DEPLORE CRUISE AROUND WORLD

President's Enemies in Senate Shudder at Thought of Possible Cost.

BACON IS CHIEF MOURNER

Ably Seconded by Hale in Discussion Attending Consideration of Naval Appropriation Bill—Beveridge and Lodge Optimists.

WASHINGTON, April 21.—The reported purpose of the President to send the fleet of battleships now on the Pacific Coast, around the world, was the basis of a discussion in the Senate today when the naval appropriation bill was taken up for consideration.

Mr. Bacon, of Georgia, asked what would be the cost of this cruise around the world. Mr. Hale, chairman of the committee on naval affairs, replied that it would be difficult to state the cost, but he was satisfied that the wear and tear on the fleet would be very great. The cost, he said, would not be known for a year. He referred to the cruise as a "spectacular performance."

Mr. Bacon agreed that it was a spectacular performance, "but," he added, "it may be a very dangerous performance." Mr. Hale disclaimed any purpose to charge that no good would come of the trip around the world. He referred to it as a spectacular performance in the sense "that it was most remarkable and wonderful."

Bacon Wields Hammer.

Mr. Bacon said he hoped the report that the fleet is to go around the world would prove incorrect. He not only looked upon it as dangerous, but also as expensive, saying it would cost almost a million dollars to take the fleet through the Suez Canal alone.

Mr. Beveridge, inquired whether there are facilities in the Pacific for "making necessary repairs to the fleet," and Mr. Hale replied that that was one of the questions that would have to be taken up. "It would," he said, "cost tens and tens of millions to supply those facilities."

Sees War in Future.

Mr. Money made an extended speech on the danger of war if the Philippines are held by this country, saying that all nations that have had dependencies have been obliged to maintain great navies. The 7,500,000 people of the Philippines, he said, had cost the country several hundred millions already, and that money would produce no material result of advantage to this country but should be charged up to "the mere pleasure of ruling other people."

Mr. Money instanced the San Francisco school troubles as an example of the rapidity with which war clouds might overshadow the country.

Would Drop Philippines.

"If we drop the Philippines," he said, "we drop the chance of war in that ocean." He was sure there was no treaty right on the part of Japan that would justify the attitude of that nation on the San Francisco school question, but Japan "was ready to provoke a quarrel."

Mr. Money predicted that in 10 years the United States "would have to fight somebody," and he paid a compliment to Japanese valor and physical endurance. "Whenever we tackle that little nation," he declared, "we will have all we can do."

"You will have to keep that fleet there," he added, "if you are to hold the Philippines."

Lodge Relieves Monotony.

Defending the policy of sending the fleet of battleships to the Pacific Ocean, Senator Lodge said great good is already resulting from the long cruise and it is teaching the fleet how to maintain itself away from shipyards, by making repairs through its own mechanics on board.

"It is not enough," he said, "in a navy to have the units the best in the world; it is necessary to have an efficient fleet, and we have never until this year produced an efficient fleet. I think this voyage has done more for the Navy than anything that has been undertaken."

He declared that even should the Philippines be abandoned, that action would not make any difference in the need of a fleet.

Beveridge Wins Applause.

Senator Beveridge advocated a greater Navy than the United States now has. The policy of the Democrats, he said, favors keeping the Philippines until the people there are fitted for self-government; in any event it will be necessary to keep the islands for many years. Before the fleet started, he said, there had been talk of war, but after it reached Pacific waters such talk decreased and has now almost vanished.

Upon Mr. Beveridge concluding his remarks there was an outburst of applause in the galleries, and Mr. Hale arose.

"Now," said Mr. Hale, "let us see if we can make some progress with the bill."

Includes Retired Officers.

The Senate spent almost two hours reading the bill and discussing its provisions. The only amendment of importance agreed upon was one including retired officers of the Navy in the benefits of the 30 per cent salary increase provided for officers on the active list.

FAVORS FOUR BATTLESHIPS

Senator Piles Will Offer Amendment to Navy Bill.

WASHINGTON, April 21.—Notwithstanding the fact that the sentiment of the Senate is believed to be opposed to any increase in the House programme for the building of two battleships, an effort will be made to double that number. Senator Piles, of Washington, has prepared an amendment to the naval appropriation bill providing for the construction of four ships in accordance with the recommendations of President Roosevelt. This amendment will be offered unless there is a change of plan when the bill is taken up tomorrow.

It is said that there will be votes for the amendment on both sides of the chamber, but just what strength will be developed for the increase cannot be ascertained.

ALLOWS NO MORE SHADOWING

House Bill Restricts Use of Secret Service Detectives.

