CHILDREN CAUGHT IN TRAP TO DIE

Death March in Collinwood School Led to Door That Was Locked.

STAIRS FORMED HUGE FLUE

Authorities Investigate Disaster and Set Monday as Time for Burial of the 164 Victims-Flames

CLEVELAND, O., March 5.-Twenty four hours after the disaster which caused the death of approximately one-third of the achool children of North Collinwood, the death roll numbers 184. Of these 137 had been identified at the Lake Shore morgue, while 27 bodies remain there in a condition of muthation probably forever beyond recognition.

The work of digging in the ruins of the Lake View schoolhouse in further search for remnants of children still missing began with the break of day. Dawn found mothers and fathers waiting about the ruined building, after having spent the night in an effort to find their childrens remains in the extemporized morgue. Little was brought forth during the day that would satisfy their longings, and it is believed tonight that all the bodies that can be removed from the ruins have been taken out. caused the death of approximately one ruins have been taken out.

Bury Dead on Monday.

Burlal of the dead is now the task confronting those in authority in the lit-tic village. Arrangements for the funerals of the victims were discussed funerals of the victims were discussed tonight at a meeting attended by the Mayor of Collinwood, members of the Hoard of Education, the clergy and undertakers. The idea of having a public funeral of all the dead has been abardoned, though it is probable that where it can be done bodies will be grouped in one church. The burial day has been fixed for Monday. The interments will be individual and not concerted except the unidentified and those too poor to pay the expenses of funerals.

Tonight the work of removing the identified bodies to their former homes was completed and the undertakers set to work to prepare for the interments. Should any parent desire to undertake the interment of one of the unrecognizable bundles of human flesh and bones.

the bundles of human flesh and hones, believing it may be his child, he will be permitted to do so. The remainder of the hodies will be laid side by side in the cemetery.

Partitions Narrowed Exit.

The coroner's inquest was begun this morning, when a number of witnesses were examined without, however, developing any testimony that was beyond more opinion. An investigation conducted by the Collinwood school board, which issted far into the night, and at which a number of survivors of the horror told their stories, brought forth these facts:

of the horror tood their stories, brought forth these facts:
That one of the inner doors at the west entrance of the school was closed and fastened, while children were pilling in against it in the passage; that the partitions in the vestibule narrowed the exit by at least three feet; that the flames came first from a closet below the stallway at the east entrance; the closet contained lime and sawdust; three little girls had been found hiding in play in the closet earlier in the morning; there was but one fire escape and its use was never taught as a part of the fire drill.

Cut Off in Three Minutes.

Cut Off in Three Minutes.

Survivors among the teachers esti-mate that only two or three minutes passed from the time of the alarm until all escape was cut off. The building was a fair sample of the kind of school construction in use in small of school construction in use in small towns. The hall and stairways were inclosed between interior brick walls, forming a huge flue through which the flames shot up with great rapidity. On the question much discussed, whather the doors opened inward or outward. Fire Marshals Brockett and outward, Fire Marshals Brockett and Flegbaum examined the doorways to-day and stated later that they were convinced that they opened outward. Whether they were locked they have not been able to determine. They have testimony on both sides. Janitor Hirter, still insists that the doors were now.

Returns as From Grave.

like returning from death, Helen Like returning from death, Helen Marks surprised her parents today by slipping up behind her father and throwing her arms about his neck while he was prodding among the rules of the school for her body. Instead of going to school yesterlay, she played truant and visited an aunt in the country. The officials are doubling their efforts to ascertain the names of the three girls who are reported to have been in the who are reported to have been in busement at the time the fire started and basement at the time the fire started and who are said by the lantior to have first notified him of the fire. Much depends, it is thought, upon the stories these girls may be able to teil. These are the problems that are confronting the officials. The latter desire to learn the exact reason for the helecaust, not only because it may be the means of preventing a repetition of the calamity in the future and stand as a warning to other schools throughout the country, but will, to a degree, appease the anxiety of the affelcted parents and the public in general. In this connection the janitor has been made to bear the major portion of the blance.

