REVISION OF MONEY LAWS

Senate Leader Admits Monetary Commission Must Be Named—Teller Would Cut Off Philippines and Reject Their Bonds.

WASHINGTON, March 25.—A good deal of progress was made by the Senate today in disposing of proposed amendments to the Aldrich currency bill. It was evident throughout the session that the bill will be perfected in the form approved by the finance committee, as no proposition that failed to receive the sanction of the committee received any attention.

WASHINGTON, March 25.—A good deal of progress was made by the Senate today in disposing of proposed amendments to the Aldrich currency bill. It was evident throughout the session that the bill will be perfected in the form approved by the finance committee, as no proposition that failed to receive the sanction of the committee received any attention.

AMENDMENTS HELD IN RESERVE

Several amendments were proposed and laid aside upon the statement by Aldrich that the committee would take them up and report to the Senate tomorrow. Among these were the amendments offered by Lodge for the acceptance of bonds of the Philippine Islands and the City of Manila among the securities for the issuance of emergency currency.

MONETARY COMMISSION NEEDED

Aldrich made another statement relative to the appointment of a monetary commission. He spoke in response to a question from Owen, saying: "It is apparent to me that recent events have shown an absolute necessity for taking up in a preparatory way that will be entered upon in the immediate future."

MAINTAIN GUARANTEE OF NOTES

Replying to a question by McClaurin, Aldrich said that while it was the Government's guarantee would be great, yet various accumulative guarantees had been thrown about the currency in order that absolute confidence in it might be maintained and he would not in it might guarantee any one of them. He remembered when the securities of the United States were not at par. In any event, he said, the Government's guarantee would be great, yet various accumulative guarantees had been thrown about the currency in order that absolute confidence in it might be maintained and he would not in it might guarantee any one of them.

WOULD TURN PHILIPPINES LOOSE

"I do not want to do anything that will tie that country to this. I want to see the islands cut loose from this country. It is a trouble with them, as Japan will walk in and take them."

MORTGAGES NOT GOOD SECURITY

Suppose the banks of the country had been loaded down with farm mortgages during the recent currency stringency," said Aldrich, "the suspension which was temporary would have been absolutely permanent. It is no part of the business of banks to accept farm mortgages. There is no civilized country in which banks are permitted to take farm mortgages. They are unconvertible securities. Nothing could be more repugnant to sound banking."

At 2:30 this afternoon "Jack" Hereford, of Billings, and Deputy Sheriff Taylor, of Musselshell, approached the sheep wagon at the Rufus Thompson ranch, where Byckford had been lying since daylight and found him dead, with a bullet in his temple and six wounds on his body.

DEFECTS IN ANTI-TRUST LAW

In the modern industrial world combinations are absolutely necessary. They are necessary among laboring men, and they are very necessary among farmers. Some of these combinations are, however, powerful of all instruments for wrongdoing; others offer the only effective way of meeting the actual business conditions which are inevitable and wholesome to keep upon the status quo unmodified by any law which is not in itself a law of change.
