

# ANARCHIST TRIES TO KILL OFFICER

## Gun Knocked From Hand of Chicago Man Who Turns on Detective.

### FOUR MEN ARE ARRESTED

Police Have Complete Lists of Suspected Italian "Reds" and Are Tracing Every Clue to Plot Against Chief Shipley.

CHICAGO, March 4.—Late this afternoon detectives went to a rooming-house at 1816 North Dearborn street and arrested Gregory Krish and Gava Herburshak, said by the police to be anarchists. While being taken to the patrol-box, Krish, it is charged, drew a revolver and attempted to shoot one of the detectives. The revolver was knocked from Krish's hand. A knife was also found in Krish's possession.

A further search of the prisoners resulted in the finding of over 100 cartridges. The men told the police that their homes are at 3836 North Milwaukee, and that they had been living here only a few days. They refused to discuss the finding of the cartridges.

### Two Other Prisoners.

Continuing their efforts to unravel the supposed plot to assassinate city officials, the local police this morning arrested two more men who are alleged to be anarchists. The prisoners are Charles Yanitski and William Stadweiser, who were taken in different parts of the city and each denied knowledge of the plans of Lazarus Averbuch to kill Shipley.

Harry Shipley, son of the police officer, and who was badly wounded while assisting his father to overcome the anarchist, was declared by physicians at the Augustana Hospital to have passed a restful night. Despite the desperate nature of his wounds, the young man is said to be improving and to have good chances for ultimate recovery.

### Have List of "Reds."

The arrest of Yanitski, which took place in the ghetto district, was made on information given to Assistant Chief of Police Schuetzler yesterday by investigators of the White Hand Society, an organization formed some months ago to combat the activity of the Black Hand Society. A complete list of suspected Italian anarchists now resident in the city has been furnished by the society and further arrests are expected.

Stadweiser was arrested at North Halsted street and Sheffield avenue, because he was unable to give a policeman a satisfactory account of himself. When taken to the police station a revolver was found in his possession and he was held on a charge of carrying concealed weapons, while efforts are being made to trace his supposed connection with anarchist societies.

State and city officials were again in conference at Mayor Busse's office. Although no announcements were given out as to the subjects discussed, it is known that the announced intention of Mayor Goldman to speak at an anarchist meeting in West Taylor street next Friday night was one of the matters considered. It was hinted that Mayor Goldman might speak in public if she comes to Chicago, one report going so far as to intimate that steps for her deportation are being considered.

### DENVER EDITOR THREATENED

Article in Catholic Monthly Calls Forth Menace.

DENVER, March 4.—Arthur L. Callopy, editor of the Western Home Journal, a Catholic monthly, received through the mail today the following threat written on a postal card, at the bottom of which was drawn a black cross:

"If you don't stop trying to hurt the workman by writing against him in your magazine you will find yourself where the priest is. This is a warning."

Mr. Callopy believes that the threat was called out by an article in the last issue of the Western Home Journal written by Rev. Hugh L. McManamin, which denounced anarchy in all its forms.

### THREATEN LOS ANGELES CHIEF

Warning to Officer Who Has Broken Up Street Meetings.

LOS ANGELES, March 4.—Chief of Police Edward N. Kern, who has recently caused the arrest of over a dozen Socialist agitators and broken up several street demonstrations, today received a postal card which has been interpreted as of a threatening character. The card is not of the engraved variety sold in drug stores, and by erasures and the addition of skull and cross-bones, has been made to read:

"May the chicken soon be hatched that will scratch on your grave."  
A black hand points to the printed warning: "We will get you before the first chicken is hatched."

### Threat to Blow Up Town.

GOSHEN, Ind., March 4.—Wawaka, a town of 100 inhabitants, in Noble County, has received a letter postmarked New York City, in which \$50 is demanded from the town within two weeks.

