NO VOTE IS LIKELY

East Side May Not Have Prohibition Presented.

PETITIONS ARE ILLEGAL

Believed That Because Issue Was Up Two Years Ago It Cannot Be Brought Up at Coming Election.

That the entire East Side will not have an opportunity to vote on the liquor question at the June election is the belief of those who have examined the petition filed by the Prohibition advocates. The petition includes all the East Side precincts within the city limits, with the exception of 51. Several of these precincts were voted dry at the city election last year, and the state law provides that a vote on the liquor question cannot be taken often than once in two years.

As it is, there are 11 petitions upon which the County Court will pass within the next ten days. Today is the last day when petitions may be filed before the June election. Among the petitions is one filed by the liquor interests, calling for submission of the saloon question in Precincts 62, 63, 69, 71, 72, 74, 75, 76, 77, 78 and 79. These precincts include the district bounded as follows: Beginning at the east end of Madison street bridge along Hawthorne avenue to East Tenth, along Tenth to East Gresham, thence to the O. & N. track, to East Ninth, to Halsey, to East Fifteenth, to Fremont, to the Willamette river, to the point of beginning.

Fight in St. John

It is expected that a hot fight will be waged in St. John, as three petitions have been filed covering this territory. One includes Precincts 29, 30, and 31. The latter two include St. John, which is within the city limits. This petition will not hold in case the petition covering the entire city is held to be valid. The saloon interests have filed a petition in St. John alone, but the prohibition forces say this is invalid because the boundaries are incorrectly given, so they have filed another covering the same territory.

Three petitions have also been filed which include Gresham. One calls for a vote in Gresham alone, Precinct 101; another asks that a vote be taken in Precincts 101 and 102, Gresham and Powell Valley; while a third wants the question submitted to the voters in Precincts 100 and 101, Rockwood and Gresham.

Other petitions filed include the following territory: Precincts 42, 43, 44, 46 and 47, bounded as follows: beginning at the southern boundary line of the city at the Willamette river on the East Side to the eastern boundary line of the city, to section line between sections 13 and 14, to the Southern Pacific Railroad, to Holgate street, to East Twenty-sixth street, to Division street, to the Willamette, to the point of beginning.

Precinct 67, bounded by East Twenty-fourth, Halsey, Sandy Road and East Couch.

Precinct 69, South Montavilla.

Precinct 3, bounded by Savier, North Twenty-second, County Road and the Willamette river.

Easy to Colonize Voters.

Whether any schemes will be resorted to by either the liquor interests or the advocates of prohibition in order to carry out the provisions of the state constitution cannot be said, but under the Oregon election laws it is an easy matter to put men in a desired precinct who have committed themselves regarding the amendments on the liquor question. Especially is this so in the case of unmarried men, as they only have to sleep over night in the precinct in order to become residents. A portion of section 276, of the code, reads:

My Methods Always CURE MEN. I would rather give up my practice than indulge in either guesswork or make-believe cures. I have devoted twenty years to earnest and conscientious endeavor to find the cause of some of the most perplexing problems that confront the profession, and the result of that I have attained the limit of medical possibilities in my particular branch of practice. The Leading Specialist. I do not treat symptoms, I treat the cause. I have brought to light the true nature of men's diseases and the causes of the symptoms they present. In addition, I have, by the scientific blending of drugs produced remedies that meet every condition that it seems possible to cure. Even the slightest relief, under my treatment, is genuine improvement—a part of the permanent cure that is to follow. There is no cause to hesitate. Consultation costs nothing, and I will not offer my services unless I can cure you. MY METHODS ARE LOCAL AND DIRECT. That there is some functional derangement, the direct result of inflammation, enlargement or excessive sensitiveness of the PROSTATE GLAND, brought on by early dissipation or resulting from improperly treated contracted disorder. This condition CANNOT POSSIBLY be removed by internal medicines, and any tonic system of treatment that stimulates the activity of the function can but result in aggravating the real ailment. This is a scientific truth I have ascertained after a careful and scientific study, and upon which my own original system of treatment is based. I employ neither tonics, stimulants nor electric belts. I treat by LOCAL DIRECT METHODS exclusively, and my success in curing even those cases that others have failed to treat, is a relief with their tonics is CONCLUSIVE EVIDENCE that my method is the only possible means of a COMPLETE, RADICAL AND PERMANENT CURE. MY GUARANTEE IS WORTH SOMETHING. I do not care what your experience has been with other treatments, what amount of money you have expended, or what you have done as usual, unscientific, untried and unreliable means are in no way a reflection upon HONEST, TRUSTWORTHY BUSINESS METHODS lived up to in this city by me for TWENTY-FIVE YEARS. I have an established reputation, and my guarantee means that my patients are INDISPENSIBLY INSURED OF SUCCESS. I guarantee that if you do not get better within a reasonable period of time, I will refund you the money you have paid.
