Flushed with victory in having sustained practically every contention made before the special meeting of the Pacific Northwest Amateur Athletic Association held at Scattle Saturday, Directors E. E. Morgan and Edgar E. Frank, of the Multnomah Club, and Vice-President T. Morris Dunne, of the P. N. A., returned in Portland last night.

In spite of the adverse report given out by the Scattle correspondents and the retention of Will Inglis as secretary, Multnomah won practically every point brought before the meeting, and even took the Scattle delegation by storm, catching them napping, by having the University of Oregon, Washington State College, University of Idaho, Whitman College, Aberdeen Athletic Club, Scattle Public School League and the Portland College, Aberdeen Athletic Club, Seattle Public School League and the Portland Interscholastic League admitted to membership in the association. This resolution was passed with Seattle assenting when auddenly Delegate Inversity, of Seattle, realized that it meant the exclusion of younger Seattle talent from participating under the colors of the Seattle Athletic Club, and he moved that the proposition he reconsidered. His the proposition be reconsidered. His notion was seconded by Will Inglis, who was permitted as a delegate from the Washington National Guard to vote, but was defeated with all the delegates, ex-cept Inglis and the Seattle Athletic Club-voting no, and the institutions named were ordered enrolled as members of the

Will Inglis, on whom a fight was made, acknowledged in the meeting that he was acknowledged in the meeting that he was not and never had been a regular member of the Seattle Athletic Club, and by this admission the contentions of the Multnemah Club were substantiated, but as he presented credentials from the Washington National Guard Association, Washington National Guard Association, he was admitted as delegate. This year is Scattle's turn to hold the principal offices in the association, and there being no other representative from that city willing to accept the secretaryship, and as Inglis has but five more months to serve, he was re-elected unanimously, Multromah not desiring to antagonize the Scattle delegates any further.

### Morgan Makes Statement.

Morgan Makes Statement.

In referring to the meeting Director Morgan made the following statement which he prepared with the assistance of Delegates Frank and Dunne "One of the Seattle papers today (Sunday) prints an account of the P. N. A. meeting, stating that the charges against linglis fell flat. This is not a correct statement, for Mulinomah was correct in every contention. It was proved and admitted by all at the meeting, even the Seattle Athletic Club delegates concurring, that Mr. Inglis held the offices of secretary, treasurer, member board of managers and chairman of the registration committee illegally. Mr. Inglis admitted on the floor that he was not a member of the Seattle Athletic Club at the time of the last annual election in September, when his club represented that he was a member and on the strength of its statement, he was elected to the offices. Naturally his not holding membership in a club in the association, he could not be elected to an office in the association under the rules of the

and handicap committee.

'This meeting was the most stormy in the history of the association, lasting from 2 o'clock in the afterneon until 11:45 o'clock at night, with only a short adjournment at 6:30 o'clock for dinner. On finding that the September elections were fliegal in many respects it was decided to declare all offices and board of managers vacant, and to elect all officers igain, which was done. It was the scattle Athletic Club's turn to have the offices of president and secretary-treas erer, and A. S. Goldsmith was again chosen president. A few days before the meeting by mail vote, Mr. Inglis had the Scattle regiment of the National Guard, of Washington, elected to mem-hership in the P. N. A., and came be-fore the meeting as a delegate from that organization, for he would have been ineligible as a representative of the S. A.

Inglis is a paid employe of the Seattle Athletic Club, and part of his work is to manage footbuilt, bassball, boxing and wrestling tournaments, and practically all athletics for the Seattle Athletic Club, and as he is not a member of that organizaas he is not a member of that organizaas he is not a member of that organiza-tion it is only fair to say that part of the salary is paid him on account of his ability to handle ataletics profitably. After fighting on this question for some time it became apparent that a serious break in the association was inevitable. It was thoroughly under-stood, however, that no precedent had been established, and from the sentiment of the meeting it is safe to say that no paid employs or instructor of athletes in the employ of an athletic club could possibly be elected to any office in the P. In addition to the election of the new members in the association, the expense account of Forrest C. Smithson was presented by Director Moreau.

SALEM TEAM GETTING READY

Several Seeking Places-Glad That

Astoria Has Dropped Out.

SALEM, Or., March 29.—(Special.)—
Manager H. G. Meyers, of the Salem baseball team, is rapidly getting his men together and will be ready to meet the other teams of the Tri-City League when the season opens. The old ball ground on Asylum avenue has been secured again and yesterday a gang of 15 men was at work grading, building a fence and putting up a grandstand that will have a seating capacity of 600. The ball ground will be 400 by 425 feet.

