Lincoln-Roosevelt League Is Conducting a Whirlwind Campaign.

### BOTH SIDES STUMP STATE

Primaries Arc Become of as Much Interest as a National Election in California-Pure Water

for San Francisco.

BY P. A. SINSHEIMER. SAN FRAN ISCO, April 28.—(Special.)

—A whirtwind campaign has been undertaken by the Edincoln Roosevelt League, the reform branch of the Repub-League, the reform branch of the Republican party of the state, to line up every county for the primaries of May 5. The beague has been instrumental in forcing the regular organization of the party into holding the primaries in every district of the state with the exception of the Third Congressional. In this district the machine has refused to conduct the elections, announcing that if will appoint the delegates to the state convention. The 72 votes of the district are enough to give the machine a big lead, and the league has decided to meet the Issue.

Accordingly, the League will conduct primaries on its own account in that district, and will demand a place for the

primaries on its own account in that dis-trict, and will demand a place for the delegates elected in the state convention. Should the machine be in control and re-fuse to seat them, the matter will be car-ried direct to the National convention in

#### Fighting in Gillett's County.

The league has sent some 10 of its ablest speakers into various portions of the state, and the stumping is now on the state, and the stumping is now on with as much emergy as though it were the eve of a National election. The league has decided to invade the "sittight" district of Humboldt County. Governor Gillett and George Knight are from Eureka, and for years have held the county solid. Both Gillett and Knight are wheel horses of the machine, and there is a general belief that they will be able to deliver the county fo the machine. Nevertheless the league will press the fight there, not only with the purpose of electing its own delegates, but with the further object of laying the foundation for an attack on Congressman Engelbright, whom the league hopes to defeat for re-election.

Among the league speakers who are

Drew, of Fresno County: Charles Wheeler, of San Francisco, one of the best-known attorneys of the state; Chester Rowell, of Freeno, editor of the Republican, W. R. Davis, ex-Mayor of Oakland and the watch dog of the Oakland waterfront; Frank P. Deviln, president of the league and Resublican leader of Valleague and Republican leader of Val lejo, and Mayor White, of Sacramento.

### Both Sides Organize Clubs.

District clubs have been organized in San Francisco and other large centers of population. But while the league has of population. But while the league has been active, the regulars have been by no means idle. The machine has matched the league club for club. Moreover, the regulars have worked with great skill to discredit the league. First they stated that it was a scheme to elect Rudolph Spreckels. United States Senator. Spreckels united states senator was not in politics and would not accept office of any sort. Then the report was set afloat that it was an adjunct of the Western Pacific. This has been quieted by as vigorous action against any dictation by the Western Pacific as by the Southern Pacific.

Although the league has assumed healthy proportions and may secure the next Legislature, its real trials will come only after it has gained control. In expanding, it has taken in many elements

Aiready speculation has begun as to the olde of the league for the Senatorship. In the first place, Senator Perkins will not be an easy mas to defeat. He has many friends within the league itself. The league men frequently mentioned in connection with the Senatorship include-Charles S. Wheeler, Chestey Rowell, ex-Governor Pardee and W. B. Davis, However, it is too early even to figure upon possibilities.

A change of sentiment at the National capital has placed within the reach of the city of San Francisco Lake Eleanor capital has placed within the reach of the city of San Francisco Lake Eleanor and the Hetch Hetchy Valley reservoir rights for a water supply. President Rossevelt and Secretary tearfield have both agreed that San Francisco may avail itself of these mountain sources whenever it desires. The task of bringing the water from the Sierras is of tremendous proportions and the legal entanglements to be solved are of a perplexing variety. It will be many years before anything positive can be accomplished. However, the acquisition of the Hetch Hetchy rights will work a benefit to the city in another way. It will always stand as a possible substitute for Spring Valley, the local monopoly, and may induce that corporation to reduce his selling price to a sum close to that at which the city is willing to buy. elty is willing to buy.

The University of California has just completed an arrangement by which the college work is separated into two distinct divisions, with the break between the second and third years. At the present time the requirements are strictly laid down, but in the amended regulations provision will be made by which the student may offer any one of a large number of combinations of studies.
