

FLEET CAN EASILY MAKE LONG TRIP

Thomas Not Dismayed at the Prospect of Voyage Around World.

EASIEST PART TO COME

Men at Magdalena Bay Welcome the News of Great Cruise—Better Coasting Facilities Than in South American Ports.

MAGDALENA BAY, March 17, via San Pedro, Cal., March 25.—The news that the fleet was to continue its cruise after reaching San Francisco and complete the circumnavigation of the globe by way of Honolulu, Sydney and Manila and the Suez Canal was received aboard the flagship Connecticut at the Associated Press today.

It was at once transmitted to the commanding officers of the various battleships. The news excited the greatest interest and was the most absorbing topic of conversation since the fleet started from Hampton Roads. Rear-Admiral Thomas, who will be the senior rear-admiral after Admiral Evans retires, received the Associated Press correspondent aboard his flagship, the Minnesota, this afternoon and commented briefly upon the great trip ahead.

It can be easily accomplished by this fleet," he said. "In fact it will be easier than the present cruise has been. While there are many long trips between stops, every one of our modern battleships has a sufficient coal to make them, with some to spare. We shall have better coasting facilities at Honolulu, Samoa, Sydney and Cavite than we have had at the various places we have coasted on this trip.

As I glance over it, no difficulties of moment present themselves. It is, of course, a cruise of tremendous length, making the one we are completing seem small by comparison. It would likely be the last of December before we could reach New York, although that is merely a guess. It would depend upon the number and length of stops we should make."

Roosevelt Congratulates Evans.

MAGDALENA BAY, March 18, via San Pedro, Cal., March 25.—A wireless message has been received by Rear-Admiral Evans from President Roosevelt, congratulating him on his arrival at Magdalena Bay in advance of the scheduled time.

GREETING RESTORED CITY

D. O. Mills Tells San Francisco Essentials of Success.

SAN FRANCISCO, March 25.—A public reception was given this morning by the San Francisco Chamber of Commerce as a token of appreciation by the business community for his efforts to promote the prosperity of the city and state, to D. O. Mills, the San Francisco and New York banker. President Charles C. Moore, of the Chamber of Commerce, presided and spoke in behalf of that organization and other commercial interests. Mayor Taylor delivered a cordial address of welcome, to which Mr. Mills responded. Mr. Mills, who is in San Francisco of 1849 with the restored city of today and said: "I predict a greater future for the city than perhaps many of you anticipate."

He estimated the cost of new buildings since the fire at \$100,000,000, and the insurance on the burned district at \$25,000,000, of which \$20,000,000 had been paid.

"San Francisco can this time to great commercial successes and to many civil successes, in spite of all her troubles and disasters. If she has not had the successes that we hoped she would have it is well to recognize this and to realize what the causes have been. They are not peculiar to our city, but belong generally to the later life of our whole country. There are signs of an increase. Loss of public spirit and of increasing failure to meet obligations, accompanied by a desire in mutual forbearance and in the just recognition of each others' rights, but in some of these respects San Francisco has suffered to a pronounced degree. The increasing struggle between capital and labor needs to be composed. It ought to be understood that there is no general conspiracy of capital against labor, and that there can be none. Those who lead the organizations of labor to believe that there is, do them a great injury, as well as the public at large. San Francisco had had an undue share in money and a right, an equal right, with capital to an open market, a right to the open shop, the government that does not this is a false pretense, and it is not worth what it costs.

"Great as have been our efforts at recovery, they need to be yet greater, and to rise to a level even higher than in the past, yet the men of our past have great lessons for us and are good examples.

RUSH WINS CONVENTION

meeting to the Democrats in all the counties of Ohio a course of action calculated to "preserve the unity of the party, to eliminate factionalism and to secure victory by unselfish co-operation."

The resolution declared firm conviction that victory can be achieved for the Democratic ticket, both state and National, in Ohio this year, providing the party is united.

The meeting was stormy and the proceedings were attended by much confusion. When the harmony resolutions were presented by General Finley, a supplemental resolution was offered by Sloan Gordon, of Hamilton, endorsing the candidacy of William J. Bryan for President and favoring a free primary for the nomination of candidates for Governor and United States Senator. This resolution was ruled out of order. H. H. McFadden, of Steubenville, attempted to speak on the Bryan resolution, despite the ruling of the chair, and

MOTIVES NOT BAD

Impeachment of Judge Wilfley Not Warranted.

COMMITTEE FILES REPORT

Intimates, However, That Jurist Has Been Guilty of High-Handedness, Harshness and Other Errors in Conduct of Chinese Court.

