Idleman Republicans Charge That Rival Camp is Planning Treachery. NOT FOR PARTY CHOICE

IN HODSON TICKET

POINT OUT JOKER

Say Opponent Will Work to Throw Popular Vote to Democrat to Pave the Way for Oldtime Election.

Charging that a Joker hides in the Hodnon - Stehel - Beach - Bailey Legislative ticket, the rivel Idleman-Davis-Colwellticket, the rival Idleman-Davis-Colwell-Gill camp saw it will fight the Hodson ticket to a finute. The five candidates for the State Senate and the 13 for the Horse of Representatives on that ticket have amended statements one and two of the primary law as follows: "Will vote for people's choice for United States Senator, if a Republican," The joker is as alleged schame to defeat the Repu-lican unmary nomises for Senator, in the June solution, making the "people's choice," a Democrat, which would leave the Radson Legislators free to choose their own man for Senator, after the old manuer of electing the holder of that office

"lie rival camp says the Hodson ticket, while professing to stand on the platform of the Republican county convention, jurgles with its principal plank, which is Es it resolved. That we, as Republicans. Es it resolved. That we, as Republicans, are firmly of the belief that our representa-tive in the Senate and the House of Rep-resentatives of the State of Oregon, should not take a pledge that would require them to aupport a Democrat, Socialist or Popu-ier for the United States Senate from this State and that the members of the Legis-ative Assembly be instructed to vuis for the Republicant voters' oboles for United States Senator.

Where Joker Is Suspected.

The Idleman-Davis-Colwell-G'll element insists that the Hodson ticket, if stand-ing on the convention platform, would hind its members to vote for the "Re-publican voters" shoke for United States Senator," but that instead it pledget them so to vote only in case the Republicat primary nomines should defeat the Dem-ceratic paralies in the June election; otherwise that the ticket members would pick their own candidate for Senator. The Idleman camp openly declares that the Hodson tlekot, having this purpose in view, has thus twisted the convention plank

plank. Members of the Hodson camp make move that the charge is wholly faise; that the Idleman men are trying to force statement No. 1 on Republicans; that their own plan is to support the people's choice should be be Republican, and that their own plan is to support the people's choice should be be Republican, and that their own plan is to support the people's holdson has said in public meetings, when asked whom he would support in case the people's choice should support in the would of for a "good Republican." This, says the Idleman camp, means that the dodeon ticket will restore the old meth-od clearting Senators.

SPECIAL TRAIN GETS FIRST WELCOME AT CAMAS

Camas was the first stop of the special train carrying the excursionists to drive the golden spike. The schools had been dismissed and the town was in gala attire. The train was welcomed with cheers and the waving of flags. The people on board the train were pleased at the number of children that came out to welcome them. During the stop at Camas the visitors were shown through the big paper mills. The photo shows the decorated locomotive that hauled the special train and the paper mills are seen in the background of the picture.

It is expected to have the entire line in operation between Portland and Spokane by the end of the present year. Trains over the road will be run-ning into Portland, it is expected, by next June, upon completion of bridges across the Columbia and Willamette rivers.

Roadbed Is Well Ballasted.

The excursionists yesterday were pleased with the smooth roadbed of the w line and the modern and substantial character of the construction throughout The train ran as smoothly as over an old and perfectly settled roadbed. The straight line and lack of grades makes the new road an ideal one and these features impressed themselves upon the first passengers to ride over the road.

The scenery along the new line was amply appreciated yesterday by the hundreds of people who had never been along the Washington shore of the Upper Columbia Before. The train passed in the shadow of Castle Rock, crossed hundreds of dashing mountain streams and plunged through a number of tunnels, the longest of which is that through Cape Horn, almost half a mile long.

The special train returned to Vancou-ver at 5:39 yesterday afternoon and a banquet was given at the Columbia Ho-tel, Vancouver, to celebrate the opening f the new road.
