SPOKANE PROPOSES TO OFFER \$10,000 IN PREMIUMS.

Show in Falls City Next December Will Be Open to Competitors From All Over United States.

SPOKANE, Wash., March 19 .- (Spe cial.)-At a meeting of prominent citizens today it was decided to make the big apple show that will be held in Spokane next December a National affair, and such large prizes will be offered that fruit from all parts of the United States will be entered in competition. It is expected that the awards that will be given will attract some of the greatest fruit experts of foreign countries.

To carry out the plan, a corporation to be known as the National Apple Show will be formed with stock amounting to \$100,000 and governed by a board of trustees of seven or nine men. It is anticipated that one of the directors will be Louis W. Hill, president of the Great Northern Railroad, who has been requested by wire to accept a position on the board.

It is intended to offer from \$8000 to

\$13,000 in premiums and to make the show an annual affair. Among the leaders are W. D. Vincent, cashier of the Old National Bank, and David Brown, president of the Hazelwood Company.

Building to Begin at Once-Southern Pacific Orders Sidetrack Laid. Plant Will Have Capacity of 500 Cases Daily.

McMINNVILLE, Or., March 19.—(Special.)—A modern milk condensery is the latest industrial enterprise that has been assured to this city. The Willamette Valley Condensed Milk Company, of which. J. Woods Smith, of Portland, is president, and with which a number of other Portland men are connected, will erect a plant here, to cost upward of \$50,000. President Smith and Otto Olston were in town today and paid the purchase price on the ground which the plant will occupy. The site comprises four whole blocks and some McMINNVILLE, Or., March 19 .- (Spethe plant will occupy. The site com-prises four whole blocks and some fractional blocks, 40 tots in all, lying adjacent to the railroad track, in Oak Park Addition, north of the Southern

Pacific station.

A committee of business men of this city have been negotiating for several city have been negotiating for several weeks with several owners of the property and securing the deeds for the purchasers. This required much correspondence, for many of the deeds had to come from remote sections of the country. General O. O. Howard, retired, was an owner of McMinnville realty and sent the deed to his lots from his home in Vermont. Other deeds had to come from parties in California and elsewhere. As soon as title deeds had to come from parties in California and elsewhere. As soon as title
could be given, the Condenser people
closed the deal with a check, and active
arrangements will be made for the
installation of the plant, which will
have a capacity of 300 to 500 cases per
day, requiring 3000 to 5000 pounds of
milk ordinarily, yet large enough to
be increased to 1000 cases, using 100,000 pounds of milk when the develon-000 pounds of milk when the develop-

ment of the enterprise will warrant it.

The superintendent and general freight agent of the Southern Pacific came up in their private car yesterady and with their assistants located the sidetrack which they will put in before work on the buildings can commence. They instructed Roadmaster Mills, who is stationed here, to get the construction of the sidetrack under way at once. The City Council at a special meeting last evening made an order vacating certain streets lying within the purchase of the condenser people, so that they will own their land in one

ody.

Plans for the buildings provide for two structures, in dimension 130x50 and 175x50 feet. Machinery has been purchased, and it is the most modern. An expert milkman from Mt. Vernor Wash, has been engaged to superin-tend the plant for a period of seven years. It is hoped to have the con-denser in operation by the coming July, ut, of course, much depends on getting the buildings up without delay.

The erection of this plant will mean a great deal for the farmers of this

section, as well as to the commercial importance of McMinnville. This city being accessible by rail from evi-rection, will be in a position to g

Cured by Dr. Williams' Pink Pills and the Proof Is Right Here.

For years evidence that inflammatory atism is ourable by Dr. Williams Pink Pills has been published.

That hundreds of people have tried the treatment with good results is shown by the increasing number of cures re-

Every sufferer from this most painful disease who does not try this treatment is neglecting the most hopeful means of recovery as is shown by the statement of Mr. E. C. Odell, of Morrison, Ill.

"I suffered with inflammatory rheumatism for eighteen months before I found a cure," he says. "I had always been more or less troubled with my kidneys and stomach. The rheumatic attack came on a few years ago when I was living in New York state. All of my muscles were inflamed and I was swollen from head to foot. I couldn't walk any distance at all without resting. The pains were dull and aching and once in a while were sharp and shooting. The rheumatism began to affect my heart,

causing fainting spells.
"I was under a doctor's treatment for about a year, but didn't derive any help from it and in fact I think I grew worse. I saw an account of Dr. Williams' Pink Pills in a newspaper and began to use them at once. The relief was almost immediate and I took the pills until immediate and I took the pills until cured. I have never had the rheuma-tism in any form since. My wife has been very much benefited by using the pills as a tonic and recommends them as highly as I do."

Dr. Williams' Pink Pills were origin-

ally a prescription used in the doctor's private practice and their benefit to manprivate practice and their benefit to man-kind has been increased many thousand fold by their being placed on general sale with the doctor's own directions for use. They are entirely safe and contain no opiates or other habit-forming drugs. They build up the blood, strengthen the nerves and have cured rheumatism in almost every form, anæmia, troubles off women and growing girls and many forms of weakness.

The "NEW PROCESS" GAS RANGES

Are unequalled for quick work or economy of operation. The "New Process" is the most complete line made, every one of which is constructed with a view of securing the most convenient possible combinations to meet every requirement of the modern kitchen. The linings and bottoms of the ovens of these stoves are open, so that the heat comes in direct contact with the article to be cooked or baked. This is a great advantage and means a wonderful saving, as it is not necessary to heat the oven from 10 to 12 minutes, or longer, before putting the baking in, as in most ranges. The burners of the "New Process" are the most efficient and most economical made, and can be taken apart and cleaned in an instant.

We have just received a carload of these modern ranges, including every style for which there is a demand. Priced from \$14.00 up, including installing and connecting where gas stubs project.

DUNBAR BURNED HIS BOOKS

Failed to Retain Records of Fees

SALEM, Or., March 19.—(Special.)—That he birned the books in which he kept the record of fees collected by him, was the testimony of ex-Secretary of State F. I. Dunbar, when on the witness area. Judge Galloway's court today in the car

gether with a lot of other papers and books, in a waste basket and gave them to a janitor to burn in the furnace in the basement of the Statchouse. This was at the end of his term of office. The books in question were those in which he kept the record of fees retained by him and not of fees turned into the treasury.

The Dunbar case was submitted without argument and Judge Galloway said that as soon as he can ascertain from the evidence what amount of fees were colevidence what amount of fees were col-lected and retained by Dunbar, he will enter judgment against the ex-Secretary for the amount. It is believed the amount will be between \$90,000 and \$110,000. The case will be appealed to the Supreme Court.
