land fluring the coming grain season. Offices will be opened here immediately and new donkey scows and gear ordered. W. K. Scott, formerly dock manager for Balfour, Guthrie & Co., has been selected by McCabe & Hamilton for resident manager. Mr. Scott has resigned from the employ of Balfour, Guthrie & Co.

For many years the stevedoring of Portland has been handled by the firm of Brown & McCabe. Last Fall Rothschild Brown. & McCabe. Last Fall Rothschild Brown. They did not go after grain ships.

McCabe & Hamilton have operated on Paget Sound for a number of years. Both at Tacoma and Scattle they succeeded in breaking up the langshoromer's unions, and they now conduct 'open shop.' What the policy will be in Portland has not been stated. Shipping men are of the opinion, however, that union help will be employed.

LEAVES WITH HUGE CARGO

Norweglan Tramp Rygja Carries 3,-000,000 Feet of Lumber.

HOQUIAM, Wash, April 17.—(Special.)
—Many mill and steamer whistles blew a long salute to the larse Norwegian tramp steamer Rygja as she steamed majostically down the bay today from the National Jamber & Box Company's plant. The Rygja carries a cargo of approximately 2,00,000 feet of lumber and will attempt to negotiate the bar tomorrow. She will put in at Nainaimo to fill her coal burkers and then start for Panania, her cargo being for the Bethuilan Canal.

This is the largest cargo ever attempted over Grays Harbor bar and the success of the Rygja in safely passing out may revolutionize deep sea conditions here.

members of the Portland Board of Trade was held at the rooms of the Board at S o'clock last night, the different interests being well represented. After a general discussion of matters relating to the handling of these commedities on the exchange, the following committee of five was apointed to go over the rules and regulations routded by Secretary Muller and submit heir report to the trade: D. A. Pattullo, of Halfour, Guthrie & Co.; Frank McKee, of Kerr, Gifford & Co.; I. C. Sanberd, of the Campbell-Santord-Henley Company, Frank Li Shull, or the Portland Flouring Mills Company, and Frank W. Swanton, of the

Columbia Milling Company.

A formal resolution was passed adopting the grain standards of the Chamber of Commerce as a basis for transactions on the Boar of the Board and another resolution extended an invitation to the grain standard committee of the Cham-ber of Commerce to act in the same ca-pacity for the Board of Trade. Secretary Muller reported that he had ordered ten tables, 42 by 26 inches in size.

with eight-inch lock drawers, each having space for two dealers to exhibit their sumples. A small result fee is provided in the rules for the use of the tables, on which will be placed the firms names. The choice of locations will be auctioned off. One dealer has already offered \$5 premium over the rental for the best location.

At the meeting of produce men to be held it 2 o'clock this afternoon, it is probable, judging from the discussion on the floor in junging from the discussion on the fasor in the past two days, that the provailing draw-backs of the egg trade will be thoroughly discussed with a view of their adjustment. Monday at 1 P M the board of direc-tors will meet to listen to a proposition for support from the promoters of the new apport from the promoters of the

mook.

Among the outside points interested in the Beard of Trade movement is Aberdoen, Wash. A letter was received by Secretary Muller resterday from merchants of the Grays Harbor city asking what steps it was necessary to take to buy produce on the floor.

Business was light at the exchange yes terday, owing to the measurement of offerings. The following offers were posted:

Retail Trade Is Fair, but No Improvement Is Noted in the Leading Industries_Building Lines Dull.

NEW YORK, April 17 .- Bradstreet's to NEW YORK, April 17.—Bradstreat's tomorrow will say:

Raster trade at retail, though affected in
sections by unfavorable weather, is, on the
whole, fair. Collections show slight improvement at a few centers and filling-in orders
to jobbors are a trifle better, but reports
from leading industries are no more favorable. Rather more weak cases are noted in
iron and steel and Phil trade in beating lines
is still disappointingly bankward. The dulness in building affects all lines of materials.
Export and import trade is obbing, indi-

ness in building affects all lines of materials. Expert and impert trade is ebbing, indicating the first decrease in foreign trade from the preceding fiscal year noted for five years past. The number of idle hands is as large as for some time past, wags reductions curtail buying power and the number of fallures continues far abrad of a year ago.

Ensier conditions prevail in the iron and steel market and production is smaller than it was a few weeks ago. Business in pix from its very light and lower prices have been made to attract even the small business being done. The finished iron and steel trades are likewise quiet and rail orders are only fair. likewise quiet and rail orders are only fair Plates are exceptionally dull and fabricator of structural material, particularly in the of structural material, particularly in the Chicago district, have named some low quotations on business recently booked, although there is no evidence that the shapes have brought lower than list prices. Demand for structural material is fair, track elevation and railroad bridge-building causing the build of the business. Bar from is weak and this adversely affects steel hars.

In fact, the widespread expectation of lower prices seems to have superinduced a vealing mood of purchasers in general, but the leading producers insist that prices will be maintained.

has not expert knowledge of the character of the different opportunities that are so numerous; who invests principally for the purpose of keeping their money safe and earning something; that man or woman needs only a level head and a little common sense. Conditions are such, right now, that a gilt-edged bond investment is especially attractive Bonds yield all the way from 3½ per cent to 5½ per cent. The amount of interest earned, however, should be secondary to the safety of the proposition. Then, again, the price of the bond is a matter of consideration. Most bonds that pay a high rate of interest are too high priced to be interesting. To invest in OCEAN SHORE BONDS is to be on the safe side in every particular. They earn above the average, 5 per cent on par value, 5.21 per cent on the easy-payment price, \$96, and 51/2 per cent on the cash price, \$92. The total issue is \$5,000,000. This issue is secured by over \$5,000,000 of sound assets. Hence, your money, invested in OCEAN SHORE BONDS, is safe, profitable, and the amount invested may be all the way from \$92 to several thousand. It is also worth remembering that OCEAN SHORE BONDS, now obtainable for \$92 and \$96, will command \$115 to \$120 as soon as the balance of the road is completed. Thus, you not only secure semi-annual interest payments, but may at any time convert the bonds into cash at a handsome profit over and above what they cost. If you would like to purchase one or more of these bonds for cash or upon easy payments, call at our office at any time.