While the janitor practically has cleared himself upon his own testimony, yet the feeling against him is high in Collinwood. Yesterday one father, crazed by grief, made an attempt upon the life of Herier, but was restrained with difficulty. Herier is being guarded by the police. In addition, the blame, whether justified or not, being heaped upon him, Herier is broken down with grief over the loss of three of his own children in the fire.

The cause of the fire, which, aided by a frantic panic, a narrow hallway. timself upon his own testimony, yet the

by a frantle panic, a narrow hallway and doors which it is said by many were made to open toward the inside, still is a mystery. It was at first supposed that it came from an over-heated nosed that it came from an over-heated furnace or an exploded boiler in the hasement of the achoolhouse. It has been established that there was no explosion, and the janitor of the school. Fred Herler, declares that it could not have come from the furnace. Yesterday in Collinwood was comparatively warm, besides the last few days immediately preceding it, and the janitor declares that he maintained the fire at a low temperature. Pearing the fire at a low temperature. Pearing he had had not sufficiently warmed the building, he was according to his story, on his way to open the furnace drafts and increase the heat, when he was met three little girls running from the ement, who told him there was a fire

Positive Fire Was Set.

I. R. Gardner, a member of the school board, is positive in his assertions that

the fire was of incendiary origin. In that portion of the building it was discovered that there are no electric wires, there was no waste or rags, there was no direct means of creating heat. It is therefore believed by Mr. Gardner and by others that the three little girls, if they are ever found, may throw some light on the tragedy of yesterday.

Shocked by the Disaster.

O. B. Henderson, of Cleveland, O., representing an automobile company whose factory is located in the Ohio city, was at the Oregon Hotel yesterday and said that he was terribly shocked over the news of the schoolhouse disaster in a suburb of his home city. He said that so far as he had been able to observe the schoolhouses of Cleveland were modern and that the buildings had sufficient exits and fire escapes. How the terrible slaughter of children happened he was at a loss to understand and could not account for the fact brought out in newspaper reports that the doors of the building burned opened inward and seemed to have been locked. He is much worked up over the disaster and outspoken in up over the disaster and outspoken in urging that better facilities be provided in safeguarding children in buildings of any description where numbers are gathered together.

FIRE IN MICHIGAN SCHOOL

Twelve Hundred Pupils March Out in Perfect Order.

GRAND RAPIDS, Mich., March Lirand Rapids today was threatened with repetition of Cleveland's tragedy of yesterday on an even larger scale. Fire broke out in the laboratory of the Central High School while 1200 pupils marched out in perfect order. The building was emptled in 2½ minutes.

The Central High School is overcrowded and the strikes a product of the School is overcrowded and the strikes in adoquate but the School.

and the stairways insdequate, but the fire drill today proved effective.

The fire did comparatively little damage. That there was no panic in the school was grobably due to the fact that a professional photographer had been taking flashlight pictures in the corridor of the High School a few minutes before the fire flashlight pictures in the corridor of the High School a few minutes before the fire broke out, and the children had been warned not to be alarmed. When the firemen came and the drill began they thought therefore, that it was for anoth-er picture, and all marched out quietly. The fire started below the floor of the chemical laboratory in the first floor, and only quick action by the Fire Department prevented a serious fire. prevented a serious fire.

MARCH FROM BURNING SCHOOL

Pupils Escape, but Teacher Injured in Colorado Fire.

COLORADO SPRINGS, March 5 .- The explosion of coal gas in the heating furnace of the school building at Ivywild, a suburb, this morning, resulted in severe burns to Miss Nellie Remick, the principal, but the 100 pupils in the building were marched out in fire drill formation without between without injury.

The first indication of fire was noticed in smoke issuing from the register. Miss Remick hurried to the basement to look at the furnace, and as she opened the door a gust of fiames struck her in the face and knocked her to the floor. The

BATONYIS WILL WASH DIRTY LINEN IN COURT.

