MOVE IS INDORSED

Collection of Produce Statistics Favored by the Trade.

GOOD WORK OF EXCHANGE

Posting of Daily Receipts Fills a Long-Felt Want in Produce District—Attendance Best Since Organization Was Started.

The Board of Trade took a step in the right direction when it inaugurated the collection of statistics bearing on local produce receipts. The Produce Merchants' Association, at its monthly meeting, gave its hearty indorsement of the move. The publication of these statistics is of vital importance to the trade, as, without them, it is almost impossible to establish prices that accurately represent market conditions. This feature has stimulated renewed interest in the exchange on the part of the produce dealers and at the Front-street meeting it was decided that, beginning next Monday, each house would be represented at the daily calls.

Yesterday's session was the best attended of any since the Board began business and most of the members of the local grain trade were on hand. Among the out-of-town visitors were W. H. Houck, of the Houck Milling Company, of McMinnville, one of the best known flour millers in the Valley; W. L. Macgregor, of Balfour, Guthrie & Co., San Francisco; O. H. Morgan, of the Globe Mills, Los Angeles, and J. E. Hollingsworth, of Los Angeles, who is preparing to go into the fruitgrowing business in this state.

Offers and sales were posted as follows:

Offers to buy—200 cubes extra creamery butter, 22c; 50 tons choice No. 1 white oats, $28.50 f. o. b. Portland.

Offers to sell—5 cases Wisconsin block Swiss, Summer make, 18c; 3 drums Wisconsin Swiss, 19c; 6 cases Oregon Limburger, 16c; 4 cases Wisconsin cream block, 18c.

Sales—1 drum Swiss cheese, 19c; 1 case cream brick, 18c; 1 case block Swiss, 18c.

Local produce receipts for the 24 hours ending at 11 A. M. yesterday were as follows: 22 boxes asparagus, 66 boxes butter, 2 boxes beans, 48 boxes cherries, 38 coops chickens, 1 coop ducks, 155 cases eggs, 162 hogs, 84 mutton, 97 veal, 2 boxes rhubarb, 26 sacks peas, 1290 crates strawberries, 199 sacks potatoes, 172 sacks mixed vegetables, 172 sacks limes, 30 sacks cabbage, 10 sacks cauliflower, 122 sacks onions.

ACTIVE INQUIRY FOR OLD HOPS.

Prospects for an Average Crop in California This Year.

Very little business was reported in 1907 hops yesterday, but there was a good demand for 1906s, and 2½ cents was bid for a choice lot. It is estimated that not over 3400 bales of olds remain unsold in the state. Among the transactions in 1907s was the purchase by Dorcas Bros. of 86 bales from Rehkoff & Niece, of Grants Pass, at 5 cents.

The following report on market and crop conditions in California, dated May 11, has been received from Hall & Richardson, of Santa Rosa:

There has been only one sale the past week in this county. The Woodward lot was sold to Donovan and we believe the price was 4½c.

While the recent showers were light, they did some good to the hop hills, and stringing and tying are now in progress. The vines look well in most sections and have stood the drouth well. We have only a very slight reduction in acreage in California, but a number of growers are tying but two strings where they tied three to four in former years. There are a number of yards in Mendocino that are not being worked, but we hear that the American Hop & Barley Company have planted some 100 acres in that section, so we do not look for any great shortage from up there.

Sacramento growers are working all their acreage and the vines in that section look well.

HIGHER PRICES OFFERED FOR OATS.

Strong Demand From California, But Transportation Facilities Limited.

The strong California demand for oats is the feature of the grain market. An offer to buy 50 tons of No. 1 white at $28.50 was posted at the Board of Trade yesterday, an advance of 50c over the offers of Monday. Shippers complain of inadequate transportation facilities out of this port, and as a consequence a considerable quantity of oats is piling up on the docks awaiting shipment to California. The Puget Sound ports have an advantage over Portland in this respect, as they have not only plenty of liners offering space, but the rate from the Sound to San Francisco is 50c a ton cheaper than the rate from Portland. The local rate south is $2.50 per ton. There are a good many steam schooners on the Coast available for handling oats, but they demand deck loads of lumber as well as their hold cargoes, and the present state of the lumber market does not permit of this arrangement.

The continued depression in the Eastern wheat markets has no apparent effect on this coast. California is still clamoring for wheat and this keeps prices up to the former high level. General quotations of 89c on club and 91c on blue stem are given by dealers, but one large firm reports the purchase of a lot of club at 90c, and it is doubtful whether the open prices quoted by the trade would dislodge any considerable quantity of grain held by farmers.

Saturday Closing on Front Street.

Business on Front street on Saturdays will hereafter come to an end at 3 P. M. sharp. At the meeting of the Produce Merchants' Association this action was decided upon. The association a short time ago voted to transact no business on Sunday, and the arrangement was found to be satisfactory to all concerned. There is very little demand for produce after 3 o'clock on Saturday afternoons, and it was decided to put the closing rule into effect at that hour.

