Returns from the Oregon primary yesterday, received up to 2 clock this morning, indicate clearly W. Fulton for the Republican nominaion for United States Senator by a majority ranging from 2000 to 5000, Take carries Multnomah County by a majority of 3000. Returns from the re-mainder of the state show that Cake, with a third of the vote counted, leads by 1900. Fulton has carried Clatsop and Lane by heavy votes, cutting down Cake's lead in the state. Cake has probably carried a larger number of countles than Fulton.

For Representative of the First Dis-W. R. Eills appears to have won over T. T. Geer, although the meager returns received did not decisively indicate this result. George S. Shep-herd has carried Multnoman County by 2000 or more for the Congressional nomination and has run well in the lower river counties; but he appears to be far behind both Ellis and Geer in Eastern Oregon. Shepherd's lead in Multnomah will in all probability be overcome by Ellis' plurality in the remainder of the district. It is impos-sible to say at this hour, 2 A. M., whether Shepherd or Geer will be third in the race. Later returns, indeed, may change the entire complexion of the present situation, but it is not prob-

The vote today was heavy, notwithstanding the heavy rain storm.

It is probable this 25 Democrats registered as Republicans in this county and voted for Statement No. 1 candidates for the Legislature and for Cake for Senator.

The Republican candidates nominated for county offices in the direct primaries in Marion County today are County Judge, W. W. Hall or W. M. Bushey: Sheriff, Harry Minto; Clerk, R. D. Missive Signed by Wisconsin Senator's Secretary Suggests That La Follette Be Roosevelt's Running Mate, or Vice Versa.

HOOD RIVER, Or., April 17.-(Speclal.)—In two letters made public here today by Mayor L. N. Blowers, it is indicated that a quiet campaign is being made to secure delegates from Oregon to the National Republican Convention pledged to a ticket that shall read, "La Follette and Receevelt," or "Roose-

velt and La Follette."

One of the letters is from Senato La Foliette's private secretary, written on the stationery provided for the use of the United States Senate, and is, therefore considered to have been given the endorsement and approval of the favorite son of Wisconsin. The other, which bears the signature of one known to be very close to Senator Bourne, makes a plea for delegates to be sent to

It is inferred from this that Senators Sourne and La Follette may have received assurances of some kind from President Roosevelt that he has recondecred his previous decision in regard to becoming a candidate, and that if enough delegates can be secured to insure his communation he will accept.

From La Follette's Secretary.

It is the desire of friends that you should co-operate with the companion of the Senator Hourpe. It is the desire of our friends that you should co-operate with him in every way possible, especially in the fight for the adoption of Statement No. 1, and also in the selection of delegates to the state convention to select delegates to the National Convention. We should co-operate with all of the reform forces in whatever programme may be agreed upon, and abov programmie may be agreed upon, and also all things should work against any i structions for the delegation, unless untractions shall be for La Folistic at Rossevelt or Rossevelt and La Folistic at Rossevelt or Rossevelt and La Folistic at Trusting that you may be able to operate with Mr. Young, I am, very y specifully, JOHN J. While the few local politicians who have sen the letters can understand why the President might be induced to consider licket that reads "Roosevelt La Follette," they can scarcely credit the idea of one that would bear the caption "La Follette and Roosevelt."
