed to make.

### ABROGATE LABOR CONTRACT

### Denver & Rio Grande to Lay Off Men at Once.

DENVER, Feb. 17.—The Denver & Rio Grande will abrogate its contract with the labor union members employed in its shops at once instead of waiting until March 14, according to a report received here today. This report said that the entire force in all of the shops on the system would be laid off Thursday morning with the exception of a few men in the round houses to keep the engines going and that, dating from that time the men would be laid off three full days each week.

Vice-President Schlack, General Manager Ridgeway and General Superintendent Welby are still out of the city and the unions will not ask for a conference until the end of the three returns.

### Say Road Violates Agreement.

DENVER, Feb. 17.—Employees in the Denver & Rio Grande shops in this city held a mass-meeting Saturday and instructed the business agents of their unions to confer with the officers of the road concerning the posting of notices last week to the effect that on March 14 all union agreements would come to an end. The claim is made that the company had violated its agreement in failing to give the 30 days' notice of the proposed action to officials of the several unions.

### Rio Grande Puts Men on Half Time.

PUEBLO, Colo., Feb. 17.—The Denver & Rio Grande Railroad today posted a day men on a four-hour basis. The night men are not affected. No reason is given out by the officials and the mechanics have not stated what course they will pursue.

### All Quiet at Fairbanks.

WASHINGTON, Feb. 17.—Conditions at Fairbanks, Alaska, where the Western Federation of Miners is alleged to have been depicting non-union men, were reported to the War Department today as "quiet." The report, made by telegraph by the commander of the Department of the Columbia, adds: "The saloons have reopened."

### May Have Salaries Now.

WASHINGTON, Feb. 17.—Benito Legarda and Tablo Ocampo de Leon, the recently appointed resident commissioners, who have arrived here to represent the Philippine Islands in Congress, today visited the Senate committee on the Philippines and were later taken to the floor of the Senate, where they were interested observers.

The Senate today passed the House joint resolution authorizing the payment of the Commissioners' salaries.

# WORK OF THE TONG

### Light Thrown on Methods of Highbinders.

### COUNCIL PLANS KILLING

### Inner Circle Deceives Rival Tong—Men Must Die—Testimony Is Brought Out at Trial of Boston Chinese for Four Murders.

BOSTON, Feb. 17.—Testimony bearing on the inner workings of the Chinese society, the Hop Sing Tong, a dozen alleged members of which are now on trial in the Supreme Court charged with "shootings up" Chinatown last August, when four Chinamen were killed, was given in court today by Soy Pong, a Government witness.

The witness explained that he had been a member of the Hop Sing Tong for four years, and that Wary Charles, one of the defendants, said to be the richest Chinaman in Boston, was president. He then said in evidence:

"We had what we called a jury, consisting of ten men, who were officers, and they held secret meetings. At one of these meetings last July, which was called by Wary Charles, the subject of a raid on Chinatown was brought up. Charles said that we would have to do some killing and make the Chinese business men so afraid that all of them would join our society. Charles said the best plan was to send to New York, Philadelphia and Chicago a batch of men, who were unknown, so they might escape. He said that if any one got caught he would hire attorneys for his defense. I would not agree, and did not attend any more meetings."

The four Chinamen who were killed and the several others who were wounded were members of the On Leong Tong, a rival society of the Hop Sing Tong.

### SHOOT MAN FOR A BEAR

### Fatal Accident in Logging Camp in Washington.

CATHLAMET, Wash., Feb. 17.—(Special.)—A fatal shooting occurred last night at Bell's logging camp on Deep River, in this county. Soon after dark the men in the bunkhouse heard a commotion among the logs in a pen a short distance away, and as bears have been troublesome about the premises of late, Robert Hall and Ben Kane, two loggers, armed themselves and went out to investigate. Seeing a dark object which they thought was a bear beside the pen, Hall fired and the supposed bear dropped out of sight and they, thinking it had made its escape to the woods, returned to the house.

Shortly afterward F. Williams, a man employed about the camp was missed, and as he had been drinking heavily all day some of the men went out in search of him. Upon reaching the place they found his dead body lying beside a log, shot through the heart. Sheriff Flanders and Coroner Peacock left this afternoon to investigate the case.

### ERECT A SMELTER SOON

### Montana Mining Association in Session at Helena.

HELENA, Mont., Feb. 17.—The Montana Mining Association tonight perfected its permanent organization by electing as its officers: President, Frank L. Hewitt, of Basin; vice-president, Thomas L. Greenough, of Missoula; secretary, L. B. Lindermann, of Helena, and treasurer, R. A. Bell, of Helena.

If the incident in his speech of acceptance declared that with the co-operation of the members of the association an independent smelter will certainly be erected soon near here. The report of the resolutions committee declared that "it has been demonstrated that the conditions affecting the reduction of ore, on the part of the custom smelters, are needlessly and unfairly restrictive and apparently have for their ultimate purpose the absolute control of the production, treatment and marketing of the precious metal production of the mines of Montana."

