TRADING IS SLUGGISH

Upturn in Wheat an Unfavorable Influence-Call Loan Rates Held Steady by Banks and Trust Companies.

NEW YORK, April 20.—Business in the stock market made a poor start today after the three days' committee of husiness. This tras partly due to foreign markets remain-ing classed, according to custom, for Easter Monday. Whatever the source of the do-mand that advanced prices within the first tour, it was soon exhausted and stagnation

crops.

Call loans rates are not lower simply because the banks and trust companies, by a tacit consent, are not pushing the lending of their funds in that department. The demand for time loans is very singgish and offerings of commercial paper are light, choice grades commanding t to \$12 per cent.
