- RULES PASSED UPON

Board of Trade Committee Finishes Its Work.

GRAIN TRADE TO RATIFY

Measures Provided for the Operation of the Grain Department of the Exchange - Oregon Strawberries in Market.

The grain rules committee of the Board adopted the rules that have been drawn up and they will be finally passed upon at a meeting of all the grain members to be held in the near future.

Among the salient features of the rules are the following:

Provision is made for a committee on grain to have control of the grain department of the Exchange, to consist of five members; providing for proper applications for membership; the committee to meet regularly and special meeting to be called on the request of any two members; the grain standards established by the Chambership. grain standards established by the Cham-ber of Commerce shall govern all trans-actions; the committee may provide for an inspection and weighing department, in the meantime the inspector of the Chamber of Commerce to be the official inspector and weigher of the Board of Trade; the rules also provide how inspection certificates shall be issued, for delinquencies in delivering and receiving and defining the terms of de-

livery; it is specified that all sales of grain and grain products made by members of the Exchange shall be for eash on delivery. The grain committee will constitute the quotation committee and such quotations will become the official market prices of the Board each day. Members only will be allowed to transact business on the fibor.

The meeting yesterday confirmed the auction of sample tables held on April 27, and provided for auctions on May 1 of each year. was specified that each firm should pay an annual rental fee of \$5 for the use of

PRODUCTION OF BEER IS DECREASED March Output Half-Million Barrels Less

That the recent heavy buying of hope has not been due to any increased prosperity in the brewery trade is shown by the latest Government returns on barrel tax paid by the American brewers. In March the pro-duction of beer fell off 508,500 barrels, the greatest decrease shown in many years. In late years, and in fact, up to January of the present year, the production has stead-The figures for the first quarter of 1908 follow:

the Eastern States and to the workings of he prohibition laws in some sections.
In the face of these conditions, the hop market has assumed an active tone, so active, in fact, that Oregon stocks in growers' hands have been reduced to about 10,000 bales. That the heavy buying has been induced largely by the cheapness of prices is patent to all. Browers are taking advantage of the low market to replenish their stocks as fast as used, and evidently are keeping their surplus up to what they consider normal proportions. Some of the buying has been on account of Spring deliveries to the Eastern and English trade.

Thomas Ironmonger, of London, yesterday cabled as follows to Isaac Pincus & Sons,

THE FIRST OREGON STRAWBERRIES James Bates, of Riddle, Is the Shipper, Bring Funcy Price.

To James Bates, of Riddle, belongs the honor of marketing the first Oregon straw-berries of the season, A small trate from his farm was received by W. B. Glafke & Co. yesterday and their fine quality was shown by the fact that they brought 50 cents a pound. Mr. Bates also made the first shipment to Portland last year, but it came in one day later. Forty cents was the price paid thes. California berries were abundant yesterday, 416 crates arriving, but many of them were spoiled in transit, and \$2 per crate was the best price realized. Five hundred crates are due today.

Two cars of oranges and a mixed car of oranges and lemons comprised the heavy receipts from the South.

BOARD OF TRADE TO MAINTAIN PRODUCE DEPARTMENT.

Plain Talk From Officers in Regard to Lack of Interest on Part of Front-Street Dealers.

In reference to the statements that the produce merchants do not want a Board of Trade, President T. S. Townsend and Secre-tary Fred Muiler, in discussing the matter yesterday, sald:

While it is true that the produce merchants have not shown that interest in the efforts of the Board of Trade that it was expected they would, there is, nevertheless, no reason for blame as far as the Board of Trade is concerned. We have used every effort possible to adjust matters in a way beneficial to the produce men. We have absolutely avoided taking in any country business interests immical to those of the produce merchants, and any statement made by commission men that this was a reason they did not want to come on the floor of the Exchange, is simply misleading, and a lame scusse, which any practical man in the business can hardly recognize as effective. When we come right down to calling a spade a spade, we can't heip but feel that some of the commission men have some axes of their own to grind, and that they are afraid too much publicity through the Board of Trade would be harmful to their practices. While it is true that the produce mer

The Board of Trade does not desire in any way, shape or form to interfere with the legitimate functions of the produce people, but we certainly do intend to regulate conditions in a way which will fairly reflect the market, and report the daily quotations on the actual basis and not below the figures everyone dealing in produce knows are obtainable in this market.

"The bulk of the produce business from the country should come to Portland, and it can only come to our city if our returns are fair and proper, Nobody wants to deny the commission men their legitimate profit, and, in fact, the Board of Trade is now endeavoring to secure an understanding among the commission men by which their profits will be larger and their returns be made on a better basis.
"Now, if this effort to better conditions is an objection to some of the produce merchants to support the Board of Trade, then we say something is radically wrong and the quicker it is known the sooner Portland will increase its business and the quicker the country interests will look with confidence to this point as a receiving center. practices.

will increase its business and the quicker the country interests will look with confidence to this point as a receiving center.

"To simply knock for the sake of knocking, is not business. We have often asked the commission merchants to come and discuss their grievances in meeting, but it has seemed that one is afraid of the other and that is where the trouble lies.

