SINGLE GRAIN STANDARDS

Chamber of Commerce Committee Invited to Supervise Grain Markets on the Exchange—Daily Forenoon Sessions.

It was decided by the grain and feed members of the Board of Trade at their session yesterday afternoon, to meet daily in the future at the time first scheduled, between 11 and 12 o'clock, as the afternoon hour was inconvenient to many of them.

A committee of the board appointed at the special meeting Wednesday night, called on the grain exporters yesterday morning and explained the reasons of the committee and invited them to have their representatives daily on the floor. It was also explained to the committee that it was the desire of the board of trade to conform strictly to the standards established by the Chamber of Commerce grain committee, and in fact the board of trade feels that the grain standard committee of the Chamber of Commerce should act jointly for both institutions and become the grain committee of the Board of Trade.

No business was transacted on the produce call at noon, as the Board of Trade is holding a meeting at that hour to discuss the proposed changes in the standards.

Among those present at the session was S. L. King, a Corvallis merchant, president of the Retail Grocers' and Merchants' Association of Oregon.

The tone of the produce markets was reported by the committee as follows: Veal, arrivals very much heavier, market weak all around, prices shaded in some cases.

Eggs, very firm, good outside demand, indications outside orders cease in few days. Poultry arrivals moderate; market in good shape.

The following offers were posted: 5 boxes fresh creamery butter, 27 1/2c; 15 cases extra fancy butter, 29 1/2c; 10 cases extra fancy butter, 29 1/2c; 10 cases extra fancy butter, 29 1/2c.

There will be a meeting of the Pork City Mohair Association Saturday for the purpose of changing the date of the mohair sale, as the primary elections are to be held on the day already set.

Mohair is selling in the local market more freely as the growers are becoming reconciled to the sharply reduced quotations.

The Boston Commercial Bulletin says of the Mohair market: As many mills are shut down, and others running only on part time, there is but little buying activity in the market.

The average grades are in slow demand, both in America and England, but it is reported that some transfers of finer qualities have recently been made in England.

Mohair is practically at a standstill in this market. The new domestic clip is said to be up to the average in quality, while growers' ideas of prices are beyond those held by the middlemen.

In Texas up to 30c is being asked, which is thought undesirable by Eastern dealers.