The first try-out will be held next Saturday and Sunday and immediately thereafter the team will be definitely formed. For pitcher, three men are seeking a place on the team. Jerman and Lucas, well known in the Valley League. Astoria Has Dropped Out.

The news that Astoria has dropped out of the Tri-City League and that Albina has been admitted is satisfactory to the Salem management, for the trip to Astoria takes longer than members of the local team can give, for many of them will be engaged in other work.

S ALINAS, Cal., March 29.—(Special.)—
Tom Raftery tells a good one on Ote Johnson. When the pair were on their way to join the Portland team last season they stopped for a meal at a rail-road eating-house. The cashler took Raftery for a railroad man and charged him 25 cents for his meal. Johnson was him 25 cents for his meal. Johnson was soaked 75 cents. Johnson howled, and while he was kicking the waiter came along and added 10 cents more to the bill. When Ote was given his 15 cents change he handed it back to the cashier. Play on Sloppy Field Is Character ized by Many Errors, as Balltossers Have Difficulty in Keeping Their Feet.

On a sloppy field and apparently unmindful of the intermittent showers prevailing yesterday afternoon, the St. John Club of the Tri-City League and the Wabash Independents played a six-inning game, which resulted in a victory for the leaguers by the score of 9 to 5. In spite of the unfavorable weather, about 500 fans braved the elements and witnessed the contest, which was fairly well played, when the condition of the field is considered. Electric Company's Charges Protested.

EAST SIDE CLUBS IN ARMS

Denounce Wiring Tariffs as Being Unjustified and Call Upon Council to Compel Corporation to Modify Its Demands.

On the Peninsula the eight push clubs, representing about 500 members, have started a protest against what they call the "extortionate and unlawful charges" made by the Portland General Electric Company for making connections with private houses. It is charged that the company in many cases makes a charge company in many cases makes a charge of \$65 and \$95 for extending wires to

The City Attorney, by request of the University Park Board of Trade, submitted an opinion as to whether these charges are legal. He went into the his-tory of the franchises down to the present time and comes to the conclusion that the city has reserved sufficient power to require the company to make connections with houses within reason-able distances without charge. It has declared at all the club meetings that the action of the electric company in the action of the electric company in making these charges retards the growth of the whole community, as the rates are alleged to be prohibitory. It is proposed now to appeal directly to the City Council and City Attorney for relief. The following statement of the situation from the standpoint of the property-owners has been prepared and is being indorsed by the clubs and will be presented to the Council:

We, the Federated Peninsula Clubs, de-First.—That the present practice of the Portland General Electric Company of compelling consumers to pay all or most of the cost of connecting up their rendences with the company's main lines is unjust, unlawful and deserving of our severest condem-

Second—That the rates charged by the Portland General Effective Company for making said connections are exorbitant and unreasonable, and such that the consumer is compelled to pay to the company an enormous profit on its invasiment.

Third—That the charges and rates of the company are unequal, being in some instances, four times as much for one consumer as for another.

Frurth—That 84 per month for a 12-light circuit within 100 feet of the company's main lines is exorbitant, especially when we consider the fact that the same lights in Seattle. Tacoma, or Everett would cost but \$1 minimum per month, which was the regular rate in Portland prior to October, 1907.

Fifth—That the Portland General Electric Company in many cases asks the conveniences of connecting constants.

If Portland people would but understand the real estate possibilities in this city, they would not leave it to the outsider to pick up excellent investments, such as offered in Eyanston and other desirable residence sections of the city.

\*\*Fig.\*\*—That the Portland General Electric Company is short of property in the consumers also at similar exorbitant rates. Sixth—That if the Portland General Electric Company is short of funds, as it claims that such, to say the least, is a very strange.

state of affairs, since the people of Portland have always paid rates for their electricity that would enable any company so situated to pay any reasonable profit on its investment and still have plenty of money left to improve and extend its service even more than we ask without any increase in rates.

Ninth—And lastly, he it resolved that we implore the City Council and the City Attorney of Portland to use that obser and right which we understand is already theirs, and compel the Portland General Electric Company to immediately extend its times to any consumer desiring electricity in any reasonably settled district within the city limits of Portland at the rates charged in other Northwestern cities, namely, a minimum of \$1 per month.

Tenth—Furthermore, we pray the City Council and the City Attorney of Portland to take such action as is necessary to have the Portland General Electric Company refund immediately all moners which they have improperly and unlawfully cellected, including all costs for making connections with its main lines and the difference between the ameunt collected and the amounts that should have been collected in all cases where a rate greater than a minimum of \$1 per month has been charged.