"We can only repeat, the Exchange has the leading produce men as frembers and is determined to satisfy their expectations by a proper regulation of market conditions.

"We might also cite the fact that we have among our membership the largest and leading country merchants of some 25 cities tributary to. Portland, and that we intend to enlarge this list by repeated visits to these sections. We have been able to demonstrate to these people the usefulness of the Exchange, and everyone of the country warchants has not only once but repeatedly expressed himself as groatly in favor of the Board of Trade's efforts."

The following invitation for a special meeting of the produce interests on Tuesday, May 5, at 8 P. M., has been sent out

by the officers of the Exchange:

"Kindly attend a special meeting of the produce interests on Tuesday. May 5, at 8 P. M. Be sure to be present Certain statements have appeared in the papers that the produce merchants do not want this Exchange giving a lot of reasons which have never been brought to our attention officially. We would like to have this meeting to find out just exactly what is what, in order that we may be governed by a definite decision one way or the other.

"As members of the Exchange, we at least, expect you to be present at this meeting."

OTHER HILL LINES GO UP

Advancing Tendency in Most of the Active Stocks-Cessation of Gold Export Movement-Closing Tone Strong.

NEW YORK, May 1.—Stocks developed a strong tone again today under the inspiration of a demonstration in St. Paul by a house credited with representing interests-influential in the company and leaders of many extensive speculative movements in the past. News developments to account for the rise were lacking. St. Paul's \$100,000,000 stock issue in December of 1996 anticipated the exhaustion of the capital supplies in the market, and together with the similar eager demands of Great Northern and Northern Paulic was given large responsi-Northern Pacific, was given large responsi-bility for the glutted condition in which the market . for investment securities was thrown But this important financing, acthrown. But this important financing, accomplished at that period, left these companies at less disadvantage in the difficult circumstance which developed in the later financial crisis. The advantage is cited to account for the present extraordinary strength of the group, the two Hill stocks sharing in the benefit. In the rest of the list, the strength shown was more moderate and to some portions of the list did not extend at all.

Pennsylvania rose quite conspicuously in face of the reduction in the dividend rate from T to 6 per cent. This was in consonance with the action of other stocks on which dividend reductions have occurred recently, notably Atchison and New York Central, and is indicative of how far the speculation.

reductions have been discounted in the speculation.

Some effect on sentiment was produced by the absence of further gold export engagements for tomorrow's steamer. In addition to this cessation of the gold outgo, the preliminary estimates of the currency movement with the interior gave evidence of the sustained heavy flow to this center. Copper was lower again both in London and New York and the copper industrials did not share in the day's strength. Reports of Wintry weather and danger of damage to the crops were ignored. A holiday in London contributed something to the dulines of the marget. The closing tone was strong and with prices rising rapidly in some directions.

BUT DELIVERIES ARE UNUSU-ALLY SMALL.

July Option Closes Weak in the Chicago Market on Heavy Realizing Sales.

CHICAGO, May 1 .- The price of May wheat advanced steadily today until it touched \$1.04. The total amount of deliveries made on May ontracts was only about 300,000 bushels contracts was only about 300,090 bushets, while in oats and corn and in provisions deliveries were abnormally heavy. July and September options were sold freely, but atalizing sales late in the day caused a corresponding decline. July opened 14 to %c lower at 881, to 88%c, advanced to 89%c and then declined to 88%c. The close was weak at 88467885%c.

at 88450855c.

Corn opened steady, but weakened along with wheat, the market closing easy. Oats were firm because of an active demand by shorts for the July delivery. Provisions were Leading futures ranged as follows:

NEW YORK, May 1 .- Bradstreet's tomor

weather conditions have been units of some to distributive trade this week, and rather quiet trade is reported the country over-fobbling trade has remained quiet, with business confined to small filling-in orders. Fail business has shown no particular in-crease in activity and orders are still scarce. of orders. Collections are still slow and extensions asked for or granted are still a feature.

the or no disposition to expand. Curtailment is still the feature in textile lines and some leading centers reported production 40 per cent off the normal. Foreign trade is quiet as a whole, but some improvement is reported in export demand for cereals after the smallest week's shipments in two years. The best points in the situation are the more cheerful feeling as to the ability of railroads to borrow and the undentably good cutlook for the Winter wheat crop.

Business failures in the United States for the week ending April 30 number 282, against 254 last week and 163 in the like week of 1807. Canadian failures for the week number as against 36 last week and 18 in this week a year ago.

Wheat, including flour, exports from the United States and Canada for the week ending April 30 are 1.630,500 bushels against 2,234,756 this week last year. For the 41 weeks of the fiscal year the exports are 179,417,285 bushels against 143,800,621 in 1906-07. tle or no disposition to expand. Curtailment is still the feature in textile lines and some

IMPROVEMENT IN FINANCIAL CIRCLES

But Volume of Trade Generally Is Very Small.

NEW YORK, May 1.—R. G. Dun & Co.'s review tomorrow will say:
Sentiment was greatly improved in financal circles by the successful issue of new rallway bonds, prices of securities attaining the highest position since his October, but mercantile and industrial conditions were not changed. The outlook for the steel business