Wife Names Seven, Husband Eleven, in Suit Which Will Convulse Eastern Society.

NEW YORK, March 5 .- (Special.) -Before Justice O'Gorman in the Supreme Court today Mrs. Aurel Batenyi, formerly Mrs. Burke-Roche, filed a sult for absolute divorce against her gontlemanceachman husband, indicating seven co-respondents, some by name, others by

At the same time in the court Aurel Batonyi filed a counter-sult asking for an absolute divorce and specifying il co-respondents. Chief among those named in Mr. Batonyi's list of co-respondents is Frank K. Sturgis, broker, banker and secretary of the Jockey Club. Others than Sturgis are indicated by name and some are indicated by de-

In moving for trial, Edward Alexander, counsel for Mr. Batonyi, specified that the hearing should be held in open court.

GREAT ARTISTS COMING The Bauer-Kreisler Recital Creating Interest Among Music-Lovers.

With all the good music that Portland has enjoyed it seems that everyone is alive to the greatness of the musical event to take place at the Heilig Theater St. Patrick's night, when Bauer and Kreisler will play together. Bauer's rise has been achieved without recourse to expension of the second of the sec travagant exploitation or sensationalism in any form, and his successes have been based solely on artistic achievement. Of all the planists touring America this season, none takes higher rank. Kreisler's position in the world of art has also been honestly attained by exceptional musicianship, untainted with trickery or the exploitation of more personalty. He has ship, inflainted with drickery of the ex-ploitation of mere personality. He has exercised the potent spell of a great art with the dignity of the broad, true artist that he is. Their appearance on the same programme will mark Portland's greatest musical advancement. The recital is un-der the direction of Lois Steers-Wynn Comman and is the fourth of their Winter Coman and is the fourth of their Winter

out a Federal license before it shall be permitted to control as much as 25 per cent of the product in which it deals, the license to protect the public from watered stock and to prohibit the control by such corporation of more than 50 per cent of the total amount of any products consumed in the United States; and

Third—A law compelling such licensed corporations to well to all purchasers in all parts of the country on the same terms, after making due allowance for cost of transportation.

Revision of Tariff. Home-Made Mixture Acts on Kidneys and Bladder-Should Be Given a Trial.

Cut this out and put in some safe place, for it is valuable and worth more than anything else in the world if you should have an attack of theumatism or bladder trouble or any derangement of the kidneys whatever.

The prescription is simple and can be made up by any one at home. The ingredigats can be had at any good prescription pharmacy and all that is necessary is to shake them well in a bottle.

We welcome the belated promise of tariff reform now offered by a part of the Republican party as a tardy recognition of the righteousness of Democratic position on this question, but the people cannot wafely entrust the execution of this important work to a party which is so obligated to the highly protected interests that it postpones relief until after the election. And we call sitemion to the significant fact that the promise now made by those Republicans who favor tariff revision is wholly vitlated by the use of the very qualifying words under which the present tariff iniquities have grown up.

We favor an immediate revision of the tariff by the reduction of import duties. Articles entering into competition with articles controlled by trusts should be placed upon the free list; material reduction should be made in the tariff upon the necessaries of life; and reductions should be made in such other schedules as may be necessary to restore the tariff to a reverse.

prescription pharmacy and all that is necossary is to shake them well in a bottle.

Here it is: Fluid extract dandellon, one-half ounce; compound Kargon, one ounce; compound Sargan one ounce; compound Strup of sarsaparilla, three ounces.

Take a teaspoonful after each meal and at bedtime. A few doses is said to relieve almost any case of bladder trouble, frequent urination, pain and scalding, weakness, and backache, pain above the kidneys, etc. It is now claimed to be the method of curing chronie rheumatism, because of its direct and positive action upon the eliminative tissues of the kidneys. It cleanses these sponge-like organs and gives them life and power to sift and strain the poisonous waste matter and uric acid from the blood relieving the worst forms of Rheumatism and kidney and bladder troubles. The extract dandelion acts upon the stomach and liver and is used also extensively for relieving constitution and indjestion. Compound sarsaparilla cleans and enriches the blood.

