

Method Adopted by Police to Sidelch Willamette Boulevard Scorchers.

PROVE CHARGE IN COURT

Judge Cameron Finds W. B. Stevens Guilty of Exceeding speed Limit and Imposes Fine-Other Cases Before the Court.

Should you chance to go automobiling down the delightful scenic Willamette boulevard do not scorch. Or if you do scorch, get your speed up to 50 miles an hour. By observance of one or the other of these tips alone can you hope to avoid attest

to avoid arrest. It developed during the trial of W. B. Stevens, in the Municipal Court, yester-day morning that the police have organ-tzed an elaborate and effective method of detecting ordinary speed famatics. Stevens was charged with having driven at the rate of 10 miles an hour going north on'the boulevard and of returning at the rate of 24 miles, thereby greatly monacing farm vehicles and driving rigs that were passing in and out of the city imits. avold arrest.

Situates denied the charge. He was creeping along at a verifiable snail's pace, be said. As an evidence he introduced the testimony of an elderly woman who was one of a party of five in the auto as Stevens' guests at the time of the arrest. The old lady said she had very weak nerves and could not stand to go at a high rate of speed. She was sure they were bowling along not faster than a horse would trot. The horse would have to be Dan Patch to step off the clip they were go, one of the arresting officers. Wellbrook and Cory then explained broak heed, if they intend traveling down they knew Stevens was a law break here, and autoists will do well to take heed, if they intend traveling down the Willamette bouleyard. Having received many complaints of speed flends, they made a few arrests, but were never able to secure a conviction, they said. It was simply a question of their judgment of speed against the auto driver's. So they bit on this plan: Stevens denied the charge. He was

of speed against the auto driver's. So

of speed against the auto driver's. So they hit on this plan: Locating an old stump just around a wooded curve, they took a tapeline and measured off 400 yards, setting up a small stake to mark the point. Then, when their duties did not require them clisewhere, they would get out of sight and quietly await the advent of a seorch-ing machine. It was a very simple problem to time them between the old stump and the stake, and then figure out stump and the stake, and then figure out

the number of miles per hour. "Stevens went out at the rate of 30 miles an hour," said Wellbrook. "We timed him carefully. When he came back his machine was running 74

"Was this the only instance that came to your attention?" Judge Cameron in-There were four others, but we didn't

"How was that?" Prosecutor Tomlin-son asked, suspiciously,

son asked, suspiciously. "They were going so fast we couldn't make out the numbers on the rear of the machines for dust," replied the offi-cer, thereby revealing the weakness in his system of detection. "That shows we weren't going very fast, then," put in Stevens, triumph-antic.

antiv

"Yea, they were," said the policeman, "There was only a streak of the other four or we would have got them, too." Judge Cameron held that under the system evolved by the officers for timing speedsters he could not do otherwise than convict. He was not inclined to believe, however, that the offense was a scribus one and suggested that a fine of \$5 would be sufficient. 'Yes, they were," said the policoman.

Stock Advances to 50c per Share Monday, May 4th

NORTHWESTERN EXPLORATION AND DEVELOPMENT CO.

Buy now and get in at rock bottom price-20c per share

Our stock is being taken up with surprising rapidity. The millionaire, the merchant, the doctor, the lawyer, the mechanic, are all buying it. Why not you? And do it now. We want to hear the hum of the wheels of our mill within a few months, then the shipping of our lumber, and then the income. Will you be one of the lucky ones to share in the profits? \$100 invested now will give you a life income.

I can positively convince you that there is no better investment on the present market than the one here offered.

Think of it! Four billion feet of high-priced, hardwood, merchantable timber, located on the Coast, accessible and easily logged, on good, wide, tidewater rivers. The market for every foot of this vast tract is already established, and the profits will be enor-

mous. Ten million feet per year can be sold in the immediate vicinity of our plant. This one market guarantees a net profit of 30 per cent on the entire investment, and represents but a small proportion of our output.

This large tract of timber is located on the Pacific Coast, where we have the best shipping facilities to any port in the world available.

The timber consists principally of the highest-priced woods used in the manufacture of pianos, hotel fixtures, shipbuilding, railroad and electric cars, house and office trimmings, furniture, and many other indispensable wood commodities.

