Big Orders Placed for the Japanese Product.

NEXT LOT DUE ON ARABIA

Oregon Crop Is Nearly Exhausted and Prices Are Expected to Advance-No More Shipments From the East.

A big trade in onions with Alaska is profitted this Spring and the Japanese pro-duct will furnish the hade of operations. The peculiar market conditions existing make it very probable that high prices will prevail and the Portland and Puget Sound Jobbers that get in on the business are likely to find it profitable. A small shipment of Japanese onloss has already reached Portland and large slipments are

Richard Adams, the broker who is bring ing over the Japanese onfons, said yester

ness onlone brought on the Numantia was only a trial order. It was not known for a certainty what the quality would be but this shipment showed that the onlone are first-class in every respect. The result has been that large orders have been placed of the other side for shipment on the fol-lowing steamer. The Arabia, which is duhere early next month, will bring a large nantity. The shipments will continue, robably until July. The movement to the cound ports will also be heavy.

"Many of the orders that have been placed here and on the Sound are for the Alaska trade, and elipments for the Far North will start on the first steamers out next month. The Japanese onlon is an ideal article for this trade, as it is not only of a superior quality but here. of a superior quality, but is an excellent keeper, whereas the new croy Texas Ber-mudas, that will be in about the same time, will not keep well enough for the

purpose.

The indications all point to a strong and high onton market. The supply of old Orsgen onlons is now practically exhausted. Burbanks, 75c@\$1.10; sweets, \$200.00; Burbanks, 75c

Week Is Ended.

The butter market is getting ready to drop and lower prices may be general before the week is ended. It was reported yesterday that two or three of the city creamerles were offering butter at 32% cents, but the there held at 35 cents. This latter quotation also prevailed on Front street for the test brands, though it is probable there will be a 2% cent reduction on country creamers teday. Local stocks are not large in any uarter. The undertone of weakness is aused by the low prices ruling in San rancisco, and it is to prevent an unufa-tion of California butter that prices here

Beer sugar is practically off the market. A few thousand bags remain in the hands of dealers and when this stock is exhausted more will be available until the new crop is marketed in June. Sugar prices are very strong in the East, but the advances are not followed on this Coast owing to the complications in the refinery situation.

f banking and the market was notable for a revival of rumors of important developments which lacked verification and which were in themselves vague as to form and somewhat confused as to substance. The most potent of these in its effect on the market was a revival of the report afford the recommendation of the recommendati agreements to maintain wages by the rail-roads. The day's speculation held the view of a probable agreement between railroad and the National authorities, in spite of the lack of official confirmation.

The conspicuous leadership of Union Pacific in the movement was due to revival of reports that the plan for sogregation of that company's investments was ripe and would involve an extra dividend rumor was revived to apply to Northern Pacific also. The strength in Reading was connected with a report that a compromise was being prepared by the Department of Justice in the suit to test the commodity clause of the Hepburn law, which would exempt the coal roads from penalties for noncompliance pending the decision of the suit. The reaction late in the day was partify due to profit taking.

The instructions from President Roosevelt to the Commissioner of Corporations to investigate stock trading was not generally known on the floor of the stock exchange before the closing, but some late solling came form the sarly-informed on its contents. Slump in Wheat in Late Trading at Chicago.

DUE TO PROFIT TAKING

Market Nervous All Day With Range of Prices Extending Over 2 Cents_Better Demand for Cash Grain.

CHICAGO, March 11—Wheat was nervous all day, the range of prices extending over 2 cents. Moderate firmness was caused at the opening by covering by shorts. This market then weakened on realizing the May delivery being sepecially heavy, About noon, sontiment became decidedly builds, because of a much better demand for cash, wheat in the local market. During the final half hour, the market became weak again on renewed profit-taking and nearly all the early gain was lost. The close was weak. May opened a shade lower to \$6 % chigher at 183, \$6944c, sold at 93 %c and then advanced to 95 %c. The close was at 93 %c. Corn was strong almost all day, but weakened late in the session owing to liberal realizing sales. A large part of this late selling was due to the slump in wheat. There was no change in the general situation, receipts being still very small, cables firm and cash demand sufficiently active to prevent any accumulation of stocks. The market closed weak. May opened a shade to %6 %c higher at 65 % 16 %c, advanced to 66 and then declined to 64 %c. The close was 65c.

Trade in oats was again on a rather small scale and the market was inclined to be weak. There was some selling of May by leading holders. Receipts continue to show a moderate increase. The close was easy. May opened he lower at 33 % 5. sold between 53 % 53 %c.

Jones and Chief Engineer John Jenkins were drowned, according to news received in the Australian mail. All other officers and crew were saved. The Windsor, bound from Fremantie to Hong Kong with sandal wood, was to have come across the Pacific to Victoria or Puget Sound, probably via Mexico, When the steamer drove on the reef, two miles from Pelsart Island, one of the Abrolhous group, where camps of guana workers exist, her bottom was smashed and she was firmly held, with seas washing over her. Those of the company who left the boat reached shore without much difficulty, but the following day heavy weather set in and resoue was most difficulty. coast, when she was wrecked on a reef weather set in and rescue was most dif-ficult. two of the guana workers who joined the rescue being drifted to sea and

The rescuers were hampered by lack of rocket apparatus and the four seamen and I4 Chinese who had remained with the three officers lashed themselves on planks and were drifted ashore by the landward sea, being pleked up in the surf by rescuers.
