PATENTS WILL BE ISSUED

Government to Start Suit on Lester and Kottenbach Claims.

SPOKANE, Wash., April 15.—(Special.)—Suggestion has been raised in patents on stone and timber claims involving land holdings of W. F. Kes-

tinbach and George H. Kester, Lewiston bankers, last year convicted of conspiracy to defraud the Government. The patents will be delivered to the holders, who are Lewiston citizens for the most part. The suggestion is being raised because United States District Attorney Hulek of Idaho, has instituted suits against Kester and Kottenbach in order to cancel the patents on the ground of alleged fraud.

The claims were secured by 59 con-

trymen who, it is alleged, agreed to sell the lands to Kester and Kottenbach. The claims are located in the Clearwater White Pine belt, in the largest body of white pine timber in the world. They are said to be worth not less than \$5000 each. If Kester is successful in his suit, the Government will regain 10,000 acres worth \$250,000.

Spring styles fashion shows at Rosenthal's

PYRAMIDS OF LILIES.

Remarkable Exhibit Made by the Martin & Forbes Company.

It won't be necessary to wait for the Rose Carnival to see the finest exhibition of blooms ever made in Oregon. When out for a stroll walk out Washington

street and step into the Martin & Forbes Co.'s establishment, between Seventh and Park streets. No finer display of Easter lilies and other blooms has ever been made in the Northwest, and what makes the exhibit doubly attractive is the fact that every flower on exhibition was raised in the firm's own greenhouses at Mount Taber. The arrangement of the immense pyramids of lilies and other flowers leaves nothing to be desired and reflects the greatest credit on these flor-

ists not only for the good taste shown, but also for the enterprise that prompted them to make such an enormous and expensive display. The exhibit will remain until Saturday night.