WASHINGTON, April 21.—The House committee on appropriations has inserted in the sundry civil bill, which will likely be reported to the House on Thursday of this week, a clause prohibiting the use of any money appropriated by the bill for the secret service in carrying out any secret work other than the guarding of the President and the detection and prevention of counterfeiting. The insertion of this clause was prompted by complaint, oft-repeated, that the secret service was being used by the various departments "in shadowing" and other detective work not contemplated by the law.

WILL SIGN LIABILITY BILL

Roosevelt Confident It Will Stand Fire in Court.

WASHINGTON, April 21.—As a result of an opinion rendered to the President by Attorney-General Bonaparte at the Cabinet meeting today, it is believed the President will sign the employers' liability bill. He accepted the opinion of the Attorney-General that the bill is constitutional and has waived any suspicion that he might have had to the contrary. The President is confident that the bill will stand the test in the courts.

The bill was not received from the Attorney-General's office until after 6 o'clock this evening, and consequently will not be laid before the President until tomorrow.

PRAISES AMERICAN NAVY

SIR WILLIAM HENRY WHITE SAYS CRITICS ARE UNJUST.

Noted Authority Declares That Ship for Ship It Stands Second Only to England's.

BOSTON, April 21.—In an interview published here today, Sir William Henry White, who was for nearly 20 years the reputed designer of all British warships, comments on recent criticisms of the American Navy. After declaring that the criticisms are unfounded in fact, and supplementing this declaration by a long and technical explanation, Sir William says:

"There is one thing more that I would like to say, and I think it is vital. I have known the American Navy from the start. It is not generally known that the modern American Navy started with the purchase of two of my designs from the Armstrongs. That was in 1885. From these designs the Charleston and the Baltimore were built.

"The first thing I want to say in this connection is that you have naval architects, in my judgment, as capable as any in the world. The second thing I want to say is that your shipbuilding yards are quite equal to any we have in their equipment and management and all that.

"And the result is that, in my opinion, you have a fleet that, ship for ship, comparing the ships designed at a given date—and that is the only fair comparison—is equal to anything the world contains. Next to the British navy I think your navy is the best in the world."

LOEB WANTS RETRACTION

Secretary Writes Sizzling Hot Letter to Representative Sims.

WASHINGTON, April 21.—Secretary to the President Loeb today made public a letter written to Representative Sims, of Tennessee, in reply to Mr. Sims' speech in the House regarding Mr. Loeb's connection with the Washington Electric Company. Mr. Loeb calls upon Mr. Sims for an immediate retraction, says that the statement of Mr. Sims was false in its effect, misleading in its imputation, unfair to him, and to the Representative's sense of rectitude and honor.

He says that of the 4700 shares of common stock of the road standing in his name only 100 shares, enough to enable him to qualify as a director, are his, and he denies approaching anyone regarding street railway legislation.

The unnamed Senator, also referred to by Mr. Sims, who is Senator Newlands, of Nevada, sent a similar communication, declaring that the stock in his name was simply held as trustee, and that he had never participated in legislation relating to the street railways of Washington.

REVEALS BURNS' METHODS

Witness in Hyde-Benson Case Admits Making Evidence.

WASHINGTON, April 21.—The cross-examination of Woodford D. Harlan, formerly a clerk in the General Land Office, was the feature today in the Hyde-Benson-Dimond-Schneider land-fraud trial. J. C. Campbell, of San Francisco, attorney for Benson, drew from the Government's witness the fact that he often told Benson falsehoods in order to secure evidence for the Government. Harlan admitted that under the instructions of Secret Service Agent Burns he practically demanded money from Benson, instead of Benson offering to bribe him.

William E. Valk, an ex-employe of the land office, who was on the stand yesterday, was recalled today for cross-examination.

Improve Army Medical Corps.

WASHINGTON, April 21.—The conference report on the bill to increase the efficiency of the medical department of the Army was agreed to in the Senate today, and the bill now goes to the President. The effect of the measure is to place the Medical Corps, the Medical Reserve Corps, the Hospital Corps, the Nurse Corps and the Dental Surgeons under one head, to be known as the Medical Department. A new feature is the provision for a Medical Reserve Corps, for the purpose of securing an additional force of surgeons and physicians that may be called upon in the event of war.

Favors Large Arid Homesteads.

WASHINGTON April 21.—The House committee on public lands today reported favorably the Smoot homestead bill, authorizing the entry of 320 acres, instead of 160 acres, of land under the homestead laws in most of the arid states.

Senate Confirms Murray.