Strawberries Clean Up.

Lighter receipts of California strawberries and the good quality of the offerings caused improvement in the market yesterday. Supplies were practically cleaned up at the close of business. Jessies sold at $1.25@1.50 and Dollars at $1.60@1.75 per crate. Receipts of Oregon berries were fair, but the quality was not much better than previously. Sales were at 10@12½c per pound. The heavy arrivals of the day were a car each of cabbage, onions and oranges.

Ten Per Cent Commission for Handlers.

With only one or two exceptions, all the Front street commission dealers have signed the agreement to charge 10 per cent commission on consignments of eggs, butter, poultry and dressed meats. The agreement will go into effect June 1. Heretofore the Portland trade has been working on a 5 per cent basis, though it is said that in every other city on the Coast 10 per cent commission is charged in handling country produce.

Steadier Tone in Cascara Market.

Eastern advices note a steadier feeling in the Cascara bark market, as a result of the firmer situation in Europe. The London holdings of the Stallman & Fulton Company, which it was feared would be thrown on the market, have been taken over by a syndicate, and this action has steadied the markets all over the world, though current prices are but little affected.

Sound Cities Want Butter.

There were no changes in the country produce markets yesterday. Poultry receipts were light, the demand good and prices firm. Eggs were variously quoted on the street at from 18½c to 20c. Northern orders are again coming in for butter, for which there is also a good local demand.

Bank Clearings.

Clearings of the Northwestern cities yesterday were as follows:

	Clearings.	Balances.
Portland	$1,157,457	$96,365
Seattle	1,922,685	301,819
Tacoma	641,482	39,838

ALL STOCKS STRONG

Financiers Fostering Demand for New Capital Issues.

TRADING IS ANIMATED

Favorable Events Seized Upon to Rush Up Prices, While Unfavorable News Is Ignored—Gold Exports No Surprise.

NEW YORK, May 13.—There was no mistaking the strength in today's stock market and the speculation showed animation and considerable variety. The principal operations were attributed still to the larger financial powers, and the professional element was timid about venturing to sell the market short, in face of this belief in support by such formidable factors.

The purpose to foster the demand for new capital issues was believed to prompt the measures to control the market and as the Harriman Pacifics are credited with the largest interest at present in this purpose, owing to the imminence of new issues, the sustaining operations in the stock market were commonly believed to emanate from sources in alliance with those companies. The meeting of the directors of the Union Pacific and the Southern Pacific resulted in the declaring of the regular dividends on both stocks, and that action helped the stocks, but they were more affected by rumors regarding the coming financing, on which no announcement was made. The rise in Southern Pacific preferred indicated the credence that was given to a report that it was in contemplation to waive the company's privilege to redeem the 7 per cent preferred stock at 115. The existence of this privilege has had the effect of holding the price of the stock close to that level. The motive for this supposed intention is said to be the desire to market the balance of authorized preferred stock in the treasury of the company.

The rumor of an intended extra distribution of Northern Pacific stock was revived. Both the Hill stocks and St. Paul are benefited by the large sales of new stock effected before the financial depression set in. Suppositions as to the benefit to the companies of these funds in hand available for expenditure during the period of depression and low prices of materials play a part in the strength of the stocks.

The prevailing temper of the speculation was clear from the avidity with which hints of favorable events were seized upon to rush up prices, while events seeming to bear unfavorably on the outlook for values were ignored.

The engagements of gold for export, while large, were entirely expected on account of the abundance of money here, the decline in the foreign trade balance in our favor and some remarketings here of foreign holdings of American securities.

Bonds were steady. Total sales, par value, $4,476,000. United States bonds were unchanged on call.

WHEAT SALES HEAVY

Declines in All Deliveries at Chicago.

FIRM ONLY AT OPENING

Excellent Weather in the Winter and Spring Grain Belts and Talk of Shutting Down Northwestern Mills.

CHICAGO, May 13.—The wheat market made a brief showing of firmness at the start, owing to a sharp bulge in the price of May corn, but heavy sales by prominent longs soon caused a decline in all deliveries. The selling was largely due to the excellent weather now prevailing over the entire Winter and Spring wheat territories in this country and Canada and to talk of shutting down of a large number of flour mills in the Northwest, due to an accumulation of stocks of flour. The market closed easy. July opened unchanged to ⅛@¼c higher at 90⅛ to 90⅜@90⅝c, sold at 90⅝c and then declined to 89¼@89⅝c. The close was at 89⅝c.

Additional rain over the entire corn belt caused strength in the corn market. July opened a shade to ⅛@⅜c higher at 64¼ to 64⅜c, advanced to 64⅞c and closed at 64⅝c. May sold between 72⅛c and 73½c and closed at 73¼c.
