Lloyd Makes Startling Charge Against Railroads on Mail-Weighing.

MOON HAS BRAIN STORM

Tennessee Democrat Condemns Postal Service and Says Republicans Plunder Treasury - Goebel Urges Steamship Subsidy.

WASHINGTON, March 2,-The startling charge that the railroads of the country carrying mails had robbed the people of \$70,000,000 was made in the House today by Lloyd of Missouri. He declared that the new system of weighing mails was an admission of the Post-master-General that the weighing in the past 27 years had been fraudulent. He called for an investigation of the Post-office Department, and Wagner of Pennaylvania, chairman of the committee to the expenses of that department, ed that an inquiry would be con-

#### Calls Republicans Plunderers.

He upbraided the Republicans for failure to enact legislation which he said the people were demanding. The Re-publican party, he declared, for more than 40 years have fostered false the-

ories.
"You." he said, addressing the Repub-lican side, "plundered the Treasury when you saw fit, you overturned the rights of the states and sat with your hands on the necks of the common citizens; you appeal to none but the power of weelth and monopoly, and yet," he said, "you have successfully run the gamut—

"you have successfully run the gamutthe House gamut."

The Republicans, he said, had fooled
the people, "not once, not twice, but all
the time." If, he continued, he were
compelled to designate the leading characteristics of the Republican party, he
would say. "It is the most sublime and
the most stupendous faker in all the history of the world."

Plea for Mail Subsidy.

A strong pica for an ocean mail sub-sidy to steamers plying between the Unit-ed States and South American ports, the Philippines, Japan, China and Australia was made by Goebel. Since last March the foreign stramships engaged in trade with the Orient have been reduced to eight with no new ships building, and he urged the subsidy in order to revive

## Treasury Deficit Increases.

WASHINGTON, March 2-The monthly astrington, march 2—the monthly statement of the Government receipts and expenditures shows that for the month of February, 1968, total receipts were \$48,324,599, and expenditures, \$56,720,007, which heaves a deficit for the month of \$8,465,118. The receipts from customs amounted to

pared with February, 1995, of more than \$5,000.000. Internal revenue receipts amounted to \$18,496.446, which is a decrease of more than \$2,000,000. Miscellaneous items alow an increase of \$1,000,000. In the items of expenditure, civil and miscellaneous show an increase of nearly \$1,500,000. War shows an increase of \$2,000,000 navy an increase of more than \$2,000,000 and public works an increase. \$2,000,000 and public works an increase of more than \$650,000.

Since July 1, 1907, the receipts have fall-en off more than \$22,450,000, as compared with the corresponding period last year, and the expenditures have increased by more than \$45,300,000.

## Increase of Public Debt.

WASHINGTON, March 3.- The monthly statement of the public -ebt shows that at the close of business February 29, 1908, the diebt less cash in the Treasury amounted to 1900,421.786, an increase for the month of \$7,781,109.

The debt is recapitulated as follows: Interest-bearing debt, \$35,753,790; debt a which interest has ceased since maturity, \$4.887,005; debt bearing no interest. \$115.65.45. Total, \$1.319.267.550

This amount, however, does not include \$1.221.403.850 in certificates and Treasury notes coustanding which are offset by an ernal amount of cash held for their redemption. The cash in the Jreasury, \$1. 830.147.461, against which there are demand habilities outstanding amounting to \$1.411. 301.657, which leaves a cash balance on hand of \$418.845.804.

Viewing the State and the Nationa Viewing the State and the National banks as one system. Mr. Newlands contended it was obvious that the amount of reserves kept in the banks was insufficient and would have to be gradually increased. He urged that the Nation should gradually retire the various forms of United States notes, such as silver certificates, gold certificates and green-backs and substitute one form of United States notes, and that the coin now backing the silver certificates and the gold certificates should be gradually placed in the redemption fund of the Treasury as security for this general form of United States notes.

as security for this general form of United States notes.