WASHINGTON, April 21.—The Senate today confirmed the nomination of Lawrence O. Murray of New York, assistant Secretary of the Department of Commerce and Labor, to be Comptroller of the Currency.

Taft Returns to Washington.

WASHINGTON, April 21.—Secretary Taft returned to Washington this afternoon from a visit to New York.

WETS HAVE INNINGS

Generally Win Elections in Illinois Towns.

ABOUT 100 SALOONS OUT

Cairo Stands by Liquor—Four Other Cities Go Dry—Only One Chicago Suburb Dries Up—Schools Greatly Aid Canvass.

CHICAGO, April 21.—The saloon forces were generally successful in the 40 or more towns and villages of Illinois which voted on the local option question today. Definite figures are lacking in many cases, but it seems certain that not more than 100 saloons were voted out of business. The larger communities almost without exception retain their licensed dramshops.

Cairo, the largest city in which the question was an issue, gave the saloons a majority of 3352. The principal exceptions to the general result were Effingham, Thebes, Pinckneyville, and Napierville. Some 35 saloons lost their licenses in these four cities.

In Cook County, 12 of the villages bordering Chicago balloted for or against the liquor interests. In only one, however, was there a change from previous conditions, Barington going "dry" by a small plurality. Ten others voted to retain their saloons and one decided not to admit the dramshops.

PINCKNEYVILLE, Ill., April 21.—Pinckneyville was today added to the list of "dry" cities. The anti-saloon forces paraded the streets and the schools were closed because of the absence of pupils who were participating in the parade.

TELLS HIS STORY AGAIN

Gallagher Repeats Testimony of Bribery in Trolley Deal.

SAN FRANCISCO, April 21.—James L. Gallagher, who, according to his own testimony, was a "go-between" between the Board of Supervisors, of which he was a member, and Abraham Ruef, today for the third time in court told of the corruption of the former Board of Supervisors, in the trial of Tirey L. Ford, general counsel for the United Railroads. He was subjected to a severe cross-examination by A. A. Moore, Sr., chief counsel for Ford, who probed deeply into Gallagher's life and brought out all his political history and ambitions. Mr. Moore asked:

"Then if you were not a 'higher up,' you were as high as you could get?"

"Yes," replied the witness.

Mr. Moore on one occasion asked Gallagher if he "hadn't been doctored up." Witness emphatically denied this imputation.

"How soon after going into office did you organize your board for plundering?" asked Mr. Moore; but an objection was sustained.

Gallagher admitted that he personally was in favor of the trolley franchise, and would have voted for it, even if there had been no money consideration in it. The witness strongly objected to the word "bribing," as used for his transactions.

Daniel G. Coleman, another of the grafting Supervisors, also told of his acceptance of a bribe, and was confronted with the affidavit signed by himself and other Supervisors, denying that they had committed any crime. He said he understood Ruef prepared this document.

The Bulletin says that ex-Supervisor L. A. Rea, a member of the boodling Board, is anxious to get rid of the money paid to him as bribes by the public-service corporations. He has made application to the District Attorney and to the Presiding Judge in the hope that they might suggest some way to get the money, amounting to $1285, out of his possession. Thus far, they have been unable to help him.

IS MRS. CARMIN DEAD?

Wilkins' Lawyer Hints That She Was Not Murdered.

OAKLAND, Cal., April 21.—Attorney Hugh McIsaacs, counsel for Mark A. Wilkins, who is charged with the murder of his putative wife, Mrs. Verine Carmin created surprise this morning in Oakland when he closed the case for the defense without offering any testimony.

Last week Wilkins was shown a picture of Mrs. L. L. Carmin by McIsaacs, and at the time he expressed a doubt as to whether the picture was that of the woman with whom he was living in Elmhurst and whom he is now accused of murdering. Attorney McIsaacs, when interviewed this morning, would not say as to whether he would contend later on that the woman with whom Wilkins was living was not Mrs. Carmin, but he intimated that a sensation might be sprung in the event that Wilkins is found guilty by the jury which is now trying him.

"What would you say," queried McIsaacs, "if I should bring Mrs. Carmin into court alive and well?"

In the event that it was established that the woman of whose murder Wilkins is charged was not Mrs. Carmin, the case would have to be dismissed and it might be ruled that Wilkins was once in jeopardy and would be freed on any charge in connection with the death of the woman with whom he was living.

