WARNED NOT TO INVEST

Match and Salt Monopolists Cannot Expect England's Aid.

LONDON, April 10.—Great Britain is somewhat reluctant to take up diplomatically the claims of the British match and salt monopolists in Venezuela, as it was against the advice of the Foreign Office that the controlling company entered upon its original agreement with the government of that republic. Concessions obtained by the National Match Company and the Venezuela Salt Monopoly, Limited, two English corporations owned by the British Syndicate, Limited, of London, were annulled by executive decrees of the Venezuelan government in January of this year, whereupon a representative of the syndicate appeared at the British Legation at Caracas and protested that the decrees were both ruthless and illegal. The syndicate is now preparing to take the matter up with energy. All the circumstances have been presented to the Foreign Secretary by a representative of the syndicate who has just returned to London from Venezuela.

ALLEGES SECRET GRAFT

Says Great Northern Has Never Asked Subsidies, but That Name Has Been Used to Obtain Them.

NEW PUBLIC PRINTER LEARNED TRADE AS DEVL IN BLOOMINGTON JOB SHOP.

John S. Leach.

SEATTLE, Wash., April 10.—(Special.)—President Louis Hill, of the Great Northern, gave out an interview this morning, says a special on the Times from Vancouver, B. C., which marks the final fracture of friendly relations between the Hills and John Hendry, who for years has been the Great Northern chief in British Columbia. Hill talked angrily of the vexatious incidents of the "Vancouver crowd," as he called them, which he called here that the delay in the transfer of the Vancouver section of the line has become a public joke. For years he has been unable to find out just exactly what we owned here. The Great Northern from the outset has adopted the principle of building main and branch lines without land grants or subsidies of any kind. We have sought no favors from Vancouver, but I regret that the chief officers of certain parties masquerading and juggling in the name of the Great Northern, parading their supposed connection and intimate relations, have been principally devoted to a still hunt for subsidies.

MUST PAY FOR HAULING CARS

Supreme Court Decides Complaint Against Electric Road.

OLYMPIA, Wash., April 10.—(Special.)—Holding that the agreement of the Union Pacific Railway Company to haul boxcars for the "Comor d'Alone & Spokane Railway" from St. Louis to Spokane, Ore., is in violation of the laws of the Interstate Commerce Commission, the State Supreme Court today in a decision rendered in the case of the Union Pacific and Spokane, gave the latter system \$180 damages against the electric road.

The electric road ordered 20 cars from the St. Louis Car Company, which had a traffic agreement with the Union Pacific and O. R. & N. Railways, those roads agreed to haul the cars from St. Louis to Spokane for nothing. After the cars were en route, the Spokane road entered into a traffic agreement with the Great Northern, and when the Harriman men delivered the cars they asked for the regular rate of \$20 per car as freight. This the Spokane road refused to pay, attempting to hold the railroad to its agreement to haul the cars free of charge. Suit was brought to collect this amount, but the lower court found in favor of the Spokane road. The Harriman crowd appealed and win in the high court.

BENTON TIMBER MUCH LOWER

Drops From Over \$1 a Thousand to About 50 Cents.

CORVALLIS, Or., April 10.—(Special.)—Timber lands in Benton County are much lower in price than a few months ago. About 50 cents a thousand is quoted as the price of standing timber now, though none is changing hands at that figure. As high as \$1 a thousand was paid before the bottom dropped out of the market when the October panic came on. It has gradually become known that the ranking holdings in this county were in actual process of changing hands at a better figure than \$1 a thousand when the money pinch arrived. The figure in the transaction was \$40 per acre, and one of the best timber tracts in the county says the timber the timber was going at more than \$1 per thousand. Of the latter timber there is 19,000 acres, and it is now being collected under the control of the defunct Portland trust companies.

GRANTS PASS FOR UNIVERSITY

Commercial Club Desires Annual Appropriation Granted.

GRANTS PASS, Or., April 10.—(Special.)—At a recent meeting of the Grants Pass Commercial Club, a resolution favorable to the University of Oregon appropriation bill was adopted without a dissenting vote. The text of the resolution is as follows: Whereas, a referendum has been invoked against the appropriation by the last Legislature of \$25,000 annually for the support and maintenance of the University of Oregon, and this state with its great re-

sources and unequalled climatic advantages, has entered upon a campaign to attract the attention of the best brains of home-schooled from the Middle West. This far-sighted course of home-schooled, and old, demand an opportunity for a university education.

Whereas, it is a step backward to even allow the securing of this much-needed support to be made in such a haphazard movement as one upon which no financial record should fall in go on record in disapproval of themselves.