The convention decided to take steps "to protect the mine operators of Montana against the danger of ultimate control by the smelters."

The Montana Mining Association met with more than 200 delegates. Every district in Montana, parts of Idaho and other states are represented. This afternoon resolutions were adopted declaring that forest reserve officials are not complying with the law through inhibiting operations thereon, and another resolution was adopted regarding the classification of Northern Pacific land grants, it being charged that through underhand methods the common carriers have wrongfully secured possession of immense tracts of timber and mineral lands.

An amendment was offered appropriating \$500 to defray the expenses of a committee to go to Washington to lay the matter before the President and request that he send a special message to Congress on the subject. That an independent smelter will be built by the operators seems certain.

### NOT GUILTY OF MURDER

### Jury Believes Beatrice Gordon's Story of Shirey's Death.

DENVER, Feb. 17.—The jury in the case of Miss Beatrice Gordon, charged with the murder of Deposition Sheriff W. O. Shirey, tonight returned a verdict of acquittal.

Miss Gordon on the witness-stand told of her relations with Shirey, with whom she had lived as housekeeper for a number of years, and said that on the night of the killing she was preparing to leave the Shirey home and sever all relations with the man.

He had abused her constantly during all the years she was with him, she said, and on this night advised her to kill herself. In a struggle for the possession of a revolver, the weapon was discharged and Shirey was killed.

The jury was out less than an hour.

### WILLING TO SHOW PAPERS

### Railroad Commission to Have Access to Files for Information.

LOS ANGELES, Cal., Feb. 17.—While Federal officers of justice conferred today regarding the proposed prosecutions of railroads in Southern California on charges of robbing the State Railroad Commission, represented by Assistant Attorney-General Benjamin, paved the way for an examination of the books and accounts of the Santa Fe and Salt

Lake railroads. At the general offices of both companies the investigators were promised that every opportunity would be given to inspect such accounts as might be deemed necessary. It is announced that the purpose of the Commission's visit is confined solely to the acquisition of information.

Special Agent H. B. Duncan, of the Department of Justice, left tonight for San Francisco, after a lengthy conference with United States District Attorney Oscar Lawler. No information as to its purport could be obtained from either party to the conference.

### PROSECUTORS IN CONFERENCE

### Making Ready for Trials of California Railroads.

LOS ANGELES, Cal., Feb. 17.—Following the report of impending Federal and state prosecution of the railroads of California upon charges of violation of the law, H. B. Duncan, special agent of the Department of Justice at Washington, was today in consultation with United States District Attorney Oscar Lawler. No information as to the intentions of the Federal Government. Members of the State Railroad Commission and Assistant Attorney-General Raymond C. Bell, active advocates for the purpose, it is said, of examining the books of the Santa Fe and Salt Lake Railroad Companies.

### JAPANESE TO ENTERTAIN

### PLAN DEMONSTRATION FOR THE FLEET AT SEATTLE.

### Object to Express Interest of Local Japanese in Voyage and to Allay War Rumors.

SEATTLE, Wash., Feb. 17.—(Special.)—Japanese business men of this city are planning a reception for the big American fleet when it arrives in Puget Sound. This reception has two purposes; first, to express for Japanese here their interest in the welfare of the ships and men that have come all the way round the Horn, and, second, to demonstrate the cordiality of the relations existing between Japanese and the United States.

It will be an unusual thing for foreigners, owing allegiance to another country, to welcome ships of the Navy of the country in which they are alien residents on a visit here, but the Japanese men who have charge of the arrangements are anxious to prove to Admiral Evans and his men that Japan regards the Pacific Ocean visit of the fleet with friendly eyes.

"It will prove anew and over forcibly that there is nothing in the rumors of war between our two countries," said a spokesman for the Japanese Association. "Our committee will be appointed soon, and we will then ask the co-operation of the Chamber of Commerce in the arrangements. What we do and when we do it, will depend largely upon the length of time the men of the fleet will have to visit Seattle and the extent of their stay here."

### Canada Will Stand by Japs.

### OTTAWA, Ont., Feb. 17.—The Japanese Consul was inquiring at the department of the day when the report from Vancouver about the arrest of two Japanese under the Naval Act, the Justice Department has no information on the subject, but its officers on the Pacific Coast have instructions to test every case by habeas corpus or otherwise, so as to permit the Japanese to land. As soon as the official copy of the Naval act has been received here, it will be dealt with.

### Takahira Reaches Washington.

WASHINGTON, Feb. 17.—Kogoro Takahira, the new Japanese Ambassador to the United States, arrived in Washington this afternoon. The Ambassador went at once to the Embassy residence.