A well-known local druggist is autority that this prescription is safe to use at any time. nies as may be necessary to restore the taxiff to a revenue basis. share of the burdens of the Federal Govern-ment. We favor a National inheritance tax to

rights and privileges of a territorial form of government.

A decirration in favor of the issuance of \$500,000,000 in Government bonds in or-der to provide funds with which to prosecute public works thus giving work to many unemployed persons, was also car-

National Delegates Chosen.

We also favor the reclamation of swamp lands upon the same principle. We favor the preservation of the forests still remaining and the replanting of the denuded districts in all our mountain ranges, as well as the forestation of the Western plains.

We believe the Panama Canal will prove of great value to our country and favor its speedy completion. We urge liberal appropriations for the improvement and development of the interior waterways, believing that such expanditures will return a large dividend in lessened cost of transportation.

We favor a generous pension policy, both as a matter of justice to the surviving veterans and their dependents and because it relieves the country of the necessity of maintaining a large standing army.

Make Philippines Independent. These delegates at large to the National These delegates at large to the National convention were chosen: I. J. Dunn, Omaha: D. V. Stephens, Fremont: F. W. Brown, Lincoln, and Felix J. Hale. Delegates from the six Congressional districts were also chosen.

Dr. P. L. Hall, of Lincoln, was elected National committeeman to succeed Joseph Dahlman, Mayor of Omaha, who declined to serve again.

Dahlman, Mayor of Omaha, who declined to serve again.

William D. Oldham, who had been nominated as a delegate-at-large and placed Mr. Bryan in nomination in the National convention in 1999, brought the convention to its feet by withdrawing his name in favor of Mr. Hale.

Robert Graham, Alliance; J. R. Correy, Hastings; Harry B. Hayward, Omaha, and George Brophy. Polk County, were selected as alternate-at-large by acciaselected as alternates-at-large by accla

mation.

Raymond Robin, a settlement worker of Chicago, made a short speech, lauding Mr. Bryan. Mr. Bryan.

Senator M. A. Miller, of the Oregon
Legislature, also spoke, saying that the
Democrats of Oregon will all support Mr.
Bryan at Denver and in the campaign to

Roosevelt Recruits Democrats.

The opening speech by H. H. Hanks the temporary chairman, was a lauda-tion of Mr. Bryan and a denunciation of the Republican party as the party of special privilege. He said towards the

We condefin the experiments in imperialism as an inexcusable blunder which has involved us in an enormous expense, brought us weakness instead of strength, and laid our Nation open to the charge of abandoning the fundamental doctrine of self-government. We favor an immediate declaration of the Nation's purpose to recognize the independence of the Philippine Islands as soon as stable government can be established, such independence to be guaranteed by us as we guarantee the independence of Cuba until neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippine Islands our Government should retain such land as may be necessary for coaling estations and mayal bases. Destring to prevent war wherever possible, we believe that our Nation should announce its determination not to use our Navy for the collection of private debts, and its willingness to enter into agreements with other Nations providing for the investigation by an impartial international tribunal, before any declaration of war or commencement of hostilities, of every dispute which defea diplomatic settlement. Thousands of Republicans are teiling us that if a reform candidate is not nominated they will yote for Bryan. La Follette is their only reform candidate—the only man hold enough to take his stand with the people. Roosevelt, thundering Democratic doctrines in his message to Congress, has opened the minds of millions of Republicans to the philosophy of Democracy. His call to arms to the masses against the clauses has opened the hearts of the thousands to the evangel of Democracy. We assert the right of Congress to exer-cise complete control over interatate com-merce, and we assert the right of each state to exercise just as complete control over commerce within its own borders. We state to exercise just as commerce within its own borders. We demand such an enlargement of powers of National and state railway commissions as may be necessary to give full protection to persons and places from discrimination and extortion. We believe that both the Nation and the various states should—First—Ascertain the present value of the railroads measured by the cost of reproduction.