INQUIRY INTO PAPER TRUST

(Continued From First Page.)

at the Waldorf-Astoria Hotel today with an exceptionally large attendance of members from every section of the country. Aside from the transaction of purely routine business, the most important action taken was the presentation and adoption of an address asking the President and the Congress to "grant immediate relief from the exactions of combinations of paper-makers." The address as adopted is as follows:

"Representatives of 774 daily newspapers gathered at the annual meeting of the Associated Press respectfully ask the President and Congress to grant immediate relief from the exactions of combinations of papermakers. In September, 1907, and again in November, 1907, the attention of the authorities was directed to the excessive prices then demanded by the paper combination. Immediately upon the assemblage of Congress, 20 or more bills, aiming to correct these conditions and to put paper and pulp on the free list, were introduced and referred to the ways and means committee. Persistent efforts to obtain a hearing have been refused. Dilatory tactics have been employed to prolong present conditions and to carry over to another session of Congress every proposition designed for relief. All newspapers here represented protest against delay.

"Attention is also directed against the false reports of news print paper prices which were recently furnished to Congress by the Director of the Census Bureau. The newspapers here represented use approximately 30 per cent of the news print paper consumed in the United States. We denounce the quotations submitted to Congress as misleading and unworthy of credence. The reiteration of the accuracy of these figures of the director after the error had been called to public attention, tends to shake public confidence and respect for statistics thus compiled."

Five directors whose terms had expired were re-elected as follows: Charles H. Grasty, Baltimore Evening News; William R. Nelson, Kansas City Star; W. L. McLean, Philadelphia Bulletin; G. M. Thompson, St. Paul Dispatch, and Adolph S. Ochs, New York Times.

No changes in the present rules and regulations of the service were made.

The Associated Press and the American Newspaper Publishers Association will sit down to a joint banquet tomorrow night at the Waldorf-Astoria, at which William J. Bryan will be the chief speaker.

INVESTIGATE PAPER COMBINE

Federal Grand Jury Will Probe Manila Makers.

NEW YORK, April 21.—It became known today that a Federal grand jury is about to begin an investigation of several of the large manufacturers of manila wrapping paper in this state. The purpose of the inquiry is to ascertain whether or not the manufacturers are conducting their business under an agreement in restraint of trade and violation of the Sherman anti-trust law. The officers of some manufacturing companies who are not affiliated with the International Paper Company have been subpenaed to appear before the Federal grand jury in this city tomorrow.

This investigation is believed to have no connection with the Government's inquiry into the affairs of the so-called "paper trust" and it is understood, does not involve those companies which make a specialty of white print paper for newspapers.

BRIGANDS DRIVEN BACK

RUSSIANS REPULSE KURDS, WHO FLEE TO MOUNTAINS.

Persian Expedition Fails to Appear, Governor Fearing to Attack Wild Mountaineers.

ST. PETERSBURG, April 21.—News was received here this afternoon to the effect that the Persian brigands who yesterday advanced to attack the Russian forces in Persian territory, were driven back with heavy losses and retired to the mountains. The Russian detachment from Belesuvar has again advanced a short distance into Persian territory, where it awaits reinforcements.

There is no sign as yet of the heralded Persian expedition to aid the Russians. It seems that the Persian troops quartered at Tabriz are barely adequate to preserve order in that city and they are said to be ill-disciplined and that the Governor of Tabriz is afraid to send them out against the mountaineers.

SENDS MORE TROOPS TO SCENE

But Russia Has Hard Work to Reach Beleaguered Force.

TIFLIS, April 21.—On account of the threatening situation on the Persian frontier and the urgent demand for reinforcements received from the commanders of the Russian forces in that district, 2000 men have been sent from here into the disturbed territory. These reinforcements will take several days to reach the scene of hostilities, which is 60 miles from the nearest railroad point through a difficult country.

No further news from the commanders of the detachments at Belesuvar and Shirin, which are menaced by the Kurdish brigands, has been received here. Information has come in that communication along an important trade route southward from the Caspian Sea has been interrupted by an uprising of the bandit population. As a result, caravans are afraid to venture out of Lenkoran.

DEFICIT STILL GROWING

Increased Salaries Heavy Burden on Postoffice Department.

WASHINGTON, April 21.—Figuring on the basis furnished by the returns of the first two quarters, the deficiency in the Postoffice Department of the current fiscal year will exceed $15,000,000. In a report of postal receipts and expenditures issued today the net deficiency for the first six months of the current fiscal year is estimated at $7,616,545, against a deficiency for the corresponding period of the fiscal year of 1907 of $4,962,202. The giant share of this deficiency was in the first quarter, amounting to $7,369,130, whereas the deficiency of the quarter just expired was only $227,414. In the same quarter of last year there was a surplus of $1,747,145.

The postal receipts for the last quarter were $52,252,832, while the expenditures were $52,380,247. The receipts increased over the first quarter by more than $2,000,000, but the expenditures increased by almost $5,000,000.

