LOVE FEAST OF LIBERALS

Asquith Declares for Free Trade; Shies on Home Rule.
LONDON, April 30.—The Liberals held a party love feast at the Reform Club today to welcome their new chief, Premier Asquith, and give him an opportunity of publishing a declaration of his policy. Resolutions of loyalty to Mr. Asquith were adopted by acclamation, after which the Premier outlined his programme. He hailed to the mast the flag of free trade, education, licensing and old age pensions, but he fought shy of home rule. This subject was not mentioned at all in his speech, and in this fact is found confirmation of the rumors current during and since the election campaign in

the Northwest division of Manchester

Churchill, who has just been defeated in that district, of his disapproval of Mr. Churchill's pledges to the Nationalists regarding home rule. Mr. Asquith did not announce any new principles in his address.
Panther and Arcthusa Arrive.
SAN FRANCISCO, April 30.—The repair ship Panther and the supply steamer Arcthusa, which accompanied the vessels of the Atlantic fleet to the Pacific from Hampton Roads, both arrived in this port today. After some slight repairs, the Panther will go outside the heads to join the battleships next Tuesday. The Arcthusa proceeded to Mare Island.

LAYMEN REJECT HART

Necessitates Election of New Man as Bishop of Delaware.
DOVER, Del., April 30.—Samuel Hart, custodian of the American book of common prayer, Hartford, Conn., was this afternoon elected by the clergy, at a special session here of the Protestant Episcopal church of the Diocese, as Bishop of Delaware, to succeed the late bishop Leighton Coleman. The laity later, however, refused to confirm the election, and the clergy must now elect another man.
Hart's election, as announced, was reached on the 29th ballot, which stood: Hart, 10; Bishop Partridge, of

Koyoto, Japan, 3; and Rev. Nathaniel S. Thomas, of Philadelphia, 2.

Chicago, April 30.—A startling decline in railroad traffic during April is shown in the biweekly statement of car surpluses and shortages issued yesterday by the car efficiency committee of the American Railway Association. The statement which is regarded as an excellent business barometer portrays conditions up to April 15 on 153 roads of the United States and Canada. During the fortnight following April 1 the number of idle cars suddenly mounted from 207,807 to 375,773, the greatest total in the history of American railroads. The figures bear out the statements of railroad men that during the month of April business conditions have been at a lower ebb than at any time during the panic. The highest previous surplus figure was on February 5, when it reached what was then considered the immense total of 343,928.

Blown Up by Unemployed

Quarry Foreman Loses Home Because He Barred Italians.
BUTTE, Mont., April 30.—The home of J. G. Wicklund, foreman of the quarries of the Washoe Smelting Company, near Anaconda, was demolished by a charge of giant powder at midnight. His wife and baby escaped unhurt. Wicklund was injured, but not seriously. A Butte, Anaconda & Pacific freight en route to the quarry, narrowly missed a wreck Wednesday, a crowbar having been tied to the rails. The engineer saw it in time. Several hundred Italians and Austrians, who had been employed at the quarries before the panic, were not em-

played when the Amalgamated Copper Company properties resumed last Winter, and Wicklund has frequently received letters threatening his life.

"When the properties resumed here thousands of men flocked to Butte and Anaconda, where few of the newcomers could be employed. Men in charge of the various industries auxiliary to the Amalgamated mines and smelters have been either threatened or attacked. In Butte several foremen and shift bosses have been seriously beaten, while on one occasion six weeks ago a superintendent drove a crowd of Italians from his mine at pistol point. No arrests have been made.