The United States Treasury, under existing conditions, was practically engaged in banking. Fifty per cent gold reserve was considered sufficient for the note issue of a bank of issue. There should be no reason, he continued, why the United States should not be able in periods of emergency to increase the issue of notes upon the gold and silver coin in its vaults to meet any emergency.

ARREST CHEWING-GUM GIRL

With Young Hubbard Her Effects Are Searched for Stolen Goods.

POMEROY, Wash., March 2 .- (Spe cial.)-State Labor Commissioner Hubbard has wired Prosecuting Attorney Gentry that his son, L. L. Hubbard, is innocent of the imputation of being connected with Miss M. Hayward, of Seattle, in which the young woman is accused of taking a dress pattern of silk from the store of the Pomeroy Mercantile Company. The cloth disappeared after the young woman had been looking at it, and has not yet been found," says J. J. McGrath. man-ager of the store.

Miss Hayward was traveling for a Scattle house, selling chewing gum.
Miss Hayward and Hubbard left town.
They were atopped at Starbuck by a
Constable, acting under orders from
Sheriff Dixon, who searched for the
silk, but could not find it. The pair then went to Dayton, where they were detained by the Sheriff, but released. Miss Hayward is known as the 'Chewing Gum Girl' among the traveling men, and they say she and Hub-bard have been seen together in sev-eral Eastern Washington towns. Hub-bard travels as a Deputy State Labor Commissioner.

STEEL TRUST'S NEW RIVAL

Wealth of Almost Untouched Appalachian Coal Field.

Engineering Magazine.

The best steam and coking coals in the United States are those of the Ap-palachian coal field, which reaches from Pennsylvania to Alahama in a belt trending almost parallel to the At-lantic Coast, and distant 159 to 250 miles from it. These Appalachian coals are, in general, far superior to those of other portions of the United States. For most of its extent this coal field is paralleled, on its eastern or coastal side, by a series of extensive fron-ore deposits. These fron ores, however, though enormous in quantity, are usually of relatively low grade; but they can be placed on the seaboard at a very low price per unit of iron. A plant located at the coastal end of a coalcarrying railroad, could therefore de-pend on securing a cheap supply of high-grade fuel, and a cheap supply of low-grade domestic ore. But it would also be in a position to avail itself of still cheaper supplies of high-grade foreign ores, imported from Canada, the West Indies, South America and Spain. The duty on such ores is re-bated in case the products made from them are not exported, but even with-out this provision the ores used by a seaboard plant would not cost more

than Lake ores at Pittsburg.
In view of these facts, it is remarkable that only one plant—that of the Maryland Steel Company, near Baltimore--la located so as to take advan Eastern Pennsylvania plants depend partly at least on foreign ores. The principal points which offer the combination of factors necessary for the success of a seaboard steel plant are Baltimore, Norfolk, Brunswick Penns. Baltimore, Norfolk, Brunswick, Pensa-cola and Mobile. Of these, Norfolk has such distinct advantages that it is im-probable that it will long remain en-tirely undeveloped.

Children's Hour Before Sleep.

Ladies' World.

The children before going to bed should have their "hour." The intercourse with mother and father, in which should be sweet communion, the giving of childish confidences and the exchange of views, is more than beneficial to the child. These moments they will carry through life with them. It seems a hard matter to establish upon the proper foeting the confidential relations which should obtain between parent and child, and which are so imparent and child, and which are so parent and child, and which are so important to the child later. I have seen the grief of many a mother who finds that her daughter will confide to the veriest her daughter will connue to the stranger matters that she will not spea stranger matters that she will not spea stranger mother will of to her mother, because "mother will make such a fuss about it," "mother can-not understand it." You mothers, whom your daughters need as confidants, whom your sons grow away from, and grieve in secret over this, analyze the cause. You have perhaps, been too busy looking after the material welfare of your children, or have left them too much to others. Begin at the very beginning to be with your children at bedtime. Go over be with your children at bedtime. Go over with them the events of the day as if you were one of them. It is thus that you will come to the secrets of their young lives come to the secrets of their young lives it is thus that you will win their confidences, which will form a habit from which they will not depart in after life