### PAYING UP ITS DEBTS

### Dominican Republic Given 80 Per Cent Bonds and Rest in Cash.

WASHINGTON, Feb. 17.—The settlement of the debts of the Dominican Republic is rapidly nearing a completion, which is regarded as satisfactory to both debtor and creditors and which reflects favorably on the agents of the United States Government, who have been instrumental in carrying out the basis of settlement. The recent financial disturbance is given as the cause for the abandonment of the plan first agreed upon, whereby a New York banking firm was to purchase the bonds of the republic in a sufficient amount to satisfy the creditors. In place of this plan the creditors themselves have been organized to purchase the bonds as payment of 80 per cent of their claims, while the remaining 20 per cent is to be paid in cash from the charges collection and fraud in the classification of Northern Pacific land grants, it being charged that through underhand methods the common carriers have wrongfully secured possession of immense tracts of timber and mineral lands.

An amendment was offered appropriating \$500 to defray the expenses of a committee to go to Washington to lay the matter before the President and request that he send a special message to Congress on the subject. That an independent smelter will be built by the operators seems certain.

### ASTORIA SHIPPING NOTES.

### ASTORIA, Or., Feb. 17.—(Special.)—Columbia River lightship No. 50, which has been undergoing repairs for damages sustained in the recent collision with the British ship Port Patrick, was towed out to her station off the mouth of the Columbia River today by the lightship tender Armeria.

The British steamship Cambrian King, which sailed yesterday for Melbourne, Australia, carries a cargo of 1,175,472 feet of fir lumber, loaded at the Tongue Point Lumber Company's mill, and 1,316,590 feet of redwood from California. The value of the cargo is given as \$5,623,329.

The steamer J. B. Stetson cleared at the Custom-House today for San Pedro with a cargo of 240,000 feet of lumber, loaded at Hoquiam, and 500,000 feet of

# JURY CANNOT AGREE

### Snell Panel Discharged Without Reaching Verdict.

### NEW TRIAL HELD IN MAY

### Richard Snell, Contestant, Will Try Again to Have Father's Will Set Aside on the Grounds of Insanity Over Women.

CLINTON, Ill., Feb. 17.—The jury in the \$200,000 Snell will case was discharged by Judge Cochrane late today, being unable to reach a verdict. Richard Snell, the contestant, announced that he will order a new trial of the case in the May term of court. The last ballot stood eight for the contestant to four for the opponents of the will. The jury had been out since Sunday.

The suit to break the will of Colonel Thomas Snell was brought by the aged eccentric millionaire's son, Richard Snell, president of the Clinton Bank. It has been rife with sensations, chief of which were the "Snell letters," written by women and young girls to the old man, who was willing to pay lavishly for being loved and for being told so in affectionately worded epistles in which appeals for money mingled with expressions of endearment.

When Colonel Snell died, in June, 1907, he left an estate of \$2,000,000. To his son Richard he left only an annuity of \$50 per year. To a grand-niece, Miss Belle Snell McNamara, he left property valued at \$25,000 and an annuity of \$100 per year. The rest of the property he left in trust, interest to be added each year to the principal, until 29 years after the death of his youngest grandchild, then to be divided among the children of the late Snell, who was to break his father's will on the ground that he was insane about women.

### OMIT VITAL PART OF OATH

### Interesting Disclosure in Land-Fraud Trial Testimony.

SAN FRANCISCO, Feb. 17.—M. D. Hyde, a brother of Frederick A. Hyde, now under indictment in Washington, D. C., in connection with Government land frauds, and Grant C. Smith went to trial before United States District Judge De Haven this morning, charged with making false affidavits for entry upon Government lands.

According to the testimony of Presley McFarlane, one of the chief witnesses, it was the plan to lure the ignorant into Smith's office in Oakland by promises of cheap land and offer them a choice bit, promising to loan them for about \$100, and then taking them before Hyde, described as a "state land attorney." Hyde, in the case of McFarlane, said:

"Now, there are a few affidavits you have to sign, and you might as well let me read them to you, as in the majority of cases if the purchasers read them they do not understand."

McFarlane said he allowed Hyde to read the affidavits, and that Hyde did not read to him the important portion where he swore to having seen the land. All the witnesses called gave similar testimony.

### BANKERS LIFE ALL RIGHT

### Insurance Company Not Affected by Indictment of Ex-Officials.

NEW YORK, Feb. 17.—The Bankers Life Insurance Company, two former officials of which were recently indicted for perjury, has, according to an official statement made today, assets of \$1,400,000, and a surplus to policyholders, as certified by the Insurance Department on July 1 last, of \$123,876. In a news item of February 13 it was erroneously stated that the company had gone out of business some time ago. As a matter of fact, the company has been in active business continuously since its organization in 1869. The indictment recently returned is personal to former officials, who severed their relations with the management several years ago.

### TEA

### The way to buy tea is to say to your grocer: "I want Schilling's Best; 1 lb Japan" or Ceylon or English Breakfast or Oolong.

Your grocer returns your money if you don't like Schilling's Best; we pay him.
