Tillamook Shippers Are Insistent on Having Opposition Steamer.

THREATEN TO BOYCOTT

Consider Offer of San Francisco Interests to Pince Steamer on if They Patronize Bay City. Indignation Meeting Held.

- For the fifth time money has been raised and preparations made to purchase the steamer Anvil and place her in commission between here and Portland. Telephone adeless to this effect have Just been received here.

This amounteement follows close on the heels of an indignation meeting held here on Tuesday of shippiers and business men, at which a designation from Hay. City was also present. At this meeting the sentiment against the existing line, which is simported of having folled former attempts to secure better transportation, became very bilter.

The transportation committee of the Chamber of Cummerce also came in for democration, the speakers at the meeting maintaining that Tilliamook was not getting a source deal. It was shown by letters received that since Mr. Elmore had seen the charman opposition to the purchase of the Anvil had increased, and the promoters had found many obstacles in their path.

### San Francisco Blds for Trade.

At this meeting the offer of certain in-terests in San Francisco to put on a steamer between that city and Tillamook was discussed. For some time jobbers from the Bay City have been invading Tiliamock territory and getting away with business that rightly belongs to Portland. This offer to bring freight from San Francisco at much less cost than from Portland received serious considera-

A new line of steamers will be a pay-ing venture from the start, for practically all the shipping business has been promised a competing line for a period of two years. Interests here are practically a unit in demanding not only better shipping facilities, but better passenger transportation as well it is figured that at many homes elect are lost to Tillamook because of the lack of passenger modations on the Sue H.
