BIDS TIED UP BY COUNCIL

BOARD OBJECTS TO METHOD OF APPROPRIATION.

Branches of Administration Expected to Clash Today at Special Session of the City Fathers.

A special session of the City Council will be held at 2 o'clock this afternoon to consider a report from the Executive Board relative to bids for fire apparatus. An animated discussion is predicted, as the Council will be officially notified that the appropriations specified in the ordinance...

BOARD OBJECTS TO METHOD OF APPROPRIATION.

The manner in which the Council makes appropriations has been repeatedly criticized by Mayor Lane and the Executive Board. The Council at one time specifying a certain amount for street brooms and making no appropriation for wagons in which to haul away the dirt. During his administration the Mayor has often charged that a certain faction of the Council studies up ways and means to hamper him and his executive assistants. East Friday night, during a special investigating session of the Council Committee on Judiciary, Mayor Lane declared Councilman Bennett, the chairman, as well as others, had done everything possible to annoy the Mayor. Mr. Bennett quickly denied the allegations made by the Mayor, and said that the only reason the ordinance carrying annual appropriations were so worded as to compel expenditure of every cent in exact accord with specifications by the Council, "was to protect the city."

REED FRENCH PIANO MFG. CO.

Sixth and Burnside Sts., Planos, Players and Player Planos. "From Maker to Player." CONSUMERS PAY PENALTY

PAPER MANUFACTURERS SPECULATE IN PULP TIMBER. Buy Immense Holdings in Canada, Then Mark Up Prices, Says Norris. WASHINGTON, May 6.—John H. Norris, of New York, the representative of the Newspaper Publishers' Association, today repeated his statement before the House committee investigating the wood-pulp and print-paper industry, that the American paper manufacturer...

CONSUMERS PAY PENALTY

ers bought large tracts of wood land in Canada, and charged that instead of cutting the timber on this land, "which they have bought almost with recklessness," they have gone into the market and artificially marked up the prices on themselves. He protested that the American consumers should not be saddled with the penalties of any such speculation. Mr. Norris produced figures showing that there has been reduction in the price of wood pulp exported from Canada. He expresses the opinion that paper can be made for \$20 a ton. The investigation will continue tomorrow. A telegram was read from Herman Ridder, president of the American Newspaper Publishers' Association, addressed to John Sharp Williams, the Democratic leader in the House, stating that Judge Lacombe in New York had discharged the Manila & Fiber Paper Company, which had been brought before a grand jury and ordered to produce its books. The company claimed that its books had been given to an official, who had taken them to Europe. Continuing, the telegram said: "They (the paper company) now claim that they have done everything in their power to recover the papers. "On this showing they were allowed to go free. What a farce. Our only hope is the Stevens bill." Mr. Stanford (Wisconsin) asked John Norris, New York, who took the witness stand, if he regarded that telegram showing the inability to prosecute the "Manila and Fiber Paper Trust" as a failure of justice. "Not a failure, but a serious embarrassment," replied Mr. Norris. Washington—The Senate Tuesday passed a House bill without amendment for the protection of game in Alaska. It provides for a license system under the Governor of Alaska, who is to employ game wardens and to expend money collected from licenses in the protection of game.
