

AMERICAN AUTO REACHES BAY CITY

Welcomed by Dense Crowds and Procession of Automobiles.

WILL LIE UP FOR REPAIRS

Starts for Valdez Early in May. French Car Travels by Railroad From Denver—Italian Car Under Repair.

SAN FRANCISCO, March 24.—The American car in the New York-to-Paris race arrived at the ferry slip and was driven aboard the ferry at 3:27 this afternoon, and 20 minutes later was rolling along Market street accompanied by no less than 200 other automobiles.

A great crowd gathered to greet the autoists at the foot of Market street; but the car stopped only for a minute and then proceeded along Market street to Golden Gate avenue and then to Van Ness avenue and Sutter and Fillmore streets to a garage. Crowds lined the streets along which the weather-stained car, at the head of the procession of automobiles of every size and make, passed.

Karl Bunker was at the wheel, and with him rode Hans Hansen, who, with George Shurtz, will take the car through Alaska and Siberia and on to Paris.

Start for Alaska in May. The American car will remain here for several days, undergoing numerous repairs and a thorough overhauling. It is not badly damaged, apparently, but will be put in the best condition possible before proceeding by steamer to Valdez. The time of leaving here has not been definitely settled upon, but it may not start until the early part of May.

The car was lost in the swamps near Los Gatos last night. The road was found this morning and the journey to the city was resumed by way of Gilroy, San Jose and Oakland.

French Car Comes by Rail. The French car arrived on the Southern Pacific overland at 4:30 this afternoon. Godard, the driver, made no attempt to cover the route between Denver and this city. The local agent of the Trans-Siberian Railway received a telegram today advising him of the coming of Godard, and has arranged for a reception in his honor when he arrives.

Italian Car Losing Lead. The Italian car is undergoing repairs at Ocken, 80 miles to the east of the American automobile. It is being rapidly overhauled by the first French car, which is tonight at Church Buttes, Wyo., only 124 miles east of Ocken, and the French car is 176 miles ahead of the German contestants. The latter are spending the night at Rawlins, Wyo.

CHARTER STEAMER TO SIBERIA Auto Racers Will Cross Bering on Steamer Corwin.

SEATTLE, March 24.—L. H. Gray, manager of the steamship Corwin, which sails for Nome May 10, and which enjoys the distinction of being the first boat into the northern port for the last six years, has received a wire from the representative of the three leading automobiles in the New York-to-Paris race, asking for reservations for men and machines.

They want to charter the steamship for a trip from Nome to the Siberian coast, and this Mr. Gray has agreed to do. He says that the steamer on the coast breaks up earlier than on the American side and, owing to the strong currents, is forced northward into the Arctic instead of south, as on the east shore. He expects to land the automobilists in Siberia early in June.

German Car Crossing Rockies. ROCK RIVER, Wyo., March 24.—The German car left here at 7 o'clock this morning. The trip to the coast here last night, Captain Koepen being unable to pass over the mountains in the darkness.

The fight was a draw, the advantage passing from one man to another half a dozen times in a single round.

Johnson surprised the crowd by his gameness and his eagerness to carry the fight to his opponent. Flynn showed more cleverness and in a series of short rushes nearly carried Johnson off his feet.

LONDON, March 23.—Drury Lane Theater, one of the most famous in London, was completely destroyed by fire early this morning.

The flames were first discovered about 4 o'clock in the morning, bursting from the windows. It was then too late to save the structure, which burned perceptibly all the efforts of the fire brigade.

There was no loss of life. The theater had been closed since the pantomime season ended. It would have been reopened on April 18. The origin of the fire is unknown.

The Postmaster-General is to exclude La Question Sociale, of Paterson, N. J., from the mails, and it will not be admitted to the mails unless by order of the court or unless you advise me further that it must be admitted. Please see if it is not possible to procure criminally under the section of the law that is available the men of that indigent and the sending out of this anarchistic and murderous publication. They are, of course, the enemies of mankind, and every effort should be strained to hold them accountable for an offense far more infamous than that of ordinary murder.

"This matter has been brought to my attention by the Mayor of the city of Paterson. I will endeavor to get the matter at the criminals under the Federal law. It may be found impossible to do this. I shall also, through the Secretary of State, call the attention of the Governor of New Jersey to the circumstances, so he may proceed under the state law, his attention being further drawn to the fact that the newspaper is circulated in other states. After you have concluded your investigation I wish a report from you to serve as a basis for recommendations to the action by Congress on the Revised Statutes, lewd, obscene and lascivious books and letters, publications for indecent and immoral nature, and postal cards upon which indecent and scurrilous epithets are written or printed are all excluded from the mails. No law now in force, fine and imprisonment for those guilty.

"The newspaper article in question advocates murder by dynamite. It specifically advocates the murder of enlisted men of the United States Army and the officers of the police force, and the burning of the houses of private citizens. The preaching of murder and arson is certainly an immoral as the circulation of obscene and lascivious literature, and if the practice is not already forbidden by law it should be forbidden.

"The immigration law now prohibits the entry into the United States of any person who entertains or advocates the views expressed in this newspaper article. It is, of course, impossible to permit those already here to promulgate such views. Those who write, publish and circulate these articles stand on the level with those who use the mails for distributing poisons for murder, and convictions have been obtained when the mails have thus been used for the distribution of poisons. No law now in force prohibits the Postmaster-General to become an accessory to murder by circulating literature of this kind. (Signed) ROOSEVELT."

Postoffice inspectors have already commenced an investigation of the newspaper.

CHURCH BELIEF NOT CRIME

Idaho Supreme Court Decides Important Mormon Prosecution.

BOISE, Idaho, March 24.—(Special)—"Celestial and patriarchal marriages to be participated in the next world or in the future life cannot be crimes here under a civil and self-made government. "Constitutions and statutes care nothing about what men believe with reference to a future existence, indeed they are intended in this American Union to protect a man in anything he wants to believe in reference to the future life. They do not deal with beliefs, but with acts and practices and teachings."

The above sentences from the syllabus of the Supreme Court decision handed down here today indicate the stand taken by the court in interpreting that section of the Idaho statutes which, for years, many have contended, disfranchises members of the Mormon church from voting and holding public offices.

large following in the country, and as president of the Unionist Free Trade League he took an active part in the campaign against tariff reform. He delivered his last speech on this question just one year ago, on the occasion of the jubilee of his entrance upon a political career.

Few men have spent a more active political life than the Duke. He had been almost continuously a Cabinet member in charge of some important department as a Liberal before the split with Gladstone, and later as leader of the Liberal Unionists. He led the Liberals during the temporary retirement of Gladstone in 1875 and was offered but refused the Premiership after the Midlothian campaign of 1880. He was again offered this honor upon the defeat of Home Rule, but he again refused.

The Duke was also active socially, and his entertainments at his Pica-dilly residence and at Chatsworth House, in Derbyshire, and his other country houses were the most notable of their kind. Members of the royal family frequently were his guests.

The Duke had no immediate family and the Dukedom passes to his nephew, Mr. Cavendish who married the daughter of Lord Lansdowne.