Postal officials attribute the deficit largely to the general increase in salaries allowed during the year in the department.

CHURCHILL FOR HOME RULE

Redmond Pledges Him Irish Support at Manchester.

DUBLIN, April 21.—The Nationalists are satisfied with the assurances given by Winston Spencer Churchill at Manchester last night with regard to the attitude of the Liberal party in the matter of Irish self-government, and John E. Redmond announced at a meeting of the United Irish League today, that it had been decided to support Mr. Churchill, and that recommendations to this effect would be sent to the Irish voters at Manchester.

Mr. Churchill is seeking re-election to Parliament on his recent appointment to the presidency of the Board of Trade in the new Cabinet.

THAW DEMANDS LIBERTY

Allowed to Sign Application for a Writ of Habeas Corpus.

NEWBURG, N. Y., April 21.—Counsel for Harry K. Thaw today served an order of the Supreme Court upon the superintendent of the Matteawan Insane Asylum to permit Thaw to sign an application for a writ of habeas corpus. Thaw then signed the application, which he submitted to a Justice of the Supreme Court. Thaw will be brought into court for a hearing on the question of his sanity.

USES THE WIRELESS

Prince de Sagan Sends Message to Mme. Gould.

BOTH HASTEN TO NAPLES

Object of Frenchman's Affections Is Traveling as "Annette Chapin." Newspaper Reporters Make the Prince's Life a Burden.

PISA, April 21.—The train on which Prince de Sagan is traveling to Naples passed here about midnight. The Prince did not appear, but the conductor took a dispatch to a telegraph office addressed "Annette Chapin, on board the Frederich der Grosse," to be forwarded by wireless.

Mme. Anna Gould is on board that steamer going to Naples.

TORTURED BY NEWSPAPER MEN

De Sagan Tells Pathetic Tale of Suffering in New York.

PARIS, April 21.—Prince Helie de Sagan gave an interview to a reporter of the Journal at the house of a friend last night before he left for Naples, in which he admitted that he was going to Italy to meet Madam Anna Gould, formerly Countess de Castellane, to whom he is reported to be engaged, but he refused to give any intimation as to when and where the marriage would take place, saying "the future is in the hands of God."

The Prince described his experiences in America as "torture." He said he was everywhere pestered by a legion of reporters and a horde of photographers, and that the most odious and most ridiculous things were printed about him and Mme. Gould.

"They even announced our marriage had occurred secretly in New Jersey," he said, "which was as false as the reported family dinners at which my fate was discussed."

He declared also that even a high prelate of the Catholic church took notice of his presence by issuing a manifesto against divorce, and this induced the clergy each Sunday to preach violent sermons against him and Mme. Gould.

DELAYS CASTELLANE'S TRIAL

Prince de Sagan Leaves Paris Without Giving Testimony.

PARIS, April 21.—In pursuance of charges made against Count Boni de Castellane for using forged documents in a recent case, Prince Helie de Sagan had received a summons to attend the Palace of Justice today to make depositions before the examining magistrate in whose court the case was to be considered.

The magistrate waited all day for the Prince to appear, finally learning indirectly that Prince Helie had departed last evening for Italy. It is likely that the absence of the Prince will protract the proceedings considerably.

PRINCE LOSES HIS TEMPER

"I Am Being Hunted Like a Fox," He Tells Reporters.

GENOA, April 21.—Prince Helie de Sagan arrived here this evening. Several newspapermen tried to approach him while he was at dinner, but he appeared irritated and exclaimed:

"I never saw such a chase; I am being hunted like a fox."

Re-entering the car, he ordered the conductor to see that he was not disturbed further for any reason.

Mme. Gould at Gibraltar.

GIBRALTAR, April 21.—The steamer Friederick der Grosse arrived here today from New York on her way to Naples. Among her passengers was Mme. Anna Gould, who will leave the vessel at Naples and travel through Italy before returning to Paris. The steamer probably will be a day late in getting into Naples, arriving there on the 24th inst., instead of the 23d.

Two Killed by Train.

DEARBORN, Mich., April 21.—F. J. Draper and William Walcott, both of Milan, Mich., were instantly killed today when an automobile, which they were driving, was struck by a train while they were attempting to cross the track.

COFFEE

There is no difficulty in getting good coffee for those who are willing to pay for it.

Your grocer returns your money if you don't like Schilling's Best; we pay him.

SHAKE INTO YOUR SHOES

Allen's Foot-Ease, a powder. Relieves painful, smarting, nervous feet and ingrowing nails, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age.