POPULISTS LOOSEN TONGUES

Indorse Bryan and Claim All Reform Doctrine as Theirs.

OMAHA, Neb., March 5 .- The Popurecognize the call of the National com-mittee and to send a full delegation to the Populist National Convention at St. Louis. Thirty-seven delegates were selected for that purpose and instructgaging in any business which brings them into competition with their shippers, and Fourth—Reduce the transportation rates until they reach a point where they will yield only a reasonable return on the present value of the roads—such reasonable return being defined as a return sufficient to keep the stock of the roads at par when such roads are honestly capitalized. ed to vote and work for the interest of W. J. Bryan. The number of delegates was the largest number at any Nebraska Popu-

Causes and Remedies of Panie.

The injury done by issues of watered stock is more clearly seen and better understood since the shrinkage in the market value of such stock has precipitated a widespread panie and brought enormous loss to the country. The panic has also emphasized the necessity for legislation protecting the wealth-producers from spoilation at the hands of the stock gambiers and the gambiers in farm products.

The present financial stringency furnishes additional proof that the Republican leaders are cither unwilling or incompetent to protect the interests of the general public. Thy have so linked us to Wall street that the sins of the speculators are visited upon the entire country. We favor the Postal Savings Bank, and in addition thereto insist upon the passing of laws, state and National, for the better regulation of banks and for the protection of bank deposits. The Government demands security when it deposits public money in a bank, and we believe that the security of the individual depositor who entrusts his earnings to a bank should be as perfect as the Government's security.

We oppose both the Aldrich bill and the list meeting for four years. Resoluenunciated in 1892 and declaring for the support of Bryan by all Populists were passed, after which the conven-tion listened to speeches of the true Populist brand by different leaders, while the committee was preparing a platform flery enough for the oldtime Populists. E. E. Thomas, of Omaha, the perma-

nent chairman, in his speech, said the platform adopted by the Republicans at Columbus yesterday and by the Democratic convention in Omaha to-day are both good Populist documents. State Chairman Manuel Shopes spoke

significantly, saying: "As a National organization, I don't think we cut much figure, but as a state party we can materially assist at the election of Bryan as President."

FORM STATE TAFT LEAGUE

Washington Republicans Assure Secretary of Delegation.

has passed.

We demand, further, that favoritism in the deposit of Treasury funds shall be abolished and that surplus revenues shall be deposited at competitive rates upon sufficient security and fairly distributed throughout the country. TACOMA, Wash., March 5 .- (Spectal.)-A state Taft league was organized here tonight by 75 delegates from different sections of the state. Ralph Metcaif, of Tacouma, was chosen presi-dent; Herbert Moore, of Spokane Coun-ty, first vice-president; J. T. Blaki-stone, of King County, second vice-president; S. L. Lemon, of King Coun-ty, secretary, and Alex. Poison, of Che-halis County, treasurer. An executive was named in the three Congressional Districts and vice-presidents in section Measures for Labor's Benefit.

We favor the eight-hour day.

We believe in the concilitation of capital and labor and favor every legitimate means for the adjustment of disputes between corporate employers and their employes, to the end that justice may be done to those who totil and that society may be relieved from the embarrassment occasioned by prolonged strikes and lockouts.

We favor such a modification of the law relating to injunctions as will, first prevent the issuing of the writ in industrial disputes except after notice to defendants and full hearing; second, permit trial before a judge other than the one who issued the writ; and, third, allow a jury to be summened in all cases where the alleged contempt is committed outside the presence of the court.

We favor an employers' liability law applicable to both private and public employers. Districts, and vice-presidents in nearly every county with the exception of Walla Walla, where the names will be selected by the members of the local Taft Club.

A message was telegraphed Secretary Taft, pledging him an instructed dela-gation and 75,000 Republican majority