The letter says that if the money is not delivered to a certain point in New York the town will be blown to atoms. It is signed "Anarchists." It has been forwarded to the Postal Department at Washington and steps are being taken to guard the town. A vigilance committee is being organized and officers will meet every train pulling into Wawaka for the next two weeks.

### Need Law to Deport Anarchists.

NEW YORK, March 4.—The advantage of the bill introduced in Congress by Congressman Bennett, providing for the deportation of anarchists is expressed by Commissioner of Immigration Watchburn, of this port. The commissioner states that he has always done everything in his power to keep anarchists out of the country, but says he knows of no way in which they can now be deported. He believes that the passage of the Bennett bill would be of great benefit to the country.

### Denies Averbuch Was Anarchist.

BUTTE, Mont., March 4.—Abraham Edelstadt, founder of the Edelstadt Society in Chicago, which anarchistic organization was raided by the police following the attempt upon the life of Chief Shipley, is a resident of Butte, conducting the Chicago shop store in this city. Edelstadt talked freely of the society and denied that its principles were an-

archistic, his purpose being that of a singing or educational body, although the songs were directed to the workingmen, and, according to Edelstadt, were "radical." Because Averbuch, the dead would-be assassin, was a member of the Edelstadt Society, and therefore a disciple of Tolstoy, Edelstadt believes that he was a socialist, that belief being strengthened by the fact of the man being an orthodox religionist. Edelstadt declares that though his society believes in no form of government, it does not favor violence.

### Deport All Alien Anarchists.

SAN FRANCISCO, March 4.—Acting upon the order issued by Secretary Straus, of the Department of Commerce and Labor, providing for the deportation of all alien anarchists from the United States, the local immigration officials having jurisdiction over California are to confer immediately with Chief of Police Biggy for the purpose of outlining a campaign against all anarchists in San Francisco, Los Angeles and other important cities in this state.

### CHICAGO, March 4.—The German car in the New York-to-Paris automobile race arriving in Chicago tonight, after struggling for several days, won the muddy roads of Northern Indiana, French car No. 2 is still in Chicago, and the American car was laid up for the night in Omaha. French car No. 1 was reported in the vicinity of Des Moines today.

### OMAHA, March 4.—The American car reached here at 11:35, and will remain until 8 o'clock Thursday. The driver reported a trip through mud several inches for the last 50 miles.

### ARMY CAR AT LEAVENWORTH

### Great Feat of Automobiling in Mud and Snow.

### LEAVENWORTH, Kan., March 4.—The military automobile which left New York Friday, February 18, for Fort Leavenworth, carrying a message from Major-General Frederick D. Grant to commandant of Army posts all along the route of the New-York-to-Paris race through the United States, was received with great enthusiasm when it entered the post here today. To receive the car, the Leavenworth Automobile Club ran up the road to Atchison and escorted the tourists to the fort. The trip from New York was made in 15 days.

### JAPAN MADE NO THREATS

### Wants China to Release Vessel and Pay Damages With Apology.

### TOKYO, March 4.—Officials of the foreign office today made the following statement to the Associated Press:

"Japan has issued no ultimatum and has made no threats to China in connection with the steamer Tatsu Maru's illegal seizure. We are depending on a good sense of the Chinese government to release the vessel, express regrets and pay damages."

### Cheaper Lumber in Pendleton.

### PENDLETON, Or., March 4.—(Special.)—The Umatahi Lumber Company, of this city, announced a cut of from 10 to 30 per cent to take effect tomorrow. Manager Probert says he doesn't mean a war on prices, but that the reduction is made to stimulate building operations in this city. He also says they have been fortunate in making a good buy of 1,000,000 feet.

# LEOPOLD GIVES UP

## Surrenders Congo Independent State to Belgium.

### FEARS ACTION BY POWERS

### King Makes Sweeping Concessions

#### Releasing Crown Domain and Control of Both Administration and the Budget.

### BRUSSELS, March 4.—The sweeping concessions made by King Leopold in the new treaty which provides for the annexation of the Congo Independent State to Belgium, are attributed to his dread of British intervention, backed by the United States. The King, it is said, would rather run the risk of facing an internal accounting of his stewardship than the former consequence.