The woods comprise MAHOGANY, LIGNUM VITAE, EBONY, CEDAR, ROSEWOOD, OAK, RUBBER, BALSAM, COPOEBA, COCOBOLA ..

The net price of this valuable tract of timber is less than 20c PER THOUSAND FEET, and most of it finds a ready market at prices ranging from \$100 to \$400 per thousand. The LIGNUM VITAE is in great demand, and marketable at more than \$1000 per thousand feet.

The Board of Directors of the Northwestern Exploration & Development Co., which controls this timber, has authorized me to sell a limited number of shares of its stock at 20¢ per share (par value

\$1.00), for the purpose of installing a plant of sufficient size to meet the demands of the market. I have on exhibition at my office samples of wood (highly polished), cut from this tract; also cruisers' reports and other data, which will convince at once the most skeptical of the wonderful

money-making resources of this enterprise.

Call or write and secure subscription blanks. Do not delay, or you may miss the opportunity of a lifetime.

I have received numerous requests for evening appointments from persons interested in this investment. During the balance of this week, my office will be open from 7:00 until 9:00 P. M.

Madras Man Says Agency Plains Country Thrives.

That the country about Agency Plains

The S9th anniversary of the founding of the Oddfellows Order in the United States was celebrated last night by Orient Lodge, No. 17, Utopia, No. 62, and Ormega Rebekah, No. 67, at the hall on Grand avenue and East Pine street. After a plano solo by Miss Anna Mac-Leod, and prayer by Chaplain C. R. B. Woodcock, Past Grand Master Robert Andrews made introductory remarks. Hon. M. C. George delivered the oration. He deciared that one of the chief achievements of Oddfellowship of re-cent years was the creation of the Re-That the country about Agency Plains and Madras is in a thriving condition, but that it is sadly lacking in transpor-tation facilities, was the statement made yesterday by C. E. Roush, proprietor of the Madras Trading Company Mr. Roush is in Portland to make arrangements for his Spring goods. He will leave today. Mr. Roush said a bumper wheat crop-was raised on Agency Plains last year, and that, notwithstanding the dry spell, the crop bids fair to be a fine one this year. The plateau known as the plains covers about 16 saures miles covers about 150 square miles.

achievements of Oddfellowship of re-cent years was the creation of the Re-bekah degree, by which woman became associated with her hrother Oddfellow in the work of friendship, love and truth. Mr. George declared that the Oddfellows Order is an order on a per-manent foundation, grounded in the af-fections of the masses, and will not pass away, because its principles are enduring. Its object is to do good. It makes better men and better citizens. In closing, Mr. George said he consid-ers the Oddfellows Order has a most covers about 160 square miles. "As that is the largest territory in the United States without a railroad." said Mr. Roush, "I believe we will soon have one. We are now 45 miles from the terminus of the Columbia Southern. Sur-veyors have been' through the country looking it over, and it is only a short time since Harriman himself was through there. But I do not so much on Harers the Oddfellows Order has a most promising future. In connection with the address, an excellent musical programme was ren-dered. Miss May Breslin rendered a

time since Harriman himself was through there. But I do not go much on Har-riman. I think he will do the country more harm than goed. "Madras is the proud possessor of five stores, two drugstores, two livery stables and a weekly newspaper. The contract has been let for two churches. There were formerly two saleons, but there is only one now. The church people got busy and turned it into a church town. "Property values are increasing there as well as elsewhere in Oregon. Three lots which I purchased two years ago for \$150 would now self for \$250. There are no more homesteads to be had in that vicinity. Lots on the business street are selling for \$450."

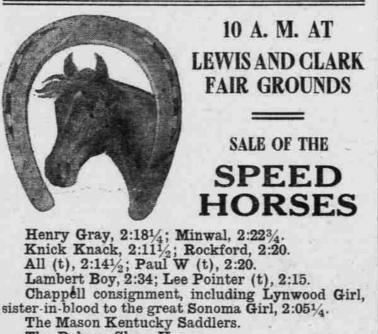

Low Rates to Chicago.

dered. Miss May Breslin rendered a vocal solo. The vocal solo by George H. Street, "King Charles," and the solos by Charles Hiran Parish were fully appreciated Plano solos were ren-dered by fiss Ruby Starr and Profes-sor Leo Shapirer. The Rebekah lodges were represented by several members, who made remarks. The hall was crowded to its capacity.
