Hot Stove—Cool Kitchen. How do you expect to endure the broiling days of summer if you prepare all the food over a glowing coal fire? You need a "New Perfection" Oil Stove that will do the cooking without cooking the cook. It concentrates plenty of heat under the pot and diffuses little or none through the room. Therefore, when working with the NEW PERFECTION Wick Blue Flame Oil Cook-Stove the kitchen actually seems as comfortable as you could wish it to be. This, in itself, is wonderful, but, more than that, the "New Perfection" Oil Stove does perfectly everything that any stove can do. It is an ideal all-round cook-stove.
