WOMAN'S NIGHTMARE

No woman's happiness can be complete without children; it is her nature to love and want them as much as it is to love the beautiful and pure. The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This great and wonderful remedy is always applied externally, and has carried thousands of women through the trying crisis without suffering.

Men Cured

Never was the old saying, "He who hesitates is lost" more aptly illustrated than in the case of the man who suffers from NERVOUS DEBILITY, YARICOCELE, CONTRACTED BLOOD DISEASE, DISORDER OF CONTAGIOUS BLOOD DISEASE, and who neglects to have his ailment treated. I do not scatter my faculties, as do the ordinary physician, but I concentrate them on the one thing which is the cause of the trouble. Recently and weakly, peculiar to the male sex, and which is the cause of all the ailments for some of the best men of this city and vicinity, and not a failure nor an unpleasant result has been reported. What I have done for others I can do for you.

Prostatic Inflammation

My cures of this disorder are permanent and lasting. No tonics that stimulate temporarily, but thoroughly scientific treatment for the removal of conditions responsible for the functional derangement. General nervous depression is merely a symptom of inflammation, or congestion of the prostate gland, and under my treatment the gland is promptly reduced to its normal state and complete functional activity is the lasting result.

VARICOCELE, CONTRACTED DISORDERS, STRICTURES, PILES AND SPECIFIC BLOOD POISON I TREAT AND NEVER FAIL TO EFFECT A CURE.

Canada Can Exclude Hindus.

OTTAWA, May 7.—An arrangement has been made by the British and Canadian governments for the exclusion of Hindu emigrants from Canada. It was disclosed in the House of Commons by a report from Mackenzie King, Canadian Deputy Minister of Labor, who recently returned from a conference with the British government on the question. He stated that the British ministers are in favor of keeping Canada a white man's country. A solution of the problem was found in the India act, which provides that no native of India can leave under contract to labor in any foreign country which is not on a list of countries which have made laws which the Indian government considers are adequate for the protection of Hindus.
