Speaking on the relation of the laymen to the missionary movement. Judge Williams pointed out that the two responsibilities pointed out that the two responsibilities of the laymen are to contribute to the support of missions and encourage others to do the same. The great problem of the church, he said, is how to secure the co-operation of the communicant. It is rendered difficult because of the selfishness and sordidness of the people.

Missions Need Men's Aid.

A large part of the session was devoted the discussion of the method of ap-ortioning the missionary support. The to the discussion of the method of apportioning the missionary support. The opinion prevailed that the success of the plan depends ultimately on the individual. It was pointed out that the minances of the church cannot prosper without their aid.

Believing that the presence of Bishops of the large Eastern dioceses would be influential in arousing interest in the missionary efforts of the Eighth Department, a resolution was presented by Bishop

FIGURES SHOWING CONDITION OF PORTLAND NATIONAL BANKS AT CLOSE OF BUSINESS, MAY 14.

Statements have been compiled by the Portland National banks that show the local institutions to be in splendid condition. Reserves are large, in some cases as high as 51 per cent of the total deposits. As the law requires a reserve of only 25 per cent, this is a splendid showing.

At the last call of the Controller for a statement of the condition of the National banks of the country, deposits in the three local National banks aggregated \$2,042,505.70. The total on May 14 was \$21,388,421.28. The failing off is accounted for by the fact that depositors have been drawing against meir balances to some extent during the past few months, while the new policy of the First National in refusing to pay interest on any deposits whatever has lost \$1,642,027.16. Little new business is coming in at present, but confidence is expressed in the big reserves held by the Portland banks and the most satisfactory condition shewn by the latest statement.

The condition of the three National banks of Portland, according to the sworn statement of the heads of the institutions, follows:

Committee Decides to Determine Power to Inflict Penalty for Obstructions Placed in Way of City Contractor.

Taking the stand that the Portland Ratiway, Light & Power Company is wilfully or by neglect hindering street improvement work by placing obstacles in the way of contractors employed by the city, the street committee of the Executive Board at its meeting yesterday afternoon announced that the City Attorney would be appealed to for the purpose of determining whether or not the city has any yedress against the corporation. If possible, an attempt will be made to penalize the railway company by taking away certain portions of its franchises where complaint of obstruction is made. R. L. Sabin, of the Board, was author of the suggestion, and he received Taking the stand that the Portland of the suggestion, and he received hearty support from Mayor Lane. Although the Mayor was the most enthusiastic supporter of the plan put forth by Mr. Sabin, the committee, as a whole, acknowledged its willingness.

The issue arose over the presenta-tion of two petitions by the Pacific Bridge Company, asking for an exten-sion of time in completing work under way on Chapman street, from Spring to Elizabeth, and on Killingsworth ave-nue, from Union to Patton. In the former case the company asked for 30 days to complete its work, while 60 Gays was asked on Killingsworth aveformer case the company asked for 30 days to complete its work, while 60 days was asked on Killingsworth avenue. The company has in the past presented numerous petitions asking for extension of time, and when its most recent request came before the committee yesterday afternoon that body wanted to know the grounds on which it was based. Each petition laid the fault of the uncompleted work to the rallway company. It is declared that the railway company failed to lay new ralls on Chapman street as ordered, and this delayed the work of the Pacific Bridge Company, according to the complaint. Failure to place stone blocks between the rails on Killingsworth avenue, the bridge company maintains was responsible for its inability to expedite work at that place. After the meeting Mr. Sabin said: Time and time again we receive reports from contractors working in various parts of the city on street work saying that the Portland Railway, Light & Power Company is failing to carry out certain agreements etipulated in its franchises. It is noticeable that whenever street work is held up the railway, for some reason or other, is at fault. It is in order to find out if the city has any redress in such cases that it is proposed to confer with the City Attor-

Mayor Lane said during the discussion that whenever the railway com-pany is asked about such matters it persists in giving out excuses that are not at all satisfactory, and he insisted the company should be made to pay the penalty.