WASHINGTON, March 25.—Impeachment proceedings will not be instituted in the United States Senate against L. B. Wilfley, Judge of the United States Court for China as a result of the charges of misbehavior in office brought against him by Lorin Andrews and other American lawyers resident in Shanghai. The report of the special committee, consisting of Representatives Coon of Pennsylvania, Webb of North Carolina, and Dickema of Michigan, appointed by Speaker Cannon to determine whether the charges were based upon facts sufficient to warrant impeachment of Judge Wilfley, was today submitted to the House committee on the Judiciary.

This report is in the nature of a verdict, holding Judge Wilfley guilty of the bad motives necessary to a legal cause for impeachment, but finding him guilty, though more by forceful inference than direct accusation, of high-handedness and harshness and some serious mistakes in the conduct of his court.

The investigation by the special committee followed the introduction in the House by Mr. Waldo of New York of a memorial complaining of the charges made by Mr. Andrews and his colleagues. In the report of the committee an exhaustive review written by Chairman Spoon and concurred in by Mr. Dickema, each of these charges and the real facts relating thereto, as brought out by testimony taken, are judicially discussed and disposed of, and the conclusions reached are as follows:

Need for Forbearance.

"The conclusion of the committee adopted from the memorial, from the examination of petitioner and from our construction of the precedents of impeachment trials in the United States, is that the actual facts charged in the said memorial, even though established by competent legal evidence, would not justify a conviction of Judge Wilfley upon charges of impeachment before the United States Senate, and would therefore warrant a presentation by the House of Representatives of such articles of impeachment. Notwithstanding this finding, the investigation of the case has made it clear to us that the anomalous character of this court, the extraordinary power given by law to the judge, the fact that it is separated several thousand miles from an appellate tribunal, and a broad ocean intervening between, presenting obstacles that burden the constitutional right of review with expense, delay and hazard unknown to any other court, justify the people of the United States in demanding of this judge a temperate exercise of his great power.

"It is obviously true that an aggression of entirely legislative acts, introduced into a system of tyranny and oppression and that an inequitable exercise of judicial discretion may convert the ministry of justice into an engine of despotism and autocratic power. This may be accomplished without the taint of individual corruption and with a laudable purpose of purifying a community and of inaugurating civic reform.

"Error to evildoers, if purchased at the price of judicial fairness and overstrained legal authority, is achieved at too great an expense, for it defeats its own high aim and warps the very fabric of law itself.

Has Dangerous Significance.

"The temptation of an honest judge to bend once the law to his authority to do a great right, 'do a little wrong,' is fraught with such danger to our whole system of remedial justice that it must meet the condemnation of every mind. Such acts of legal oppression and of abuse of judicial discretion lie at the foundation of the charges. They are made before the House of Representatives in the form prescribed by law and custom and presented as a question of high privilege on the solemn responsibility of a member of the House. Charges so presented against the court have a peculiar and dangerous significance. In this case they are dismissed as falling short of impeachable offense by what we believe to be sound principles of legal construction and the fact that Judge Wilfley is thereby denied every opportunity for defense. He can find no answer and make no denial nor explain to the House the legality or necessity for his action.

"These charges therefore, stand uncontroverted and if his judicial acts in the future are marked by the rigorous and inflexible harshness imputed to him they will hang as a portentous cloud over this new court, impairing the usefulness of Judge Wilfley, impeding the administration of justice and challenging the integrity of American institutions.

Precipitates Warm Debate.

"The presentation of the report precipitated a warm debate in the full committee, some of the members declaring the opinion that Judge Wilfley should be impeached. Mr. Clayton, of Alabama, entered a motion for such impeachment, and several other members of the committee failed to accept it he would move it on the floor of the House.

Nature meant him to be a plump little fellow at the start with plenty of fat to make tissue, bones and teeth. If he isn't such, it's a critical time.

SOMETHING MUST BE DONE

Scott's Emulsion has helped out thousands of babies in just his condition. It is the easiest form of digestible fat—gives results immediately without overtaxing the already weak system. The growing and the grown-up, the "run-down" and the convalescing depend upon Scott's Emulsion.

Bismarck at Versailles

HOW many living men can squarely stand up and honestly compare themselves as the equal or superior (in any way whatsoever) to the great Iron Chancellor who made Goethe's dream of Germanic unity a realistic drama of "iron and of blood?"

How many dare declare "I have greater brain power than he"—"I have a stronger body"—"I am healthier"—"I have a saner knowledge"—"I am more successful" or "I have more force of character?"

Bismarck, during his marvelous career, outwitted the most celebrated statesmen of his time; overthrew and conquered three armed nations, and ruled over the empire he created with enlightened and practical wisdom for nearly half a century, dying at the ripe old age of 89, famous throughout the world as the "Greatest of the Germans."

Now, upon what nutriment was this colossus fed that he grew so mighty; what put the iron into his blood? This we know—that like all Germans he believed in good eating and drinking, hence the juices of the malt and hops were never absent from his table.

Authority—any biography of Bismarck.
