THEODORE GALLAND DEAD

Ex-Resident of Portland Leaves Many Friends.

SPOKANE, Wash., May 12.—Theodore Galland, president of the Northwest Loan & Trust Company, died suddenly this morning from paralysis, following stomach trouble. He was a brother of Julius Galland, head of the Spokane Brewing Company, and was a stockholder in that corporation.

Henry C. Wortman said last night that the news of Mr. Galland's death came to him as a great surprise, as he had met him in New York about two months ago and at that time he was in excellent health. He said that he and Mr. Galland had been associated in business for about four years and their relations were very close and agreeable. Mr. Galland was a bachelor but his friends were numerous and of the highest character. He was born in Butteville, Or., about 45 years ago. When he resigned as manager of the Gambrian Brewing Company, of this city, 18 months ago, he made a trip abroad, and upon his return became president of the bank in which his family is largely interested, the Northwest Loan & Trust Company. When a resident of Portland Mr. Galland was recognized as one of the most charitable and public-spirited citizens of the city.

How to Pacify the Moros.

WASHINGTON, May 12.—General T. H. Bliss, of the Army, in his capacity as Governor of the Moro province, Island of Mindanao, in the Philippines, in a report to the War Department, declares that the effort to establish an American judicial system in that province has been a failure. He proposes vesting by law in the headmen the power to try certain cases, the establishment of native courts or boards of arbitration, and the legitimizing of Mohammedan marriages. General Bliss points out that punishment should be prescribed by law in reasonable accord with native customs, but involving no degrading or inhuman condition.

APPEALS AGAINST SESSION

CLASH BETWEEN ACTING GOVERNORS OF ARKANSAS.

While One Is Away Another Calls Legislature Together—Too Much Expense Is the Reason.

WASHINGTON, May 12.—"I will issue an appeal next Monday to the conservative members of the Arkansas Legislature not to assemble in extra session," said X. O. Pindall, president of the Arkansas State senate, who has been serving as acting Governor of that state, and who arrived here last night.

He made this statement today when shown a dispatch from Little Rock, stating that Allen H. Hamill, acting as Governor in the absence of Mr. Pindall, had issued a proclamation calling an extra session of the State Legislature. Mr. Pindall declared that his reason for opposing an extra session was because the state could not afford the expense incident thereto. He will return to Little Rock Saturday night.

The New and Marvelous CURE FOR CATARRH IMPONDERO-THERAPY The New and Marvelous CURE FOR CATARRH

Seventy-five per cent of our ninety millions of population suffer from catarrh. A common cold is the "entering wedge," which prepares the system for the introduction of this disease, and unless promptly cured its tenacious grip is quickly fastened upon the mucous membrane, and the disease travels along the air passages and through the Eustachian tube into the middle ear, into the bronchial tubes and air cells of the lungs, preparing the way for consumption. In attacking the nose and head the air passages become clogged with the catarrhal deposit, and the action of the vibratory bones ceases. Until these deposits are stopped relief is impossible. While we know that catarrh is not specifically a blood disease, we now also know that it is frequently complicated with a specific blood poison, due to infection of the mucous lining of the stomach from unconsciously swallowing poisonous catarrhal mucus; hence, the frequency of failure to cure catarrh in the past has been largely due to incomplete and faulty diagnosis. We are, however, living in the twentieth century, and "the world DO move." **DOUBT AND GUESS-WORK** have given place to **ASSURANCE**. Catarrh is **CURABLE**. It would, indeed, be most pitiable if in his laboratory the great Creator had not provided a remedy for an affliction so common to mankind. Scientific research has unfolded Nature's wonders and adapted them to our use and benefit, and we offer you now a sure and permanent cure for catarrh through the efficacy of

IMPONDERO-THERAPY

which is the only treatment that can possibly reach the middle ear through the Eustachian tube, remove the catarrhal obstructions, loosen up the bones and cause them to respond to the vibrations of sound.

Come to us, all you who are afflicted with catarrh in any form. We shall cure you, and cheaply. We shall cause again the red corpuscles of rich and healthy blood to revitalize your being, build you into energetic and exuberant health and make you radiate that magnetic personality which commands **SUCCESS!**