An official forecast of the new treaty indicates that King Leopold not only surrenders the crown domain in the Congo, the revenues from which he had enjoyed personally, but he yields also control of both the administration and the budget of the Congo to the Belgian Parliament. The Cape Ferrat province in the South of France, which the King also throws in, were bought out of his Congo profits.

Belgian King and Government Settle Disputed Points.

BRUSSELS, March 4.—It is announced that King Leopold and the Belgian Government have come to a complete agreement on the question of annexation of the Congo Independent State. It is stated in official circles that the agreement was made possible by an important concession by the King in consenting that the Parliament have control of the Congo budget. In addition, the King secured for Belgium the magnificent domain of Cape Ferrat in the South of France, reserving for himself the use of it, however, during his lifetime.

The government on its part agrees to propose that the chambers vote a special fund to carry out certain undertakings in the Congo and in Belgium, which fund will not exceed \$12,000,000, and at the same time a special annual credit of \$600,000 will be included in the Congo budgets for 15 years for the construction of hospitals and other institutions in the Congo.

### BETRAYS NAVAL SECRETS?

### Russian Minister Charged With Giving England Information.

### ST. PETERSBURG, March 4.—An intimation was introduced in the Duma today by Conservatives demanding explanations from Admiral Dikoff, Minister of Marine, of the charges current in naval circles that Russian naval secrets had been communicated to Vickers Sons & Maxim, the English shipbuilders, in connection with the construction of the new Russian cruiser Rurik by this firm, and that these secrets were thereby rendered available to other nations.

It is alleged that the armor, guns and shells manufactured by Vickers Sons & Maxim were unsatisfactory. The Minister of Marine, instead of replacing this material direct from Russian factories, it is alleged, ordered supervising experts to instruct Vickers Sons & Maxim to prepare the armor according to a secret process worked out at the Kopline factory and furnishing plans of Russian eight and ten-inch guns to the English firm when the English shell failed to meet the high velocity requirements insisted upon by Russia.

The Russian war office is giving careful consideration to the possible development of aerial warfare, both offensive and defensive.

WASHINGTON, March 4.—Question of the citizenship of Paul E. Roy, whom the State of New Hampshire is seeking to have extradited from France in connection with the murder of George Carkins, brother of Gladys Calla, has been raised at the State Department. If it should be decided that Roy had actually been naturalized or even declared his intention before the killing, as alleged by the state authorities, the State Department officials have no doubt that his extradition can be secured, but not otherwise.

LOS ANGELES, March 4.—Six residents of Los Angeles indicted in connection with Oregon land frauds today began proceedings in the Federal Court before Commissioner Vandycke to prevent their removal to Oregon for trial. Owing to the probable delay in the arrival of witnesses and to the fact that a series of motions to dismiss will be made, the proceedings will probably occupy a week or more. The defendants are all prominent business men of this city.

The six defendants are David M. Goodwin; William D. Gould; Lee R. Myers; George L. Stearns; Warren Gillilan and R. W. Kenney. Two others indicted at the same time, A. H. Hedderly and Richard Hynes, did not resist removal. It was decided that the case against Goodwin will be the first taken up. All motions today for quashing, setting aside or dismissing were overruled by Commissioner Vandycke, clearing the way for the actual introduction of evidence.

The cases against the six defendants date back to April, 1904, when indications were returned against them in Oregon, charging them with conspiracy to defraud the Government in the matter of Oregon lands and timber claims.

WASHINGTON, March 4.—D. J. Brennan, of Flagstaff, Ariz., was stricken with heart disease in the Senate gallery today. He was removed to the Casualty Hospital, where he died an hour later.
